I love Lauren. I gobble up her books like a greedy child after candy. They make me smile, chuckle, and get teary eyed. The Seductive Nights series is one of my all-time favorite series. Every character shines, and has depth, you can't help but love them! It is so worth one-clicking. Buy it, you won't regret it.

LOVE!!!!

The first three books Night After Night, After This Night, and One More Night was jam packed with sex and suspense, it tells the story of Clay and Julia. I love seeing the journey of this couple, how they became stronger.

Nights With Him

We meet Michelle in the first three books, I felt bad for her in those books but I loved her in this one. She learned from her past and became a new woman who knew what she wanted and was blunt about it. Although I love Clay I also love Jack, he really cares about Michelle.

Forbidden Nights

We see the love story of Nate (Jack's best friend) and Casey (Jack's sister) I don't see anything forbidden about this story. You'll see later on that Jack was a complete adult about their relationship. We see them be honest and talk through the misunderstanding which is refreshing.

One of the thing I didn't like is how Clay and Julia have to novellas about what happens after but we don't get one for Jack and Michelle or Nate and Casey. I wanted to know more about them and what happens after.

Over all I loved it I love how Lauren Blakely doesn't drag things. Her characters are mature and brave enough to talk about things, yes there's moments were things are misunderstood but they work it out. The resolution doesn't happen at the end it happens close to it but enough for us to see their happy life.

Seductive Nights Series- Night After Night, After This Night, One More Night

Best series ever! I was emotionally invested in this one from the start! Let's start with Julia & Clay- oh my, what a whirlwind of a relationship. From their first encounter this book had me hooked, and Clay was such a man I couldn't seem to get enough of him. Now I'm officially Lauren Blakely's biggest fan! This story arc was an array of smoldering sex scenes, romance, some intense moments involving a seriously obnoxious mobster, and all this was set in my favorite city in the world, New York. I mean, it doesn't get any better than this!

I absolutely loved Julia! If there's something I love about Lauren Blakely's stories it's her heroines. They are hardcore, smart women who have a rough exterior, but a soft heart for the man they love. In this series, poor Julia gets the rough end of the stick when her slimy ex leaves her with a debt that isn't even hers to pay off. She does everything she can to protect the ones she loves and that includes Clay, even if he mistakes it for lying.

Clay Nichols is perfect! Need I say more? He is charming, gorgeous, has a good head on his shoulders and is looking for honesty from the woman he loves. So he falls for Julia in this foolishness of a long distance relationship, only to find himself pulled into her mess of a life. This is where the story erupts into some of the most erotic scenes you'll ever read, witty banter, and the steamiest emails sent back and forth between a couple. Never thought I'd enjoy sexting this much, but I now beg to differ, especially with Clay's responses...HOT!

This story completely pushes the boundaries on long distance relationships and hey, with a strong couple, it could work. Such an awesome love story between these two and I love that the story continues so we find out what actually happens when Julia takes Clay to his hometown.

Nights with Him

Now let's talk about Michelle and Jack and how fabulous their flirting is! Absolutely loved when they first met! Michelle is a no-nonsense psychologist and Jack is a dashing and debonair toy salesman...I did say he's a sex toy salesman, right? Exactly ladies, Jack Sullivan is a former soldier and the sexy as sin, CEO of Joy Delivered, a sex toy company that delivered those sexy handcuffs Mr. Clay ...is so keen on. Well, we met Michelle in the first two books of the Seductive Nights series- she was the one with the 10 year crush on Clay- but, who wouldn't have a crush on a man like that. Now, a month after Clay marries Julia, Michelle finds herself in the powerful arms of Jack Sullivan- and oh, how intoxicating those arms can be! I didn't think Lauren Blakely could top Mr. O's, Nick Hammer or for that matter Clay Nichols, but wow! Jack Sullivan is a dirty boy and he is so good at it, it's ridiculous. There are moments for innocence and romance and then there are moments when all you need is a good shag against a wall with a heroine who is not afraid to vocalize what she wants, and a hero who knows exactly how to dominate any situation and make it panty-melting hot. That's exactly where these two go at first, but there's more to Jack than meets the eye. He's lost someone and the guilt is holding him back. Michelle may just be the woman to be able to open this man's heart once again. And Michelle, well I think that being in Jack's arms would be a cure for any woman to get over Clay- it may not be easy, but Jack's an exceptional contender. These two are such a great couple, this series just gets better and better.

Forbidden Nights

I absolutely adored Jack and Casey's brother/sister relationship and I really wanted her story arc. Of course Nate, Jack's best friend had to be in the picture with the way he was staring at her legs in Nights with Him. This book in the series takes an indecent proposal to the next lust-filled level as Nate Harper takes his sensual lessons in submission to heart.

Casey Sullivan, Jack's baby sister and the new CEO of Joy Delivered has a slight problem. She believes that she's too much of an alpha female so she asks for BGF (best guy friend) Nate, to help her discover how to "let go".

Nate Harper, of course, is gorgeous, successful, a complete ladies' man, and he has the hots for his good friend Casey- how can he resist such a proposal. Reading how these two seduce each other and fall in love is a pleasure....literally. This story had me laughing so hard and absolutely pining for more of Nate Harper. It was a wonderful ending to a most seductive series.

Lauren Blakely creates such amazing characters; it's hard not to love them. I also love how we get glimpses back to her previous series Caught in Us, such as Nate reappearing, and seeing how Bryan and Kat are doing. I can't wait to find out more about Brent Nichols, Clay's brother. All these characters are connected portraying an excellent array of storytelling that not only entices the reader, but pulls at the heartstrings. This series will have you gasping with anticipation, drive you crazy with angst and will keep you panting with desire as you get swept away by Clay, Jack and Nate. An exciting ride that you don't want to miss!
