Dollars Pepper Winters

"I should never have asked for a night with you. This would never have happened if I'd had more willpower."

Once upon a time, I was a mute captive who wished for death.

Now, I'm stowed away on a yacht.

Saved and taken, the thief who stole me demands my voice, my past, my everything.

I won't give in.

But Elder refuses to take no for an answer.

He pushes and cajoles, slowly discovering who I am. Until I find out he plays the cello to escape his demons, all while his music conjures mine.

He's rich, I'm bankrupt.

I'm mute by choice, he's curious by nature.

So many reasons why we can never work.

But that doesn't stop our connection, our passion.

Until one night, he ruins everything.

Pepper Winter never ceases me to amaze me with her talent. Her stories are always so well written and so well developed, her characters so intriguing and interesting, her story-telling so effortless and fascinating. If you are a fan of dark and twisted stories, then you don't want to miss this author's work. Trust me on this! 'Dollars', like 'Pennies', the first installment in the series, kept me at the edge of my seat from begging until the end. I couldn't put this book down for one minute, the story becoming more and more captivating with every single chapter. Pim and Elder's story was enthralling and so very gripping from begging until the end. Their portrayal, their dynamic, the plot, everything was fantastically done.

"Give me what I want, and this will be a lot easier on you. Don't, and you'll rue the day you refused."

Elder, deciding Pim is the most fascinating woman he ever met takes her from her master wanting more than anything to have her in any way, shape or form. He wants to keep her, at least for a while, he wants more time with her, he wants her to make her talk and find out who she is. He knows the physical and emotional connection between them are strong, but he also knows how dangerous for his heart and soul Pim is.

"Pim was a shooting star. She wasn't free, but she was beautiful in her quest to find peace."

Pim doesn't know who she is anymore. She doesn't know how to exist, how to move on or how to behave around Elder, because she doesn't know if he's good or bad. She is attracted with her new captor, even if she hates these new feelings; she feels she should be grateful that he saved her from Alrik, but she can't, since in some way, Elder is the same as any other captor.

This second installment was fantastically written, perfectly paced, intriguing and so very gripping. Personally, I think it was much better than the first, everything being more fascinating in some way – the characters, the dynamic between them, the hero/anti-hero background, everything really.

“Here I was human...a girl. Here, I was someone not something.”

Pim was a heroine I felt deeply about reading the first installment, but also this second installment. I felt her pain, her despair, her confusion and I even understood her mixed feelings toward Elder. However, I have to say at times she was frustrating as hell. She was a great, strong character I admired as much as I admired reading the previous installment, even if at times she seemed to be naïve and maybe too vulnerable. Her character growth was amazingly done, with each and every chapter we get to see a new Pim, a stronger Pim, a woman who slowly starts to get more comfortable in her own skin, a character realistically portrayed from the very beginning.

“Elder Prest was the most dangerous man I’d ever known. Not because he could kill me whenever he chose, but because he had the power to steal so much more than just my life. He could steal my heart.”

While in the previous installment we get to find more about Pin and her past, in this installment we find out more about Elder. His background was gradually revealed, which I absolutely loved and with every single revelation I found him to be more and more fascinating. However, he’s still a mystery to me and I can’t wait to find more about his past.

The mystery elements were perfectly blend with the psychological ones , the story becoming more and more captivating with every chapter and with every interaction between these two characters.

Can't wait the read the next installment! Overall, a fantastic, dark, intriguing read!

What if I fall? Oh, but my darling, what if you fly? ~Erin Hansen

The best feeling in the world is to get lost in a book where you're transplanted, almost if by magic, to a new world. A world where you take flight to a new destination. *Dollars* by Pepper Winters was my destination to a delicious dark world, one that danced in my dreams and filled me with an infusion of heartbreak and hope. I quickly became lost in *Dollars* and did not want to be found.

I devoured *Dollars* and *Dollars* devoured me. I shut out the world while the dark world in *Dollars* became my world. *Pennies* was the darkness that shattered my soul. *Dollars* is a union of dark and light that both slayed and saved my soul. I was captivated. I was captured. I was claimed. **The words whispered to me, becoming the air I breathed, as I drowned in the devastatingly beautiful *Dollars*. *Dollars* was my adrenaline...my anguish...my ache...my addiction. I WAS ALL IN.**

Beautiful blue-eyed, dark-haired, and long-legged Tasmin Blythe was killed on her 18th birthday, kidnapped and sold into slavery where she became Pimlico 'Pim.' Her owner was an evil monster, one she extinguished after extensive physical and emotional abuse. Rescued by the gorgeous and elusive Elder Prest two years later, Pim is not sure whether her new owner is a saint or a sinner...perhaps both.

“We were worlds apart, yet for some reason, he'd not only invited me into his but stolen me to share it.”

Dark-haired, dark-eyed, and inked Elder is gorgeous. Pure perfection. A lethal mix of all alpha male, angel, and devil, Elder walks the fine line of hero and criminal. Burned by a painful past with wounds that still resonated with Elder and were under the surface until Pim opened them.

“She expected me to be a monster. I was a monster. Just one she'd never come across before.”

Pim has been to a hell so heinous that I would not wish it on my worst enemy. She has waded through the depths of darkness with only a sliver of hope as light.

“I told you, you are worth more than pennies, yet you cling to a dollar as if it's the sum of your value.”

She wields power like a knife. On the outside, she is gaining strength, but on the inside, her worth is a penny when it should be billions.

“How did this man understand me when I’d never spoken a word to him?”

Pim may not speak, but her unspoken words speak to Elder. Their connection is a magnetic force, one forged by fate. Oh did I love their beautiful bond!

“He was no longer just Elder. My savior and captor. He was so, so much more. And it hurt because I wanted to know how deep that more went. It seemed like I wasn’t the only one.”

Pim is a bird in a cage struggling to be free. Though despite the hardship through the pits of hell, Pim is a warrior armed with her head in a battle of wills that aided her through the abuse, and the aftermath where her body is healing from internal and external breaks and bruises. I admired her courage and tenacity so much!

“She wanted to be normal. Despite her fighting me, she secretly hoped I’d smash her cage and teach her how to be free.”

Pim is beautiful despite being battered and bruised. A fallen angel fighting for her life, Pim looks ethereal with a glow that accentuates her beauty and strength, inside and out. Elder can’t get this goddess out of his head or heart.

“Forget the past and only remember this.”

(His lips crashed against mine.)

Oh did I SWOON! I did not expect Elder to melt me to mush, but he surprised me in the best way, making me fall for him even harder!

The chemistry between these two mostly strangers is fire-hot...a slow burn. Passion that permeates from a mere look. Understanding from a shared bond that neither can grasp nor get.

“I didn’t want to fall. I want to fly. With him.”

I LOVED ELDER, MY DARK HERO, SO MUCH!!! He is complex and caring, and dark and dangerous. Pim is breaking through her shell and rediscovering Tasmin. This jilted bird is spreading her wings, preparing to fly, and it’s all because of her dark king who wants his captivating queen. Elder can only hope that his beautiful bird—his soul mate—doesn’t fly home to her past life.

Oh did *Dollars STEAL MY HEART*, picking up some of the pieces that *Pennies* shattered. *Dollars* is hope and heart, strength and salvation, and love and war. ***Dollars was the hurricane to my heart, the fire to my feels, and the calm to my soul-slaying storm.*** Ups and downs. Twists and turns. Bruises and burns. I went on a roller coaster of a ride of gut-wrenching heartbreak fused with happiness and hope. I was utterly immersed and intoxicated, completely overcome by this story. I FELT EVERYTHING.

I felt every word I read in this pulse-pounding UNPUTDOWNABLE soul-searing story. *Dollars* bared its soul to me and stole mine. The spellbinding and spine-tingling *Dollars* shook my soul, grabbed my gut, and hit my heart so hard that my emotions bled long after the story was over. ***DOLLARS OWNED EVERY PART OF ME.***

I lived *Dollars*. I breathed *Dollars*. I was bound to *Dollars*. I became *Dollars*, a story worth billions in gold. OH DID I FALL HARD IN LOVE!!! **I did not want to deposit my *Dollars*; I wanted to keep every last word...every last feel...every last cent of *Dollars* to myself.**

Please see more of my reviews at www.bookaddictshaven.com

If ever there was a time when I knew that I should have waited until the entire series was out before starting, it is now. I love all things Pepper Winters, so I am predictably weak when she has a new series out. I tell myself to wait, because the anticipation between each book in the series will drive me crazy. However, I have no self-control and so here I am again.

As usual, Ms. Winters has tied me in knots. I am dying to find out what the future holds for Pim and Elder, but Ms. Winters will keep me waiting for quite some time yet. The anticipation is killing me! No surprise there.

The second book in the series, 'Dollars' picks up where 'Pennies' left off. Pim has killed the man who tortured her for years, Master A. Taken by Elder Prest, she soon realizes that her rescuer is also her latest captor.

He may not be as cruel as Master A yet, but there is a darkness in him, lurking beneath the surface. How deep that darkness runs, or how it manifests itself, is still largely a mystery. Bits of Elder's past are revealed, but much more remains unknown. Who exactly is he? What is this darkness that he alludes to that he struggles to control?

As Pim recovers from her injuries she maintains her silence, choosing to observe and take in everything around her. Elder is as much her obsession, as she is his. She has learned the hard way not to trust anyone, especially men. She is certain that every kindness he shows her is a trick, furthering whatever ulterior motives he has. He has hinted as much.

Like Master A, Elder grows increasingly frustrated with Pim's silence. He vacillates between a determination to force her to talk and a recognition that this behavior would make him the exact same type of monster that she's just escaped. Throughout the book, he flip-flopped between these dispositions. After a while, it got somewhat repetitive.

Pim's behavior also seemed to flip-flop some. This was largely in response to Elder's moods. Every time she seemed to be making progress, he'd grow impatient and set her back again.

This back and forth between the two went on for what seemed like forever. Don't get me wrong, I love the angsty, push and pull between main characters. Nothing bugs me more than a story that feels forced and rushed. There is certainly no risk feeling that way with this one.

In fact, my main complaint about this book is that I didn't feel like the storyline progressed all that much. I'm sure that Ms. Winters has intentionally done this to fully develop the relationships, characters and the storyline. However, the suspense is killing me!

As much as I love Pim and Elder as characters, I have to admit that I spent most of this book just waiting for something...anything...to happen. For the most part, there was a noticeable absence of any action or plot twists that would get my heart going. I felt like this book was just building a strong foundation for future books in the series. At times I was even bored, which is unheard of for me when reading a book by this author.

That being said, it is still a book written by Ms. Winters. Even if it isn't my favorite of her books, it is still superior to at least 80% of the other stuff I read. She's just that damn impressive! I might have wanted a little more action in this one, but I know that there was a well thought out reason for the flow of this book.

Don't give up on it yet, though. The last 20-25% of the book really picks up. Suddenly, there is some action and some suspense. Questions are answered and I felt like I gained a little better understanding of Elder. Of course, all of his secrets were not revealed. I have a feeling that won't happen until the very end.

The relationship between Pim and Elder also takes a new direction. Honestly, I was a little surprised that it happened this soon. I am looking forward to seeing exactly where their relationship is headed. This is not a couple that can just have a HEA fall into their laps easily. I'm sure that there is more hardship on the horizon for these two.

All in all, I enjoyed 'Dollars'. There were times when I thought it was dragging along, but I know it will be worth it in the end. Mainly, I'm just anxiously awaiting the next book in this series and kicking myself for not having the patience to wait until all of the book in the series were finished before I started.

TITLE: Dollars

SERIES: (Dollar, #2)

AUTHOR: Pepper Winters

CHAPTERS: Prologue | 42

GENRE: CONTEMPORARY ROMANCE

RELEASE DATE: November 18th, 2016

DOLLARS: This starts right where **Pennies (Dollar, #1)** left off, and is told in 'Dual Perspectives' Pimilico had been stolen and sold into slavery right before her twenty-first birthday, two years under the thumb of a sadistic man who nearly killed her over and over again. But she has a new master now, the man with the dragon tattoo was her saviour or is he? Has she been pulled out of the frying pan only to be thrown into the fire?

Now the wait is on to see if she will survive what she'd endured, a severed tongue, many battle bruises mark her body to show the life she'd endured has aged her remarkably. Will she ever talk again?

Everything moves along slowly in the beginning of this second installment, the slow build up to what's burning like an ember between these two is scorching once it's finally ignited and exploded.

Both are damaged goods but like a magnet they are drawn to each other, the good, the bad, the ugly. And the feels will zap you full force and leave you gasping in their wake. This series is like no other series this author has written before or even what I've read before, everything is unique in its entirety.

This book brought me to my knees then laughed whilst I was left kneeling in despair, my heart was pounding overtime, it's gutwrenchingly raw, I'm still reeling over everything I read, I still reeling over not having the next installment in my hands, love love loved this book.

~4.5 Broken and Beautiful Stars~

"He created love but violence at the same time."

Dollars is the second book in the Dollar Series. Pim is back, and she has traded one master for another. After escaping the torture and darkness of her captivity, she has found sanctuary in the most unlikely places. This second installment in the Dollars Series is a dark and twisted tale with more pain, more intrigue, and more mystery.

"I was alone. I was tiny. I was no one. Live or die; the world wouldn't know or care."

Pim Lico is a mystery just waiting to be solved. Now broken, she doesn't know how to exist. Elder has brought Pim to his home on the sea. The boat becomes her new sanctuary. With medical help, food, clothing, Pim doesn't know what to do. As the desire to survive and the desire to die continue to do battle, Pim clings to one truth. She is alive. She is not dead.

"...another step, placing himself behind me, aligning our pieces as if we belonged to the same chessboard with a long lost king and queen."

Elder Priest is a man with a past. He is a mystery. Like Pim, he is twisted and broken inside. He brought Pim to his home to figure out who she is. The desire to know what happened to her consumes him. As Pim invades his every thought, their physical coexistence invades his heart. Pim awakens the beast that has been locked up for so long. Elder is physically drawn to Pim, but it is the emotional pull that overwhelms and destroys him. Elder knows he should set her free, but he can't seem to let her go.

"A connection breathed between us now that had no words but was so fucking strong."

Told in dual POV, **Dollars** is a stark contrast from **Pennies**. The brutal torture has passed and now it is the calm before the next storm. The pacing is slow as every emotional moment is felt to its fullest. The psychological breakdown for both Pim and Elder is gradual as both discover a semblance of peace within each other. As the sexual attraction continues to undulate between them, slivers of Elder's past are revealed. In addition to the glimpses of the monster we have seen, a tortured kindness exists deep within the layers of

Mr. Priest. I felt every ounce of frustration, pain, and sexual tension laced through every piece of dialogue both spoken and unspoken. With the explosive conclusion of **Dollars** the questions remain unanswered, the mystery is more complex, and the saga of Pim Lico and Elder Priest is only now just beginning.

Overall, **Dollars** is an absolute must read for fans of Pepper Winters and dark romance lovers. Although the pacing and mood in **Dollars** is a complete contrast from **Pennies**, I have no doubt in my mind that every single moment of the journey is significant to the overall story arc of the series. I am even more intrigued with Mr. Priest, and I cannot wait to see what happens next for Pim and Elder. No doubt, the best is yet to come!

In **Dollars**, the plot timeline opens in succession with Pim trying to negotiate her new surroundings away from the white mansion. Not knowing whether Pim's circumstance has improved, she is tentative and doesn't know how to react to the demands being made upon her. Despite feeling powerless, Pim tries to overcome her past but doesn't know what feelings to trust, as certain trained behaviors have been instilled in her core.

“And if he wasn’t like the others, how could I predict what he wanted?”

Pim isn’t the only one trying to adjust to the new living arrangements, as Elder is at odds with his decision. Exposing himself to Pim could lead to disaster but Elder can’t stay away from her. Battling his demons, he is forced to reconcile emotions he buried long ago causing tremendous inner turmoil.

“You owe me, Pimlico. I told you I wasn’t the hero.”

What draws Pim and Elder to each other is complicated. Elder has been very open about his sexual inclinations toward Pim but it's more than just the physical in that Elder feels a deep connection to her. While Pim is processing her feelings, she is angry and feels betrayed that her body feels an attraction to Elder who wants a certain gift before succumbing to his basest desires.

“I want to fuck you.” His hips thrust again. “I want to hurt you.”

In this second installment, a range of emotion is present that includes reflection, healing, anger, betrayal and gratitude. With a somber tone, it is obvious Pim has been through hell and knowing the time it will take for her to rebuild adds tremendous tension. Adding to the conflict is the mystery surrounding Elder's secrets and vulnerabilities. While we get a few glimpses into Elder's world, there is still so much to be revealed and for Pim to experience.

“I need to live in the moment. The future I cannot control.”

With much contemplation, Pepper Winters takes her characters on a thoughtful and arduous journey. The plot moves at a pace that forces the reader to pause and feel how Pim's emotions take a step forward but three steps back. At times, it is frustrating but also realistically portrayed considering her painful experience. With Elder, there were times when I wanted him to surrender to his urges and unleash the beast despite knowing how it would affect Pim and their future.

In all, the storyline successfully continues to build layers of intrigue and added dimension. There is still much to discover in this series and I look forward to continuing to see how it will all unfold.

The pace of this story was very relaxed and unhurried, like the author wanted the reader to savor every word written and every clue sprinkled throughout the text that might hint at what to expect for book three. Had I read this book immediately after it was released, I may have felt more impatient about the tone and direction this story took.

Reading this book felt like I was putting on my favorite accessory: familiar, comfortable, and very satisfying with a relaxed fit. Same as with this story. Book one introduced readers to the ever-defiant Pim living within

a world of unimaginable horror and grotesque daily treatments, but when Elder Prest entered the picture, all bets were off and book one ended with a delicious bang! In *Dollars*, there aren't any action scenes and Pim is recovering from those injuries acquired in *Pennies* (some are permanent), but she's not *exactly* the same girl from book one.

There are five books in this series and I look forward to seeing the way in which PW continues to carefully and slowly peel away each layer of these characters! I recommend reading this book when time permits for a slow-burn kind of story. Otherwise, the angst, the lengthy inner monologues of the characters, and the push and pull of their slowly-developing relationship may frustrate the reader. Although this book offered more personal access to Elder's life, there were still so many secrets and passerby hints about his past that were not divulged.

Favorite thoughts from Pim?

My anger had given me a backbone, but his peace had given me sanity.

The ending was exquisite and I'm not even mad about waiting again for the next installment in this series. Thoroughly enjoyed!!

3 Stormy Seas Stars

First I have to say I loved the first book and I mean LOVED it so I think my expectations for this one were just to high. I thought the writing was great, for me it was just the content that was lacking. I am hoping that this book was a big build up for a much more lively third book. I am sorry in advance for this insanely chaotic review.

*******May contain spoilers*******

The setting for this book was probably what intrigued me the most (thats got to tell you something). Living on a super yacht would be awesome heading to anywhere that takes your fancy while living in the lap of luxury.

Pim is learning how to live with herself while not being in constant fear, of course her mind is a mess and it becomes obvious her biggest battle will be with herself. Here lies one of my problems with this book, although necessary the inner dialogue was a killer IMO it seemed to sit on repeat at times and I got a little bored.

To me everything that got to me about this book needed to be there and I did not hate it, it just got under my skin. The push and pull in this is **real** people!!!! The characters are lost to themselves so have no idea how to come together. Slowly as Pim started to recognise herself underneath the layers of broken Elder started to

understand her more. In turn he was able to use his understanding to get what he wanted.

So this was a necessary read for the series and I will be continuing the series. However if the next one is similar to this I will reconsider.

*****5 ORIGAMI STARS*****

Origami.

The art of taking a simple piece of paper (or dollar) and folding it into something beautiful. The dollar has been used, crushed in someone's grasp, it has been shared. Passed to different owners, transferred to another's possession. Its value is solely based on the numbers marked on the paper. A dollar bill is delicate. Put into the wrong hands it can be ripped, destroyed, worthless. However, when placed in the talented hands of someone with the knowledge and understanding, the skills, the patience, the gentleness, the precise movements. The paper can be transformed into a piece of art. One that the Master of the Hands will then cherish. Not only will they acknowledge its worth but will build it up and shape it into a **MASTERPIECE. A TREASURE**

That's how I would describe the relationship of Elder and Pim.

"She was one of the strongest women I'd come across, and she hadn't spoken a word. That sort of strength...it did things to men like me. It made me want to break her and shelter her in equal measure. It set a war in motion between the devil and angel on my shoulders, and only time would tell what part of me would win."

"I'll tell you a few secrets of my own, silent one. I steal because I'm good at it. I steal because I get pleasure from it. You are my possession, and once stolen, I don't relinquish what is mine—to anyone. And this—" he wagged the wallet—"is how easy I take things that don't belong to me."

Pennies (Book 1) was about the dark and the broken. Dollars sends you on a journey of Pim's healing and self worth. Of love, encouragement and choices. The love story that is unfolding in this series is intoxicating and alluring! Pim is still battling with herself. She has chosen to be mute for two years. Establishing their connection in the way that Elder always seems to know her thoughts and needs without a single word spoken! It's emotional and heartwarming watching Pim's trust unraveling and slowly giving him her voice, responses and thoughts.

"Whatever happened today doesn't matter. It's your choice to relive or forget. I can't do that for you."
Pressing the gift into her hands, I added, "However, perhaps I'll be your genie. Write down your wishes, silent one. Tell me what I can do to make it right. "Who knows what will come true."

Pepper Winter's words whisper off the pages captivating the readers with her writing, unleashing all my feelings!!! Just from reading this series I am a die hard Pepper Winter's fan! How am I just now hearing about her? She has definitely become one of my favorite authors! I can't recommend this series enough!

"However, when Elder looked at me that way...I liked it. He didn't strip me of power. He made me gather more of it. He became weaker the more desire drenched his blood, while I became stronger, having control to deliver what he wanted or deny it."

"THAT WAS THE first day but definitely not the last that Elder broke my proverbial chains and taught me how to smile again."

This is Book 2 in a 5 book series!! And I can't wait for the next ones!!!!!! All my friends who are reading this series and loving it as much as I am...we are now BEST FRIENDS! ❤?

What a fantastic continuation of the series! I couldn't stop reading and page after page the plot thickened. I want to know that the heck happened to Elder in the past that still haunts him till this day. And thank god for the double POV, seriously. Sometimes I wasn't impressed with Pim's behaviour but I get what she has to deal with and that simply needs time and a lot of patience. I only wished they would do more about their insane connection (not that they didn't do anything). The end!!! The freaking end!!! That was so mean! I want to know what happens next so bad! I cannot wait for the next book! I know their relationship will take time but I just hope that the cliffy doesn't stir the plot in some strange way. I want more of them together! They are

like two missing puzzles and I truly wish nothing tears them apart. I have a feeling that perhaps we will see the bastard that got away again and that might cause some mayor drama in the future. That would be an interesting twist for sure. But till then, I can only wait for the next book to come out (which it hopefully does soon). :)
