Buying Time...

An ancient legend comes to life when assassins from three great tribes of warriors set up shop in the village of Sinanju, with the wholesale destruction of Remo Williams on their minds. For a guy like Remo, a little mortal combat's no big deal, but this time, a day's work only buys him trouble. A powerful old enemy is back in business, determined to close out Remo's account, and even with all the skills of Sinanju, Remo keeps coming up short.

To make matters worse, Harold W. Smith, director of CURE, is sitting on the deadliest threat to U.S. Security he's ever encountered, and no one's minding the store. If Remo and Chiun don't turn up soon, the free enterprise system will be out of business, and Smith will have hell to pay--with his life and the future of his country.

## James Renner says

### One of the best of the series

This has been by far the best of the Destroyer series book I have read. I became a fan back in the mid 70s when a friend turned me on to the books and was so happy when I found them on Amazon. I have read the entire series to this one, even the bad ones and have to say this has been the best so far. It's the first one that Remo's love interest was not killed off, but had to leave him to allow his destiny to be fulfilled. A tragedy, but should be interesting to see how, or if it ever plays out.

Wow! Great story, so sad for Remo.

## Marko says

Simply put, this is the best story in the series thus far. We get a lot of interaction between Remo and Chiun and we also get a fresh, new look at their boss, Smith, as he tries to solve a serious threat to the nation by himself when Remo and Chiun have gone missing.

Remo faces the Master's Challenge, setting him up against the best fighters of ancient lost peoples around the globe, but also the disciple of Nuihc: the Dutchman. The Dutchman is not presented as an all-out evil force, but is actually a tragic figure. And Remo's infatuation with the visiting female in the story is also a lot better than ever before: it actually turns into love and forces Remo to make difficult decisions along the way.

A very good story - a true gem in a series that is otherwise relatively lighthearted and casual.

## Travis says

Remo must travel the world to face some other masters of different secret fighting styles. Nice little comic book feeling adventure, as we encounter the other masters, get some more history of Sinaju and meet 'The Dutchman', who will become a sort of arch-foe to Remo and return every couple year.

One of the books that makes you realize this series is more than your typical paperback, manly spy/vigilante series. It has built it's own mythology.

## **Timothy Boyd says**

One of the big men's adventure series from the 70's than ran an impressive 145 books. The series while an adventure/action story is also full of satire toward much of the mainstream fads and icons of the time. An interesting main character and the sarcastic mentor makes this a funny action/adventure read. This issue tells of the 2nd battle with the Dutchman, disciple of the evil Sinanju master Nuihc.
