## **The New Teen Titans Archives, Vol. 2** Marv Wolfman , George Pérez (Illustrator)

Fast paced and exhilarating, New Teen Titans Archives Vol. 2 is a refreshing combination of heroic action and human drama. In this hardcover volume, Robin, Raven, Wonder Girl, Cyborg, Kid Flash, Starfire, and Changeling must find a way to defend the world from super-powered invasion and destruction while contending with the everyday trials and tribulations of adolescence. Reprinting the earliest adventures of these celebrated teenaged heroes, this book features the Teen Titans' battle against the gods of Olympus, their deadly confrontation with the Brotherhood of Evil, and their first meeting with two of the original Titans, Aqualad and Speedy.

Collects THE NEW TEEN TITANS #9 - #16.

## **From Reader Review The New Teen Titans Archives, Vol. 2 for online ebook**

### **Richard Schaefer says**

The book starts to hit its stride in this volume, both visually and in the writing. The best story in this volume is the three issue arc about the death of the Doom Patrol.

---

### **Douglas Gibson says**

If you just want to read old comics and don't want to run around looking for consecutive issues so that you can actually complete a story, these DC Archives are the way to go! I had to start with Volume 2 because the library did not have the first one. This collection is almost perfect, the only story I didn't love is the Mythology heavy one, even though it was a great plot for Wonder Girl, I like my super heroes battling on Earth. The rest of the books are full of great traditional villains and perfect soapy subplots like Wally West doubting if he should be a super hero, Raven wanting to feel more normal, Starfire becoming too vengeful, and Beast Boy wanting to solve an old family mystery.

---

### **Mike McDevitt says**

Overwrought super-opera foolishness and I adored every issue. Well, maybe the Titans of myth was weak, but brother, I dig the Brotherhood of Evil story.
