What I'd do for love. OMG! This book was intense and dangerous. I wasn't prepared for Greer to do what she did right at the start of the book. She was a vicious woman all in the name of love. Greer always wanted to be loved since her childhood was not filled with love. She thought the only person who loved her was her dad, but she found out differently. Greer was a person you didn't want to cross. This was a good read! I received a copy of the book from the author or publisher in exchange for my honest opinion or review of the book.

**What I'd Do**

Wow! This is a must read. Greer is not the one to play with. Her husband Michael and his mistress found that out the hard way. This book drew me in from the very first page. There was plenty of sex, love, suspense, power and betrayal. I couldn't turn the pages fast enough. I so anxiously wanted to skip ahead to see what was going to happen next, but I was afraid that I would miss something if I did. Lol. When Greer got fed up, she was really fed up. A woman scorned, can be and usually is dangerous. Makes me wonder if there will be a part 2. Hmmm!

Very suspenseful book! Oh my goodness, this story is so shocking....it set my heart a-racing through a bunch

of the book, and I couldn't put it down until I found out what happened. There are some amazing twists to this book, and I loved the interesting people. It's crazy what the main woman Greer would do for love. From the beginning, the story captured my attention. It's just hard to believe what Greer is doing...what she is getting away with. It's a suspenseful story, with severely dysfunctional family members...it's no wonder some of the things that Greer does. The author has a vivid imagination. I definitely want to read more from the author, because I was surprised with a lot of the things that happened. It makes for a very interesting and compelling book. I recommend it.

#### **Wow**

Great read what can I say Greer was a deadly woman you don't betray her and get away with it but lawd I wanted her to kill her half sister. I think the way she was treated turned her into a very cold uncaring woman. Good read and I loved the twist at the end would love to read more about Greer.

The synopsis of this novel sounded very interesting, so I was intrigued to purchase this novel and take a chance on an author I had not read anything from before. I was looking for a novel which had elements of drama, and was a bit of a thriller with lots of action and pacing and I was not disappointed in taking a chance on this novel as this story had all of those elements and more. The story is very fast paced and the action is definitely ongoing throughout the entire novel. I read the novel in a weekend, and it was hard to put it down, so I read it in large blocks. The main character of Greer was pretty kick-ass and although the story has a lot of imagination to it, I still found her character to be relatable and I think many women would either see themselves in her or wish they were more like her! I would definitely read more from this author and recommend this novel to anyone looking for an intense, dramatic story which has interesting characters and a strong storyline.

Greer had sacrificed so much for her husband Michael. She supported his decision to change career, she funded his education as he studied to become a sleep therapist. She gave and she gave. Committed to her marriage, to building a better life, not once did she resent putting her dreams on hold while he pursued his. What she did resent however was discovering his affair with a woman from his new dream job. He didn't even hide it well, sex-soaked sheets and her perfume lingered on their marital bed long after she had left. Well no more. She had given too much for too long to be left with nothing in divorce. She hatched a plan, and his fancy woman Marlene would be the one to take the fall. Her plan was fool proof. Or was it? Her new found freedom brought with it confidence, a power she had never tasted, and she wanted more. With Marlene's trial coming up she had to be careful, easier said than done when even her own so-called family, true to form, go out of their way to treat her with anything but the respect she deserved. They had not welcomed their father's bastard child into their house when she was but a little girl, and their hatred only deepened over the years and one of her so-called sisters already suspected she knew more than she was telling.

Sex, lies, betrayal, murder, and love ensure What I'd do for Love has all the ingredients of a great tale. K.F. Johnson creates a wide cast of characters every bit as complex as their relationships. Hauntingly real, the characters are filled with such life and emotion that you can't help but be caught up in their life. You learn their darkest secrets, their dreams, and all they have had to endure. Greer was not the only one suffering, but is the focal point of this tale and she is certainly a woman scorned and without restraint. Her progression from the book's start to its finale is brilliant, her actions more daring as she allows the power from her deeds to fuel her jealousy and rage. A Brilliantly written and highly imaginative tale of transition, showing just how far a person will go when given the right push in the wrong direction.

#### **A MUST READ!!**

From the very first page I was hooked. This story was unpredictable and fast paced. You know a story is good when you find yourself commenting out loud about the craziness that you're reading. K.F. Johnson's writing style shows her intelligence and her gift with words. I'm definitely a new fan

#### **Page turner**

I enjoyed living vicariously through Greer. I found myself rooting for her as she endured the disrespect and injustices of others who treated her as nonimportant or too dense to notice infractions. Of course, in real life, her actions would be considered heinous, but I reveled in her revenge as fiction. I couldn't put this book down even when my weary eyes were reading the same sentences over and over and my Kindle threatened to crash to the floor. An excellent read that I hope Ms Johnson continues. Well done.

"What I'd Do For Love" by K. F. Johnson

My Thoughts.....

Truly Geer Patterson was one woman who one didn't mess with. Now why was that? One may not be long on this earth as it was for Geer's husband Michael. It seems like all of Geer's life after the death of her mother she hasn't had a good life definitely bringing on many dramatic unresolved issues. It

seems like it all starts with her father bringing her to his home with his present wife and children and presenting her as the daughter he had by a 'white women.' Now, will he be able to protect her? The stepmother and her children seems to hate her and it seems like Geer's life was simply horrible living with these people. Will Geer ever have the life she wants after marrying Michael who she thought loved her. For a minute Geer thought she had it all well in her life but, this is when all hell breaks loose when Geer [the scorned woman] learns about her husband Michael's infidelity and from here all the way to the end this author gives the reader one story that will keep you turning the pages to the end. What all will Geer do when she finds out that not only her husband had a problem but also her father who she thought had love her unconditionally? This will be quite some read when she finds out about her father and so much more! I don't want to spoil to much more about this read other than say this was one exceptional written story that will have you shaking your head by the time you get to the end of this suspenseful read. Many questions will be asked... Will Geer get the love she wanted now that she had a new beau in her life? Will she be able to give up to her old life to get on with her life after all she had done by the end of this read? Yes, I will admit that Geer was 'certified crazy' that needed some help...but will she get the help before it's too late? Again this is where I say you will have to pick up this good read to find out. Truly the title say it all..."What I'd Do For Love" left me saying wow..between a husband, a sex friend, a boyfriend and a father what a ending! This was definitely a read about what happens when a woman is scorned and she can't seem to find her way. If you are looking for a well written read with intriguing drama, some mystery/suspense with a little romance then you have come to the right place for this novel will give it all to you and much more. Would I recommend? Yes!

What I'd Do For Love  
By: K.F. Johnson

Greer is the product of an affair and has been paying the price for that all throughout her life. She has decided to take things into her own hands after her husband cheats on her with a co-worker. Greer has had enough and will not allow anyone to get away with hurting her in any form or fashion and administers justice in her own twisted way. Greer is definitely a woman that takes no \$!?!#. Do not cross this woman or it could mean your life! She will definitely get even.

In the midst of all that is going on, Greer learns a family secret that could tear her world further apart. Johnson does an excellent job portraying an “angry” woman. What I’d Do For Love was full of events that will have a reader saying, “Say What!” Just when I thought it was all over I’d find out that it wasn’t over yet! I did not want the book to end. I truly hope that the story continues and look forward to reading a sequel.

4.5 Stars – Great read!

This was a well-written, fast paced book. Greer grew up with her dad, stepmother and stepsisters, and never felt like she fit in. She's only ever felt loved by her father and her husband. Now she's discovered her husband's cheating, and she's ready to take revenge. Nobody is going to push her around again! This book drew me in and kept me turning the pages as fast as possible to find out what would happen next. I voluntarily received a copy of this book.
