Didn't They Tell You That I Was A Savage? Porscha Sterling

Juicy Kim had a hard life growing up. Being the only daughter of a prostitute, she's constantly been pushed to do things that she should have had no part in. When an opportunity arises for her to get enough money to leave home and start her own life, she jumps at it...even though it means she'll have to risk her life by robbing Chi and Sin, two up and coming players in the dope game. But when Chi discovers her in the middle of the robbery gone wrong, her entire life changes.

Chi, the wild child...the craziest of the Savage twins, is a strong believer of the motto 'live fast, die young'. His flashy style gave him the name Chicago, but his savage personality won over Juicy's heart. But although Chi knows that Juicy is a woman like none other he's met, he can't let go of his past ways. Chance, Chi's ex, is one part of his past that he can't be without but he also can't stop the fast living, party lifestyle that he loves more than life itself. Will his unwillingness to calm down cost him more than he really wants to give?

Sin is the quiet, more reserved twin. The oldest of the two, Sin has no problem playing the background and letting Chi do his thing. But Sin has a real issue when it comes to Chi's treatment of Juicy. With Chi jumping in and out of Juicy's life, it often leaves Sin as the one that she turns to when she needs someone she can trust. But when their relationship makes a turn into a direction that neither one of them suspected, no one is prepared for the outcome. What will happen when Juicy is forced to choose?

Leontyne S Washington says

This book is LIT!!!

This book is LIT!! Marisol was the parent from hell. But juicy whole took after her mammy even though she doesn't see it. Those brothers are going g to become enemies and one of them. It going to make it. Precious probably swallowing the whole crew. I bet Chance was in the bathroom with Dez and that was just means everybody getting it on with everybody.

Shekie Johnson says

Juicy. Omg! What a great story. I can't wait to see what part 2 brings!!. That Marisol was getting on my nerves though!!.

LATINA WILSON says

What A Read

The storyline kept my attention from the beginning to the end. The characters was well developed with enough information and them to understand their role in the story. Here's a story about love and betrayal. Twins in love with one person who in turn love them both back but in different ways. Chi is the one that show her kindness for the first time since her father. He doesn't want to grow up. He wants her and what she wants but not now. He wants his cake and he wants to eat it to. Sin shows her the type of love she wants. What's going to happen when Chi finds out. What a read,what a read?

Final Rating 4.25 Stars

evette w says

Good Stuff

Ok this story starts out with so much promise, and somewhere along the way it jumps off the road.I love the vicious love triangle thats going on however I don't like the fact that the heroine spirals out of control.I think I need the characters to be a little more developed. This is a good story I just need a little more.

Kim says**Great**

Great read! What a roller coaster ride! It's a terrible situation yet u feel for all parties involved! My girl Juicy can't catch a break! Hopefully she just walks away from it all!!

Shawn Hawkins says**Wish I could give 6 stars!**

I wish I could give 6 stars...That ending had me hyped as hell. Will Chi change? Does he know about Sin and Juicy? Is Chi seriously thinking about changing for Juicy or is his heart with Chance? Porscha girl you got me screaming over here! Please hurry with part 2

Lisa says**What?**

What in the world! This book started off with me having a frown on my face then I had a look like, this is a good one. Sure enough another good read that I definitely recommend!

Akeisha says**Perfection**

I really enjoyed this novel it had a great flow with the story line the only fault I have is the work that chi was into can black people have some other profession beside it being illegal .other than that I really rate the author

Wayneisha Swann says**Oh such goodness!**

What kind of mother does the stuff that Marisol does to a daughter? Juicy is torn about who she wants to be with ans why wont Chi just give in to Juicy and lay the player card down. This book took me on a rollercoaster ride and I was a good one. I can't wait to see what's gonna happen in part 2!!

Taz Will says

Couldn't really get into this one because Juicy seemed like she only wanted pity and someone to take care of her. Chi was doing too much and with the way they were switching partners I would've enjoyed this more if the author would've give someone a STD. When reading a story that you can't feel something besides the downfall of the main characters following along with the next one will just be a waste. Good on the next one because again I don't care for either of the characters.

💖KrissyLPlug💖 says**Wow!!**

This book was soooo good. I can't believe the web that Juicy has herself entangled in. All she wanted was love, she just went about it the wrong way. I don't know if Chi had really changed before he figured out what was going on with Sin, but it seems like it was too late. I can't wait for part 2 to see how this plays out!!

Robin Perryman says**Okay**

It was okay. Juicy started acting like how her mother raised her. Chi rescued her from Marisol only for her to be sneaking around with Sin. That's the ultimate act of betrayal. Yeah he was cheating all on her but she let him. Juicy was playing a dangerous game that will be her downfall. She really needs to end it with both of them. She also needs to cut precious loose because she's grimey. What about her mother? It's like she did all that crying but now she's not checking on her. Chi is mad at Sin but he left the door open for him to walk in. These characters are all confused. They're all young and don't know how to handle relationships or friendships. I may read on to see who dies for lust. Too bad Omar died early on, I had hoped he and Juicy would find love.

Christine mccullar says**Great read**

Even tho I don't agree with the way chi do juicy, juicy and sin r dead wrong. No matter how much love they say they have fo each othe that's still his brother twin at that

Ladii Zig says**Okayyyyyy**

This was an okay read, reason for me saying this is because I feel as though this is making us look at Juicy like another Marisol and I know she's better than that. I don't agree with her being with two brothers and twins at that. I feel Chi has a lot of nerves because he still isn't doing right by her even before she stepped out, oh but he will be in his feelings once he finds out Chance is really sleeping with Dez. Sin is just in his feelings and he wanted to get Juicy jealous and that he did succeed in, I also feel he's the one paying Marisol's hospital bill. Can't wait to see what part 2 brings and how this is going to end...
