There are not enough stars for the rating this book deserves!!!! I have never read a paranormal with an urban/comical twist. Miss Natavia is very talented & she knocked this one out the park!!! BRAVO!!!

Hecka GOOD!

Go Natavia, I loved this book. Suspense, dangerous, supernatural, and raw sexual desires. Better than some supernatural book and storylines I have read. Can't wait for the next book.

Where do I begin....First of all...this story was Everything and I do mean Everything. I like how the initial introduction was done and its transition to present day. The characters are not just 1 dimensional, which make this story even more engaging. It just flowed so well and the character build was just awesome. Most authors are not that good at doing that which makes this story very unique. At the beginning of the book I almost didn't make it through because I was laughing so hard at Kanya trying to explain what she saw to her

friends and then to the police. Now the scene with the cops has me in tears while I write this.

About these characters....Xavier couldn't bust a Grape in Fruit ole Punk. He just wouldn't listen and that pretty much got him right where he belonged. Sasha...I knew it was something shady about her, she was just to negative. I really didn't trust her from Jump. Kanya... Dear Sweet Kanya, she had me so weak pretty much this who book especially in the beginning when she was being stalk, poor child thought she was losing her mind. However when she finally understood it all, she became a hard-headed force to be reckoned with. Goon...he played no games with it came down to it. No matter how many came at him he was the protector at all cost. I think that's what make his character so great and he was a freak. I was shocked about Adika's place in all of this, besides her rooting Kanya on...Good One!!! Izra, now this guys mouth is just reckless, heck he was just reckless, but I loved that fool. Izra brought a lot of humor to the story. Those sex scenes were something, somebody going half on a baby after reading this....Ohhhh but that ending. Look that was just dirty and unexpected, Keora just let it GOOOOO!!!!

I did come across quite a bit of grammatical errors, but that didn't take away from the story.

GREAT BEGINNING TO YOUR FIRST PARANORMAL SERIES!!!!

oh my goodness! almost didn't want to make the time to write this (already into part 2) but I had to stop and give props to this author. I started reading this thinking I am not going to like this, but damn I was sucked in from the first page to the last. the sex scenes in here were hot as hell. I loved this book from the beginning.

First off want to say kudos! to this author for thinking outside of the box. This book put me in the mind of a hood twilight mixed with a little fifty shades. It started out strong holding my attention. Towards the end it started to feel a little rushed and the plot got a little repetitive. Im still intrigued to find out what happens next however. Currently marking my calender for the January release of part two.

Wow!!!!

For this to be the author first time dabbling in the paranormal field she did that! I loved Goon and Kayana. Who knew how far Keora would go for a man. This book will not disappoint you. Kudos to you Ms. Natavia and can't wait for the saga to continue.

Banging Read!!!

This book was so good!!! First off, the cover is banging! I have never read paranormal before and was pleasantly surprised how good it is. Your way of storytelling would make any genre be good. Goon was everything and more! True definition of an Alpha male. I loved Kanya's character. That Keora is gonna be a pain and I cannot wait to see what happens next. Overall, I was very pleased with this book and you did an excellent job Natavia!!!

This book was EVERYTHING! I was so intrigued from the beginning. Goon was like a thug wolf, I loved it. I didn't see that ending coming. I loved Kanya and Goon's relationship. I will reread this book all the time. I enjoyed reading the backstory and history of everything.

La'Leshea says

I did not know this book was paranormal. I just heard about it and had to see what the hype was about and man was I glad I did! This book was everything! If you can look past the editing you will enjoy this read. It had me in all kinds of emotions. Goon is the best and Izra is so funny. Just check it out for yourself!
