## **Berserker's Star** Fred Saberhagen

Acclaimed author Fred Saberhagen continues his widely popular and influential Berserker series, a chronicle of a war between humanity and the terrifying race of sentient machines bent on death and destruction.

Pilot Harry Silver's name is known throughout the galaxy—and that notoriety does not always work in his favor. While he has defeated his share of Berserkers, he has also stolen a powerful weapon from the Space Force, making him a fugitive from the life he once knew. Looking for an adventure, and not one to turn down a lot of cash, Harry agrees to bring a passenger aboard his ship, Lily, a woman who is on a quest to retrieve her husband.

It won't be easy, as Lily's husband has joined a secretive religious cult on Maracanda, an almost-planet lodged between a shifting black hole and a neutron star. While the landscape of Maracanda is treacherous, so, too, may be the people around Harry Silver.

As the search for Lily's husband deepens, Harry finds himself investigating a larger mystery and looking for missing persons, almost ending up one himself. And as always, there is the threat of death from above, in the path of a machine whose only intent is to kill...

Not nearly as interesting as the rest of the series. The Berserkers actually play a small role in the book at the very end. Overall I thought this book was a let down.

It's pure mindless fun ... but not the best in the berserker series ... I've always preferred saberhagen's short stories ... they're short, pointed, and make me happy ...

I read a lot for work ... so if it is for pleasure, I like to keep it simple.
