No Rest For The Wicked Wolfe Cotto

Edward DeVere, 600 and some year old vampire, resident of the Royal Borough of Kensington and Chelsea, has been taking it easy.

London is home sweet home and Eddy considers himself a Renaissance man; a bit of a modern day 'flaneur'. Some would say a 'slacker' and a bit of a 'stoner'. Opinions are divided.

Eddy knows the city like the back of his hand. Life is ordered, predictable and boring. Until someone near and dear disappears and he is left with no choice but to find out why.

It should just be a night's work for such an 'old timer'.

But things don't go as planned.

Eddy's cosy world starts to fall apart.

Nothing is what it seems.

It's time to wake up, smell the coffee and roll his sleeves up.

It's a damn nuisance, he's exhausted and could really do without all this 'tom tit'.

But it seems, there's just no rest for the wicked.

Heena Rathore P. says

Note: I received a physical copy of this book from the publicist in exchange for an honest review.

DNF'ed at page 170.

Though I really liked the witty comments and observations of Edward, the writing style of the author really bothered me. The sentence formation is really complex (and at times really weird, what with 5-6 commas in one single sentence itself.) It really distracted me from the plot, which BTW was a little too uninteresting for my taste. At one point (around page 50 or so,) I was wondering what the hell is really going on.

If I would have had free time at my hands I would have tried to at least complete it, but unfortunately, I don't have even a second to spare. Certainly not for the books that don't suck me right into it. from the start. But if you are really patient and don't mind the blabberings of an extremely talkative vampire, then go ahead and give it a try. You might just like this book.
