Melissa says

Interesting read about essential oils. The recipes sound pretty good.

Rita Brown says

Very informative

This book has a lot of information. It is organized so that it makes an excellent reference source. It is one of the best essential oil reference books that I own.

Eileen says

Great information

Chris says

Good tricks to try.

Good tricks to try.

Very informative, will try several of these recipes. Things used for centuries can't be wrong. Much easier than going the prescription or manufactured route.

Alison Gail Dixon says

Very informative

A great read, with dollops of good practical advice for starting an aromatherapy business, plus lots of great blends and formulas to experiment with. I borrowed this from the Kindle library but will probably go ahead and buy it to add to my library.

Karishma says

Meh

A little bit of useful information (aka recipes) mixed in with a lot of unsupported statements and opinions. I'm not rushing out to try any of the recipes right away or anything.

Darlene says

Very nice find

Wanting to get a real perspective and getting enough background that gave me well rounded knowledge, is what I got from this book. I am very impressed with simple yet complete. Gave information without dictating my choice of products. Got a borrowed version, but worth the investment to add to my purchased collection
