Finding Home Reagan Hollow

Lacey is a small town girl relocating to a big city after finding her fiancé in bed with her best friend. All she wants to do is start fresh, in a town where no one knew her and was big enough to get lost in. She finds just what she's looking for when she stumbles across an ad looking for a roommate.

After a night of drinks at the club her new roommate works at, leaves Lacey drugged and in bed with club owner Cory Lewis, she must find her strength to piece her life back together.

When her past shows up and shakes her world, who will she be able to trust?

Will she be saved before it's too late?

Follow Lacey on her journey of heart break, betrayal, and possibly a shot at a second chance for love.

Authors Note: This book is a Romantic Suspense meaning it may contain subject matter that may be sensitive for certain readers. That being said, this is not erotica. This means, there is sex...but there's also more story line. I hope you take a chance on my debut novel and leave a review whether you like it or hate it.

I received an ARC in an exchanged for an honest review.

This book is Reagan Hollow's first book adventure into indie author and she did very well. The book starts with Lacy being a witness to her parents murder in a convenience store, she travels around foster cares until she is out of system. She decides on a fresh start and moves to the north east. Here she meets her new room mate who is a bar tender at a night club that caters to BDSM tastes. Her room mate brings her to the club where she meets Cory the owner of the club.

Cory's life is set and he does not want a girl interfere with the life he leads, until Lacy is attacked at the club and Cory makes his personal mission to protect her and find out how she was attacked. The thing with Cory is that he ran cold and hot so many times it almost gave me whiplash. It was like he couldn't decide what he wanted, I felt he was almost mean to Lacy, like it was her fault she was attacked at his club. The sex scenes were well written and very hot.

The other thing that bothered me about this book was I felt the author was telling me the story and not showing me. I felt I was skimming through the book and not anchored in the story, attached to the characters. There were times I had to reread several passages to understand what was going on because of the feeling of detachment.

One thing I did like is the cliffhanger...and that is all I'm saying about that. I give this story 3/5 stars.

What a wonderful surprise this book was to me. This is Reagan Hollow's debut novel and I would never have guessed it. Ms Hollow has written the first novel, in what I will assume will be a series, with all the confidence and flair of an author who has been writing for many many years. She pulls the reader in from the very first page and keeps them there until the very last. Yes, I was one of them, I simply could not put this book down.

Lacey Carter, a young woman who has spent her formative years being moved from foster home to foster home, as a result of a tragedy, has moved to Seattle to begin her life over again, after yet another life changing incident. There she befriends Amber, who is a character that also has some secrets and Cory, Amber's boss.

Cory Lewis, wealthy, good looking, HOT and the owner of a business that is considered highly illegal. He too has a tragic past that has affected his life and made him the man that he is today.

The attraction between Lacey and Cory is instantaneous, the flames start burning inside and they need to be doused. I love the interaction between these two. The general banter they have, the glimpses they try to hide from each other, the full on staring but mostly the way in which their bodies react when the other is around.

But all is not as it seems as someone from Lacey's past comes back to haunt her. Once again her world is turned inside out. How will this new intrusion into her life affect her blossoming relationship with Cory? Will he be able to keep the woman he is growing to love?

Yes the book does end on a huge cliffhanger, but it does not detract from the overall story. Ms Hollow has done her book proud - she has kept the suspense level high and keeps her reader guessing as to what is actually going on. The way in which the story flows is exceptional, building to that final climax, that will have every reader screaming out their lungs!!!!

This is definitely a book that deserves a FIVE STAR rating.

The book started as Lacey Carter aged 10 who on the way to a holiday with her parents stops at a gas station to use the bathroom a robbery ensues and her parents are murdered. It takes up where she is 18 and engaged to her boyfriend Aaron , but upon returning home finds him in bed with her best friend Alison. This is the last straw for Lacey, so she packs what little belongings she has and answers an advert for a room to share in Seattle, Washington hoping to put as much distance between her now ex Aaron and her ex friend. In Seattle we meet Amber who is the girl she is going to be sharing with so Amber takes her to the club she works at as a bartender, where Lacey lays eyes on Cory Lewis the clubs owner. After only having a few drinks Lacey blacks out and wakes to realise she is not in her own bed but that of Corys, who tells her that her drink was spiked and he brought her to his place for her own safety. What follows is a joy to read as Cory opens up about his past and they realise they are falling for each other..... until he receives a call saying they have found the person who spiked her drink leaving Lacey alone at his house and leaving us with a cliffhanger. I couldn't put this book down and cannot wait for the second instalment as I was gripped from

start to finish so far I give this 5 stars

4 DARK CLUB STARS

I am still surprised to know that this is a debut novel by the author, although throughout the book one cannot say that it is a first book by an author. I pretty much liked her way of writing and her character building as well..

This book starts with the story of a small town girl Lacey, who then shifts to Seattle due to some incidents in her life. She has been through tragic events in her past as well but finally when she overcomes all these circumstances and settles in Seattle where she meets Amber her roommate and Cory, Amber's boss...

Oh i loved Cory Lewis sooo damn much man..! Cory is the owner of a bar and yesss! you can guess what a hot personality he can be..!

The book was quite suspenseful and page turner, (Im not gonna spoil it at all). Because I myself went in this book blind, and i really enjoyed it.

But it was a cliffhanger and i hattereee it...!! Can't wait to read the next book now!

Highly recommended..!

Reagan... You, girl, kick butt! This book was so good; I could not put it down. I heard a lot of good things about this book, so when I noticed I had the opportunity to read it, I did not hesitate to snatch it up! This book starts out on an epic rollercoaster ride of emotions and does not let you off until the last page. When I say page turner, I mean a serious page turner.

Lacey is one strong heroine. You get to see her battle as a child when she loses her parents, and then as she gets older and life just doesn't seem to let up on her. Aaron, let me just say, ugh! I wanted to like him, I did! But a turn f events just made me despise him. Then you have Cory. MMM, Cory. Anyways, he is just another one of those characters that adds to the many twists and turns of this amazing read!

Now, I'm off to read Finding Strength because I fell head over heels in love with these characters.

Every now and again you find that book that will surprise you. Well, this one was that for me such a good read was hooked from the start.

On to book 2 after that ending.

Lisa Welch says

this is the first book i've read by this author and I am glad I did, its not an erotica novel but has a good splash of raunchy sex scences, however the main story is a mystary suspence, with Lacey been stalked, after been drugged in a nightclub her new landlady lives in. Her landlords boss take an intrest in Lacey and deems it his responcabilty to care for her and ensure shes safe, But can he ?

This book has loads of twists and turns withtin the plot to keep you turning those pages like a woman(or man) possessed, the ending leaves you on a cliff hanger i will warn you, but it is the right place to leave the book, ready for the explosive 2nd book in the series.

The characters are really strong and have a bond that is believable, what a night in shinning armour that Cory is and Hot to boot, and this book to your TBR you wont be disappointed its an amazing fast paced complex story that will leave you wanting more

Lisa Gerkey says

I chose this book on a whim because I was looking for something completely new to me. This seems to be the first book for the author. I managed to stay focused and into the book until I was finished with it. That's when I started trying to figure out what one thing had to do with the other and how it was tied together, which is something I hope will be answered in the next book. I really needed something more than one chapter from Cory's POV to really connect with him. I liked this book, but I can't call it great until I see how or if all of the pieces are going to come together. Since there was focus on it, I expect that what happened when Lacey was ten is going to be relevant to what is happening with Aaron and Cory. This author will stay on my watch list because I really enjoyed her style and her characters.

Finding Home By Author Reagan Hollow 4.50 Stars

I received an Arc in return for a honest review This review will contain spoilers, My review is based on the points below.

Characters:

The characters were very likable, you wanted to root for Lacey and Corey, at first Amber is a little much to handle but she falls quickly into the "crazy best friend" category

Lacey - Heroine

Corey- Hero

Amber - Secondary Character New Best Friend/ Roommate to Lacey (Works for Corey)

Aaron- The Villain and Lacey Ex- Fiance

Plot Line:

The story beginning with a young Lacey heading out for vacation with her family, while stopping at a gas

station her parents are caught in the middle of a robbery gone bad and are shot dead, since the parents weren't close to their extended family Lacey was placed in the foster care system until she was finally placed with permanent foster parents. She meets her Fiance Aaron and all seem well until she comes home early to change and find Aaron and her friend Allison in bed together. After a confirmation she packs her bag and heads for a new life. Answering an ad in the classifieds she finds Amber's ad for a roommate. Amber is the polar opposite of Lacey in every way, she comes from money, (her parents own the building they are living in) she is into fashion and being seen and heard, she works for Corey the hero in his Private members only club, Corey and Lacey meet and it's instant attraction. After Lacey is drugged Corey feels it up to him to protect her and the love story unfolds pretty quickly, while trying to get her new life and new relationship started she feels like she is being watched and she is correct apparently her ex fiance has gone crazy and is now stalker/psycho I will leave the rest of the details for you to read and enjoy

Flow of Story:

The flow of the story is really good, The conversation between characters flows nicely and sounds like people actually talking, from start to finish the story kept me wanting to flip to the next page.

Grammar and Punctuation:

I didn't see any grammar or punctuation errors. The point of view is consistent throughout the whole story.

Formatting and Cover:

The cover is very pretty the font selection and color scheme are very eye catching, The cover model is a new face, which is very nice. The formatting was also good it was all consistent.

Reason for Deduction of .50 :

This was a personal reason, and does not reflect on the quality of the story. I hate cliffhangers, most of the time once I read in a blurb that is a cliffhanger I don't even bother reading, I like a full complete story mostly because when I really like a book I want to get my HEA, I will definitely re-read when the second book comes out I'm excited to see what happens to Lacey, Corey and Aaron, I also hope for more Amber and Alex Story.

How far would you go to get away from a cheating, no good of a boyfriend? Well, Lacey is done! Enough is enough and she decides what better way to forget and move on than to pick up and leave her old life to start a new one in Seattle. There she befriends Amber, her new roommate. Amber brings Lacey to the club she works at as a bartender. There is where she meets the sexy and very intriguing Cory, Amber's boss and owner of the club. Lacey is instantly drawn to Cory, but after what she has been through she keeps her cool. Her first night in Seattle ends up being one very unforgettable one, when Lacey's drink is spiked and she loses consciences. When she wakes up, she is in Cory's home. He is determined in finding who drugged Lacey, and gives his oath to protect her. While working on finding the person responsible, Cory is adamant about Lacey staying with him in his home. As time passes, Lacey and Cory grow closer, they share the demons of the their pasts, and feeling grow stronger. Eventually they both give into their desires and give themselves completely to each other. Things look like they are turning up for Lacey and Cory, until Cory is called away to the office to investigate a lead in Lacey's case, and Lacey turns up missing. Who is the mystery person responsible for Lacey's drugging? Can Cory save Lacey, or will it be to late?

What a great debut novel for author Reagan Hollow. I loved Lacey and Cory's connection and how they brought out the best of each other. Ms. Hollow left us with one heck of a cliffhanger and some unanswered questions. Can't wait for the next installment to see the fate of Lacey and Cory. Well done Ms. Hollow, well done!

Book-Lovin-Momma says

I really enjoyed this book by Reagan Hollow. Lacey comes from a difficult past, with her parents murdered when she was young. She's had to grow up in the system, and her life hasn't been an easy one. When she meets Cory through her friend Amber, the sparks are immediate, and you can sense the connection between them. I loved the dialogue and the way their attraction only grew with each page. It was a really good debut novel.

Leanne says

I'm kind of torn with this book.

It is a quick, catchy, punchy read. It has characters that work well together and individually. Like Alex and Amber...they may be secondary characters at the minute but they've got a real presence about them, something that I'm looking forward to exploring in the future.

The first half of the book is page turningly suspenseful BUT when a certain point in the book comes (you'll know it when you get there, I'm not spoiling!) it becomes a bit predictable and a tad repetitive.

I am looking forward to book 2 though. From the ending of this one, it sounds like it is going to be a heady mix of masculine dominance and protection.
