Most of the artwork in this volume I could take or leave, but there were illustrations by Michael Komarck that were truly iconic images from George Martin's series. Though I wouldn't be tempted to buy either volume, if you've read the series, they are worth checking out at the library.

Interesante si te gusta el mundo de la ilustración y además, la saga de Canción de Hielo y Fuego.

Como es normal en estas recopilaciones, hay dibujos que te gustan más que otros, pero sirve para ver más ilustraciones de otros ya conocidos como Giancola, o conocer otros como Michael Komarck o Tomasz Jedruszek que he conocido gracias a sus trabajos para esta saga.

A beautiful collection of art work from George R. R. Martin's A Song of Ice and Fire series.

There is a collection of art for each Great House and the Night's Watch, Wildlings and Clansmen, combined with selected quotes from the series.

I would have preferred it if the book also contained interpretations of characters from the past.
