## Color Blind T. Hammond

Blinded and scarred in an accident a year ago, Teresa has finally found love, and a new career with the help of her companion dog, Red. Red appears to be a typical German shepherd, but he shares a mental communication link with his owner that is anything but ordinary. He's articulate, sassy and opinionated - he's also scary-smart, and has a talent for tracking.

Teresa and Red, have partnered with David, and Bastian, to form Team Red. This unique Team helps the local police department sift through evidence to find forensic clues that only Red's sensitive nose, and Teresa's ability to ask the right questions can uncover. A twist of fate brings Team Red to the attention of the Military, and the Team gets ready for their first undercover mission (we can only divulge at this point that Red looks adorable in his tux).

**WARNING:** This book is a Laugh-Out-Loud paranormal extra spicy romance (Yes, I've boldly meshed humor and sex \*gasp!\*). This Team Red book contains a feisty blind woman with a sassy attitude; a snarky German shepherd who stalks low flying objects (and the occasional cat); two sexy retired Navy men with a talent for tactical planning; a man-cave with secret tunnels and classified military toys; a formal invitation to a black and white ball; Marilyn Monroe; and a herd of Mustangs (okay, maybe 'herd' is a slight exaggeration). This book is INTENDED FOR MATURE ADULTS OVER 18. Sexual situations and adult language were used (and abused) in the making of this novel.

## From Reader Review Color Blind for online ebook

### T. says

I always think its silly to review our own books... what am I going to say? I love this book. I loved writing about the characters that came into form during Blind Seduction. I loved the advancement of the story, even as I arm wrestled, most often unsuccessfully, to keep the characters from going off in directions not detailed in the plot outline.

The truth is, I'm a character driven writer, and the characters take me where they think the story should go... and let me tell you, this one kept deviating from my nice sane idea from the third chapter, and gave me no respite thru the remaining ones.. even the ending was totally unexpected.

I was blessed with an excellent editor that gets me. She also, more importantly, gets the characters and had a hand in helping me shape the book into a better story than its predecessor.

You will laugh- out loud, and probably in the most inappropriate places (i.e. the doctor's waiting room. I apologize ahead of time for making people stare at you like you're a nutcase). You will be sad- there are some spots that really made me stop and wonder who wrote the dialog, because I didn't know this (specific) character had this much depth. If you were Team Bas in Blind Seduction, you may switch sides a couple times, and still not be sure of who's the better love interest. Ditto for the Team David fans. One of the best compliments from the beta readers: was they were compelled to re-read portions of the book because they really resonated or they just plain liked them.

Enjoy!

#### COULD NOT PUT IT DOWN!!

It's a rare book that will capture my attention and make me read until I'm finished! COLOR BLIND kept me captivated and I literally read it in one sitting. T. Hammond brings back the characters we fell in love with in BLIND SEDUCTION, including, you know... the dog. Red... well, he is just plain snarky. Hammond infuses the humor throughout the book. I kept laughing out loud, not just smiling, but laughing. There are some great surprises in the book too ... I won't spoil the fun except to say that she delivered, and then some. You don't need to read the first book to be able to jump into the second one, (and note that I said second book, because you know there HAS to be a third) but why not read the first one too? Hammond has another hit on her hands!

---

### Danielle Taylor says

I was given both Blind Seduction and Color Blind by the author.

As I mentioned in my review of Blind Seduction, writing from first person POV of a blind character would hold challenges not many authors could attempt and nail on the head - T Hammond has done it, and in the

most intriguing way. So far I've read both Team Red novels in two sittings (and lost quite a lot of sleep in between) and now I have to wait for the third!

Once again, we enter Teresa's world - only this time, there is a twist. I won't give it away, but DARN, Ms, Hammond! I love how the characters interact and the playful teasing that ensues in each interaction, but most importantly, we see their strengths and weaknesses. The characters are real; they aren't without their flaws. Despite her lack of sight, envisioning the world through Teresa gives the reader an entirely new perspective on life, love, and friendship.

Don't let me forget the steamy scenes...phew!

The ratings I give Color Blind are exactly the same as for Blind Seduction. I debated cutting a heart in half, stomping on it, and pasting it back on for the way I felt when reading that cliffhanger ending, but that's not fair. Nor is it technically possible ;) I can't wait for book 3. Seriously. I'm buzzing with excitement and a whole lotta grrrrrr hurry up, woman!

---

### **Jennifer Moulton says**

Color blind brings a lot to the proverbial table. Without giving anything away, I'll just say that each character's range, as well as the twists and turns in this book, really comes together nicely and the plot (quite literally) thickens! I really enjoyed it, and I look forward to reading more from this author! She just gets better and better! It's a fun and entertaining read that will leave you with goosebumps.

---

### **BJ says**

The story is very wordy, little action and the H is so smug until the end when the H drops a major bombshell onto her. It was so out of context with his character, that I didn't believe it. Didn't like it.

---

### **Amy says**

This was a great follow up book to Blind Seduction. I enjoy all the details that the author puts into her story, especially when it comes to Teresa and the way she adapts and 'views' things around her. Team Red is working a new case in this one, Red has new abilities to share with Teresa, and Bas is still harboring those unrequited feelings. I still want a talking dog, but he has to be sarcastic, sweet, and funny like Red. The concept behind this book is still awesome to me! This is becoming one of my favorite series. The ending though will make you want to throw your kindle and scream, at least that's what I did! I need book 3 YESTERDAY! Awesome concept, awesome characters, awesome series period.

---

### **DelSheree says**

Teresa and Red discovered their mind-speak connection in the first Team Red book, and joined forces with the local police department to stop a rapist. Surely they're ready for a break, right? Not exactly.

The pair still have a few tricks up their sleeves to discover, and no reader can forget David and Bas. David's relentless passion sweeps Teresa off her feet, and Bas is struggling to come to terms with that, but every member of Team Red is put on high alert when a group of military men show up unannounced and threaten to reveal Team Red unless they pledge to assist them. Team Red is only getting started.

After speeding through book one, I was eager to get my hands on this book. I have to say, I wasn't disappointed. Book one left readers wondering who the secret footage of Red was sent to, and in book two we get to find out. The romance angle definitely has the potential to overpower everything, but I enjoyed the storyline in this book quite a bit. The interruption of the military group that tries to force their way into Teresa's life sets off a series of events that adds plenty of excitement and danger to the story.

What I really enjoyed about this storyline was how it allowed Teresa to grow as a character. She discovers new abilities with Red and she also is pushed to grow personally and to face difficult situations that will impact her emotionally. Teresa was a good character to start with, and I came to enjoy following her story even more.

The romance aspect of this book is a powerful draw as well. The love triangle that began in book one between Teresa, Bas, and David is only partially resolved. Yes, Teresa chose David and loves him very much, but that certainly doesn't mean Bas has let go of his feelings for Teresa. I was a fan of Bas from book one despite his talent for making stupid choices and saying the absolute worst thing when it came to Teresa. Watching him struggle to be around Teresa was heartbreak. Hammond did a great job of keeping the romance intense and keeping readers guessing. I won't give any spoilers, but the ending...wow. Readers will be dying for book three.

Readers do need to remember, though, that this book is geared for more mature readers. There are sex scenes, sexual conversations, and profanity. If you want the same fabulous story without these aspects, remember that Hammond is writing a dual series for New Adult readers. Red Zone will be out late August/Early September 2013.

### **Kathryn Svendsen says**

Red Zone is book 2 in the Red Series of T. Hammond's books about a dog guide with the ability to communicate mentally with his blind owner. This book could be read as a stand-alone novel, but you'll have much more fun if you read book one, Red Rover first, as you'll have all of the character development from that book.

Red and Teresa have come to the attention of the military and the Team are asked to undertake a mission for them. Meanwhile, Teresa and Red continue to explore the extent of their mind speak abilities and discover a new ability as well. This new ability has the power to leave Teresa severely depressed if she lets it, even though it is a wonderful gift too.

I loved the idea of this second ability that Red and Teresa developed. I particularly liked that it was from Red's point of view.

As in the first novel, my favourite character is Red, with his sharp, sarcastic wit and child-like behaviour. I

particularly loved the scene about the car and the lock/unlock buttons on the key fob.

I found the situation between David, Bas and Teresa to be very painful and wonderful at the same time. I think it is fantastic that Teresa and David are so in love, but I feel for Bas who still is in love with Teresa and has to see her and David together every day. I think he has a wonderful, honorable, strong character to wish them both well and to be friends with them both and not want to come between them. I don't think there are many men who do that. I think most would have to remove themselves from the situation.

The military operation that Team Red was involved in was interesting too. Lots of glamour and intrigue. Red does look smashing in a tux too.

Red Zone is full of humour, fun, romance, and action. T. Hammond has written a well-paced novel that will keep your attention from beginning to end. You won't be sorry you picked this novel up. I gave Red Zone 5 stars out of 5. I would highly recommend it to anyone looking for a light-hearted romance with action.

Thank you to the author, T. Hammond, who provided a copy of Red Zone in exchange for a fair and honest review. A positive opinion was not required. All thoughts are my own.

### **Lea says**

Team Red does it again! Red (the smart ass talking German Shepherd) and his team are back and they just keep getting better! Theresa and Red and their special skills have come to the attention of the military and they want some help. Bas and David are still around and while Bas has stepped back because Theresa chose David his friendship with Theresa is very strong. I love Bastian! He's my absolute favorite and I really hope that he gets to a happy ending eventually. I was team Bas from the beginning and I'm still holding out hope. And did I mention he has such an amazing dirty mouth...I can't wait to see what else it can do (wink, wink). This book has some more action than the first one, lots going on. With PreClan's technology almost ready to turn over to the military and Theresa and Red's special skills it's hard to tell who or what is being targeted and why (which is what makes it fun right?). I still love the chemistry between all the characters in this book. Bastian and David have an absolutely heartbreaking heart to heart (especially if you're Team Bas like me), Janey and Jason take Ken for a walk on the wild side in San Francisco, and Gil from Spokane PD is an excellent addition to the team. Fair warning though, the end of this book....holy freaking cliffhangers Batman! I stayed up way past my bed time reading into Blind Faith (the next book in the series) because I couldn't stand to be left hanging like that. Book one Blind Seduction stands alone fine and parts of this one do too (the mission is completed anyway) but the relationships are, let's just say in a state of flux at the end of this book and I absolutely could not wait to see what happened next! I was glad I was a little late to the party for this series because if I had to wait for the next book to be released I might have lost it. There is an omnibus of the first three books and if you are interested in reading beyond the first one I would recommend that way as once you read book 2 I bet you won't be able to stop either and it's nice to have book three just a page turn away. If you liked the first one I'm sure you'll like this one too, and the ones beyond. Ok back to Blind Faith for me, I can't wait to know what happens next!

### **Nancy Stopper says**

Color Blind is the 2nd book in the Team Red series. In this book, the author really increases the intensity of the suspenseful aspects of the story with the introduction of the military interest in their work, and the risks associated with Teresa and Red's ability. I really enjoyed reading the suspense story lines and loved how Teresa continued to demonstrate her strength in facing the real threats to her physical well-being.

Throughout this book, Teresa's relationship with David deepens and we see how that relationship has an effect on Bastian. Teresa overhears a conversation between Bastian and David that show just how much Bastian actually loves Teresa. He demonstrates this in his conversation with David in how it feels to see them together and how he stepped aside in favor of David as soon as he realized that her love was for David. This shows TRUE love - a love willing to sacrifice for the happiness of the other. I spent most of the first book clearly on the "Team David" team but found Bastian endearing himself to me more and more in Color Blind. When he was introduced in Blind Seduction, he came across as arrogant, rude, and a bit of a "man-ho" but in Color Blind, you really begin to get to know the Bastian underneath, and I've really come to like him.

The title Color Blind is quite appropriate for this book as we find that Teresa and Red's connection extends beyond her hearing his thoughts - she finds that she is now able to SEE through Red's eyes. He is truly her seeing eye dog! Once we learned of this new connection between Teresa and Red, I found myself as anxious as Teresa to see David for the first time, and to see Bastian, who she hadn't seen in a decade. I think I cried along with her when she began seeing through Red's eyes. What a wonderful gift. Color Blind ends with a cliffhanger - as David drops a bombshell on Teresa. As the book ends, we are left to wonder what happens next to Teresa, Bastian, and David as she begins to process this revelation. I found myself anxiously acquiring the next book to continue the story of Teresa, Red, Bastian, and David.

### **Denise Colvin says**

Great Book!

---

### **Amanda says**

I bought book one, but haven't read it, so wasn't too sure what to expect when asked to read and review this one. I was told that it could be read stand alone, so I went for it. After reading this one, I will be definitely making sure I read book one. This book pulled me in, from the beginning. So much so, I couldn't put it down & finished it within a day. It's got a little bit of everything!

A book that can make me laugh out loud is great and Red, the German Shepherd, did exactly that! His constant comments and (sometimes) crass jokes were hilarious!

It was amazing how Ms. Hammond was managed to be so descriptive in the details of the whole book, especially when it came to Teresa. She portrayed being blind so well. I found myself closing my eyes at times, actually feeling what it might feel like to be blind myself.

I loved the characters, (ESPECIALLY) Red, Teresa, Bastian, Ken, Janey, Gil, and I suppose, David. The interaction and love felt amongst them was so strong. It was interesting learning about the military ranks, although honestly I have no clue how Teresa remembered any of it.

Teresa is a very strong willed woman. She is more than capable of handling herself, physically and mentally. She has no problem taking out her ex, who gets a little grabby when she's home alone, and bounces back pretty well afterwards, with the help of her friends.

There was a cliffhanger at the end that left me in shock, mouth wide open. I absolutely cannot wait for book 3 to find out what happens, and what happens next between David, Teresa and Red, especially Red, as I'm sure he will have a thing or two to say about what happened.

Here is an example of Red's witty humor –

"Duct tape can't fix stupid," Bas growled.

"Maybe not," Red replied, "but it can hold it down and muffle the screams."

---

### **Jocelyn Sanchez says**

Let me start off by saying that when I first heard this concept for this book, I was intrigued and excited to see how it would turn out. Most people would be intrigued with a book that had a dog that could talk telepathically to a woman. But this storyline is genius! It has just the right amount of romance and humor that I find myself laughing and crying when I read these books. I loved the first book and I love this second book even more!

The story picks up awhile after the first book leaves off. David is now living with Teresa and him and Bas are working together for the government. Red, the dog that shares a mental communication link with Teresa in the story, is as funny as ever and shows off his abilities whenever he can, some which even surprised me! Teresa and Red, have partnered with David, and Bastian, to form Team Red and start to help the local police department to uncover clues and secrets in cases. But with a twist of fate Team Red attracts the attention of the Military, and Team Red where asked to go on a mission for them. Add romance and humor, and this book is brilliant!

I loved this book! I love books that can keep me entertained throughout the entire story. My favorite characters are Teresa and Red. I mean, who wouldn't want a sassy and sweet talking dog? Red always kept me laughing in the book and I was fascinated by all the things he and Teresa learned how to do in this book. I won't give any spoilers, but the things they can now do are amazing! I still adore Bas's character and loved his role in this book. David is as sweet as ever and I love the scenes with him and Teresa. Be warned, some of those scenes are steamy and drool worthy! The ending of the story left me shocked!! The cliffhanger left me wanting more! Ugh!! I need to know what happens next! T. Hammond is a wonderful author, and I'm a big fan!! This book is awesome and I recommend it to everyone!!

Some of my favorite quotes:

"Duct tape can't fix stupid," Bas growled.

"Maybe not," Red replied, "but it can hold it down and muffle the screams."

"Yeah, I usually grab the red one that says, "Welcome to the Nerd Side. We have Pi'."

I shook my head. "Trust you to grab the geekiest one in the cupboard."

"Kettle? Black?" He taunted. "Correct me if I'm wrong, but aren't you the Nerdy Girl that picked those mugs?"

"When I think about my dog, I mentally picture a toddler channeling Albert Einstein- there are flashes of brilliance, but the toddler is still there, steering the body."

---

### **Christine Ernest says**

#### **Amazing!**

Well, I did not see that coming! All I can say is that I need to get the next book in the series to find out what happens. T. Hammond you have a devious, devious mind!

---
