## **Signs from Pets in the Afterlife: Identifying Messages from Pets in Heaven Lyn Ragan**

Signs from beloved pets are seen by thousands every day. Some communications are received in ways that do require an acute awareness as well as more interpretation. From the Heavens above, Signs are shared by deceased pets to connect with their families they left behind. Many times, these gifts are unseen or are difficult to identify. Learning to speak the Language of Spirit requires practice but once identified, the joy of hearing from your Pet in Spirit can bring great comfort. This book is an ABC's narrative for identifying signs, messages, and signals from the Afterworld. It shares a simple way to look for, and read, communications from Pets in the Hereafter. For anyone looking to continue their relationship with a beloved Pet in the Afterlife, this book can help you identify their Gifts from Heaven. Love lives forever... and so do our Souls...

## **Animal Signs**

I would not recommend. The book was not very interesting. I think there should be more expertise in the findings of the stories.

## **Good book**

It was a good book and was comforting. It gives you a lot to think about. I will be looking closer at signs from my pets now.

**Sharon says**

This slender volume, written by a medium, talks about signs that she and several others have been given after their animals pass on to the other side. There was not much emphasis on animal communication, but there were some instances in which it was discussed.

I did find myself deriving a certain degree of comfort from it as I continue to grieve the loss of a beloved pet myself.

A nice adjunct if one is in need of this kind of book.

## **Wonderful read**

This book gave me comfort in knowing that even though my fur babies are not with me in the physical world that they are still with me in spirit

**Christina says**

Struggling with the sudden loss of my girl, this has given me some direction to interpret what I have been seeing around here.

If you lost a pet, it's an interesting read and can be helpful in healing. There is a chapter on your pet leaving coins in your path. Well, the day after I read it, there was coin found right on the side of my chair in a conference room I was in. I brought the coin home and then at closer examination, saw that it was dated the year my pet was born, which is what the book said happens.

**Ashlee Jontz says**

I was a little disappointed. Some of it was interesting but generally speaking it was a little to out there for me. I wish it would have had more personal experiences from pet owners.
