### **Funny, quick read**

I'm sure everyone has people in their lives (or in front of them in line) they want to punch in the throat. So in that case, everyone can relate to this mini-read.

## **Josephine M Falcicchio says**

### **Funny**

I liked it. Will be reading the rest of these. Made me laugh out loud, especially the period one. Thought I was the only one to have done battle with tampons

### **Awesome**

Loved it! Super funny. I laughed out loud and can't wait to read more of Jen's books. Reading volume#2 now.

## **Katie says**

Hysterical. Hilarious.

I'm not a mom, but the stories about kids were still funny. Jenni is awesome. I don't read her blog, but in about five minutes I will. I bought this single for 99 cents because I heard the book was good, but I wanted to test the waters, so to speak. I immediately bought the full length book and I'll be writing a review of it in a couple days, I'm guessing.

Back to reading snark and sarcasm and funny.

### **Jessica Prow says**

Just like Jen says..."brilliantly acerbic with a surprising warmth".

This was fun and witty and these are certainly thoughts I've had before but would never say to anyone except my sister and best friend. Thrilled that Jen puts her thoughts on paper for all of us to read and relate to!

### **LisaEllen says**

Keep them coming! Loving them!

### **Amy Carle says**

#### **So real, so relatable.**

Jen hits it out of the park. As a big fan of her blog, then her books, this collection of stories didn't fall short on the wit, humor, and realness that Jen is known for. I'm glad I downloaded the entire series to my kindle, because I can read these all day. These stories keep you turning the pages.

#### **Excellent!!!**

Humor and common sense....two things the world needs most. I HAVE to read Jens other books.....and I have to find her blog!!! :)

### **Rachel says**

This was my first venture into anything by Jen Mann, and I think it was a good way to get your feet wet (it took about 20min to read) and see if it's something you'd be into. For me, it wasn't my cup of tea. It was well written and humorous, but I found it to be a bit judgey and felt unauthentic. However, like I said, that's just me. If you think you might like this author, try it out!

**Amber says****Pretty funny**

Read for more like this. Some people need at least a common sense slap upside the head and others...if only we were allowed to punch them in the throat!!!
