Going for It Elle Kennedy

Before she leaves town, she's going out with a bang...

Sam Taylor has lusted after ex-baseball-player Riley Scott for far too long. Now, her business bought out from under her, broke, and with nothing to lose, she refuses to leave town without getting the one thing she's always wanted. Riley. In her bed.

Riley had the reputation as a player on and off the baseball field. He's wanted Sam for years, but valued her friendship too much to let sex ruin it. Now, after a forced retirement, he's looking for a purpose in his life. Sam's bar, the Diamond, is just the thing to get his life back on track.

But before he can reveal that he's the new owner, he finds himself the willing victim of her full-on seduction. As he succumbs to her feminine charms, he begins to think maybe there's a way he can have it all—the Diamond, the woman, and the friend.

Until she finds out he's the one responsible for taking away her most treasured possession...

Marce says

I liked it, but this is definitely too short :(

Ivonne says

una historia corta y entretenida, hot, llena de amistad y amor...

un deseo de 2 años que solo hasta el final pudo hacerse realidad, si uno no daba el paso el otro tarde o temprano lo haría, la tensión sexual era inmensa!!!

tuvieron su momento difícil en donde era todo o nada, arriesgarse o no hacerlo, confiar en el otro y trabajar juntos.

un final feliz pero que hubiera sido mejor un poco más largo.

Lu says

No me gustó, una historia con carencia de contenido que valiera la pena.

Auntee says

This was a hot, extremely short (52 pages) friends-to-lovers story by the talented Ms. Kennedy. I don't know what it is about this author but I haven't been disappointed by her stories yet--they're easy to get involved in, I end up caring about the characters, and the love scenes are usually quite erotic. This one was a pretty quick read, and when I have an hour to kill or just don't feel like becoming involved in a longer book, I usually like to pick up an e-book like this.

Sam Taylor is a 26 yr.old bar owner from Chicago. For the past five years, the bar left to her by her late parents has been her life. She's tried to make a go of it, but recently her efforts have been in vain, and she's been forced to sell it. She's leaving town in a few days to start her life over in New York, but before she goes there's something she *must* do--have sex with her best bud and secret crush of the past two years, former ballplayer Riley Scott.

Riley's been hanging out in Sam's bar ever since he was forced to retire (bum knee), and has had a flirtatious but platonic relationship with the beautiful curvy blonde. He likes being around her, and even though he has a reputation as a 'player' who doesn't 'do' relationships, he doesn't want to endanger the friendship by indulging in a one night stand. He cares for her too much. But one night when Sam flat out propositions him for some no-strings sex, what's a guy to do?

Well, Riley and Sam set the sheets on fire as expected. (Get your fans ready!) What's unexpected is the way

Riley feels afterward. Being with Sam feels so *right*. But Riley has a big secret that he's kept from Sam, and before he can start thinking about a possible future with her, he knows he has to come clean. How will Sam take it? Will Riley's actions destroy Sam's feelings for him? Does this former ballplayer have a chance in hell of winning the love of the only woman friend he's ever had?

Nice little romance with a generous helping of hot sex, an apologetic, sexy hero and a sassy heroine makes for a fun one-hour read. Don't miss this one if those elements appeal to you.:) 4 stars.

Mojca says

A hot, let me repeat that, HOT little short story. Maybe a little too hot with a little too little plot (I have no idea what I just typed).

I wish Ms. Kennedy would've expanded the whole deal a little, make it seem less like PWP. I still liked it, though. The two really had some chemistry going, and lots of time to make up for (two years, people!).

The heroine's reaction after learning the news surprised me, though. I would've smacked the bastard silly. And what was with him taking that long to go after her?!

All in all, a sweet (I use that word a lot, I know), short, steamy hot quickie of a story, perfect for a rainy afternoon (or at least the rainy amount of time it takes to read a short story).

Janeth Rueda says

Es malo, muy malo.

Belen Checa Ibergallartu says

Incapaz de terminarlo , me qued al 36% sinceramente decepcionada

Maria says

it was a good bite of a book!

Michelle K says

Sometimes I find it difficult to rate such short books perfect stars because the books are so short. I have a tough time getting involved with the characters because the development is just to quick.

I have to say that this book was short but it was sweet. If you are looking for a little romance story with a

predictable ending that is going to take you away for about an hour than this is the perfect story.

When the two main characters come together for a long overdue sexcapade, you can feel how much they love each other and that they had for a long time. The actual writing by Elle Kennedy was quite good and sexy hot. You will enjoy reading Going For It. The only downside is just before you know it the book is done and I wished it was a longer story so I had a chance to get to know them better.

Shawna says

3 ½ stars – Contemporary/Erotic Romance Quickie

Okay, so I had trouble believing the hero Riley's big epiphany of realizing he's been in love with his friend, heroine Sam Taylor, for the entire two years that they've known each other. So being a total playboy and manslut who beds countless women left and right and then tops that off by stealing his friend's beloved bar and livelihood behind her back means the guy's in love, huh? Riiight. I'm not buying it. And she was waaaay quicker to forgive him than I probably would have been. But it's still a fun, smokin' hot quickie read that's worth the hour or so reading time. 3 ½ stars.

Patty Isla says

Leído 2010

Kelly_Instalove says

Grade: C-

Starting new would be good for her. She hoped. But she had no intention of leaving town with regrets, and not jumping Riley's bones would be the biggest regret of all.

The heroine has lost her family-legacy business and her apartment, forcing her impending move across the country to live in her sister's basement. But no big deal — her most important priority is to get laid by a jock.

While I didn't have much respect for the heroine or the hero (no spoilers!), the friends-to-lovers romance was realistic and kind of sweet, I loved that the heroine did the seducing, and the grand gesture HEA was really good.

This would have been a solid C, but a few "Oh, FFS" moments kicked me out of my reading trance:

-> No-condom sex with a self-admitted manwhore. Twice. But it's OK, because she's on the Pill.

-> The irrelevant and unnecessary inclusion of the heroine's BFFs — their Sex and the City drunken tell-alls were pretty eye-rolling.

-> The hero mentally describes the heroine as "saucy." I added that adjective to my List of Patronizing Ways to Describe Your Heroine. I haven't decided if "saucy" is better or worse than "sassy."

-> The heroine feels "waves of pleasure in her womb." Let's review: Womb ≠ Vagina. Womb = UTERUS.

-> The hero's only defining traits as a former pro athlete are his swagger (he swaggers a LOT) and his preference for "the three B's...blonde hair, blue eyes and big tits."

This was one of Kennedy's early efforts, and reviews of her recent books have been much more positive, so I'm not going to let this short "meh" scare me off this author yet.

Cheney Stropus says

Cute, quick read. Lots of sex in so few pages, but I'm not complaining! I liked both characters and felt they had pretty good chemistry. There was some tension knowing he was buying her bar, but very short lived, because the story was so short. Not much back story for either character, but just a nice glimpse into their lives right now.
