A lovely collection of stories by various authors that feature Murder She Wrote in some form. My favorite story was the "Potluck Murders" a sweet story that features friendship at it's core. Not all the stories are winners however, "The Poison Peach," was confusing and far too short, while "The Death of Lara Dane" had a strange ending that didn't really make sense.

Overall, this is a collection of stories perfect for a winter's nights read.

I bought this delightful collection of short stories because it contained an Aurora Teagarden selection from Charlaine Harris. The fact that the book has seventeen other wonderful mystery tales was a bonus. Each story is preceded by a short introduction from the fictional character of Jessica Fletcher. Jessica even makes an appearance in the Charlaine Harris entry. I won't try to summarize the individual stories because of the wide variety of material covered. The tales take place in different time periods in different countries with different classes of people. In other words, there is something for everyone in this collection of cozy mysteries. I could have finished the book faster, but I wanted to take the time to savor each individual story. Now I will pass it along to a friend because this one is worth sharing.

This was a very good collection of 18 murder mysteries ranging from cozy to hard-boiled style. I picked this up because of the variety of well known authors. It gave me a taste of their work and an idea as to whether I wanted to look for more. There were at least half a dozen that I am looking forward to pursuing. Authors included that I particularly liked were Kate Kingsbury, Margaret Lawrence, Janet LaPierre, D. R. Meredith, Katherine Hall Page, and Gillian Linscott.

Its a good collection, some of the stories are brilliant, some are just regular good ones...

Sykopixie says

It was the perfect book to read while taking a bath as there were several short stories and I'd finish one just as my water was starting to cool!

An entertaining collection of mysteries, some better than others, as is common in a collection. I would say that my favorites were Patience at Griffith Gulch and The Subject of Prosperity, probably because of the tough and practical female protagonists.
