Lost In That Hood Love 2 K.C. Mills

Shots have been fired, leaving everyone wondering what will happen next.

Cage is thrown back into the street life and will do whatever it takes to protect his brothers, but at the same time, he has to think of his son and Desai. Keeping his family out of harm's way and not falling back into the street life is the only thing on Cage's mind. Will Cage be able to protect his family from a brewing street war, or will he be sucked back into his old lifestyle?

After the craziness of the event, Desai isn't even sure if she has a job anymore. Her best friend used her to cause havoc in other people's lives, and now Desai must figure out what she will do next.

Smith's revelations have torn Crane and Shy's relationship to pieces, and it may be beyond repair. It will be up to Crane to prove to Shy that their love can overcome anything. Crane's personal life is out of control, and an enemy is out lurking in the shadows and waiting for a vulnerable moment to pounce. That vulnerability will cause Crane to lose someone close to him and force him to change his priorities. Will Crane be able to win Shy back and become a family with her and the baby they have on the way, or has he done too much to be forgiven?

Crane and Cage have always put family first, and now that includes their little brother, Keem. Will they be able to get their personal lives in order and protect their families from the streets? The Andrews brothers are definitely Lost in That Hood Love, but will that be their ultimate downfall?

Great read

Well you've done it again! You are a beast with the pen. I loved the Andrew brothers. I'm glad that Rakeem was able to have a relationship with his brothers. Cage was bae he didn't play about his woman or his relationship. Crane has to learn the hard way about not taking his woman for granted but he eventually got it right. Keem was bae too, he held Sidni down from the start and he didn't play about his daughter. I can't wait til the next book drops!

Homerun!

First let me say that this was a good solid ending to a two part series. The writer gives us a different look at the lives of the Andrews brothers. The dynamics of this story doesn't directly deal with the perils of the street life they live but their personal relationships. We get to see them navigate through everyday issues like ordinary people and at times struggle. This was such an entertaining story and refreshing to get a look inside at what goes on. There were a few typos that almost took you away from what the writer was trying to say but luckily you are already deep into the story you can overlook those. Overall you are not going to be disappointed but so very much entertained.

???????????

Well...I knew I didn't like Smith, I felt like she shouldn't have got what she got. I'm definitely glad that the brothers formed a relationship♥? Leah got exactly what she deserved ? I loved Sid with Keem. Glad everything worked out with Shy and Crane. I couldn't stand Drena she was unnecessarily annoying. Of course I loved Cage and Sai they are a dope couple. I still don't have the right words for Reyah...poor child?????

I love the Andrew brothers

I love all three of the Andrew brothers. I wasn't sure about keem at first. But he showed blood over money even If he didn't know his brothers. My favorite lady in book was Sid she was a go with the flow kind of girl. I like how the author showed you different type of relationships. The message about you have a choice to make a decision in how you handle it. It can cost you everything if you choose wrong. Your upbringing does not make you who you are. You responsible for your decision. Lessons crane and Mika and Smith had to learn. Great read

What an ending lol

Cage and Desai: I knew they were gonna end up how they did because they weren't letting the other go for nothing.

Shy and Crane: Shyyy is my boo! lol She gave Crane EVERYTHING he deserved!
He didn't suffer enough tho lol
Glad he got some act right about him

Keem and Sid: They really grew on me lol their love no matter how much they deny it is genuine and organic. Rocky was too much lol that lil girl is a mess

Reyah: like girrrlllll you still ain't learn huh? Cage better than me because she wouldn't even be allowed around Cannon.

Leah: is trash lol like how you mad about a bed you made, boo? You decided to gamble and lost why and how you mad?

Smith: got off too easy if you ask me lol

Woodward and Priest got what was going to them.

Awesome

I loved the characters in this book. I'm so happy that crane finally got his act together so that he could love shy the way that she deserved. I loved cage the most because he was so down to earth. This book also shows that family is everything the way crane and cage was there for each other

Tenika says

A Perfect Hood Story.

I'm with Shy , Smith didn't deserve a half million dollars. Crane would have suffered some more. Reyah is delusional thinking that her and Cage were going to get back together. I just that when she made Cage plate that she was going to drug him but he didn't fall for it. Drena was just as crazy. Leah and Reyah needs to form a group called the bitter baby mama club. Rakeem is a good dude who didn't step out on Leah only sent her and Rocky away for their own protection, she was to stupid to realize that. Instead she used the opportunity to cheat on Rakeem. I'm happy for all the couples that is going to get their happily ever after.

The Andrews ? & Enemies

I just love ❤️? Cage & Desai. They are thee cutest. I'm also happy that Crane, Keem & Cage we're able to finally come together as a family. Bad circumstances brought them together but they were able to overcome their past together. They are all stubborn though. I'm glad they ALL have good women on their sides. & As for Cage & Keem ex's they got a lot on their hands ?. I dislike Smith's disloyalty though. I knew she was a snake ? from the start. You can't be happy for your girl though over a man ?????? SAD! I'm glad all relationships worked out though! ??

Great ending

Great ending to a great series. I still say Cage and his mom both were delusional...but then my mother insisted that it was my responsibility to aid in any way I could. You have the money, Cage. Just pay the damn bill. It's your son's mother. I don't understand why they gave her so many chances. Sidni was a breath of fresh air for Keem. Leah was a opportunist. I was also tired of the woe is me from Shy. She knew exactly who she was dealing with. Keem really started tap dancing on my nerves with that tough guy act when all Cage was trying to do is help him. I'm glad they got it together. Desi sister Drena was a straight ho# bag. They gave her way more opportunities than they should have. I hated the way things ended for Links, he was the only one with his head on straight. The only who had his stuff together.

Desai wins the prize!!!

Loved this story, the characters and most of all the boss women like Desai and Shy. This story was full of adventure with the street men becoming father's and loving the women there with. I loved how Desai took on the loving role of helping with Cannon as if he was her own. Smith did everyone a favor and disappeared and wasn't missed. Happily ever after for them all and even Keem found his peace. Great story!!

Great series

Loved it. Picked right up from part 1. No over the top situation. Loved all three of the brothers and glad they had a great ending with the women in their lives. Kept your interest and moved real smooth. Couldn't put it down. Kept wondering what was next. I had to go to the end so I could see what happened. Then went back and finished it. Really a good series.

Grammar

As much as I love kc mills series. I just feel like she has been doing this for too long to have so many errors. It soooo annoying it was like she didn't care. When I see her books I automatically click it to read, but I really feel like I'm gonna give her a break. It take too long to finish her books because of the errors. Just proof read for Pete's sake. Another thing I notice is that her first books are always BOMB but in the second part of the series I find myself skipping pages, and there should only be so many times I have to read about how fine the men are, we get it he is fine but it get annoying after consistently reading it.

Loved It!!

I absolutely loved this book. Where do I start.....I loved how Crane and Shy worked through Crane's infidelity and how he grew as a man and changed his cheating ways. It's sad that it took almost losing his family to realize that, but I'm relieved he got it together. Cage and Desai, OMG loved them and their relationship. I loved how Cage was opposite of Crane and was a faithful man and the ending with the beginning of their new family. Lastly, Keem didn't play about his baby girl Rocky and I'm glad he decided to have a relationship with his brothers. I love his relationship with Sid. I sure hope their is a future book or spin off with updates of their families! I see a bright future for all these couples/families and can't wait to read more. As always Fabulous Job by the author!
