**What Money Can Buy** Katie Cramer  
ALL THE MONEY IN THE WORLD...

When sexy temp Lauren is summoned to the office of her fearsome, billionaire boss Jason King, she's certain that she's about to be fired. Struggling to make ends meet and working two jobs to pay her father's medical bills, Lauren braces herself for a dressing-down from the handsome, enigmatic playboy.

CAN BUY ANYTHING YOU DESIRE...

But Jason King has other plans. He's been watching Lauren since the day she arrived, ready to sweep her off her feet and bring her into his world of wealth, success, power and sex.

BUT THERE'S ALWAYS A COST.

In a few short days, Lauren's world is turned upside-down as her meager existence collides with Jason's extravagant life. From New York to Milan to Venice, her alpha male boss leads her down a rabbit-hole of lust and extravagance that proves intoxicating. But his world is littered with domination and deception...and Lauren is falling fast for her mysterious billionaire, with consequences that will change her life forever.

## **From Reader Review What Money Can Buy for online ebook**

### **Lynda says**

The erotic eight chapters of “What Money Can Buy” was set at a fast pace with quick introductions to grab my attention. A nice level of intensity was maintained.

A free kindle edition was the basis for my review.

---

### **Tiffany Callan says**

I needed more from this book and not in a good way,i find a lot of books lacking in some way but this book was basically Millionaire stalks woman, buys woman off, uses woman without showing his true intentions, falls for woman, marries woman...the end.

I know there are a part 2 and 3 to this read but i imagine it'll be much the same and i don't think i'll be purchasing them. I had hoped for something a little different and expected something more than the stereotype erotic novellas being pushed around the internet at the minute.

Story: 3

Characters: 3

Cover: 5

### **Jane says**

Lauren is called into the office of the CEO and receives the surprise of her life when he asks her to come on a business trip with him to Italy. The romance begins for a girl working two jobs to pay for her father's cancer treatment. The sex scenes are over the top in sizzling heat, as he demands she role-play and become his new assistant with lots of hot overtime after hours. In *What Money Can Buy* the story left the reader wanting to know where the relationship was going next with the hot CEO. The classic question in the series is 'What's next?'

A bonus story called was included *Power Play*. This was a delightful story with a hot office sex scene and a perfect ending.

---

### **Kristy says**

I've read too many other books since I read this to give it a proper review, but I remember enjoying it. It was

a quick read, it reminded me of Bared to You which reminded me of Fifty Shades of Grey. So it was another one of those kinds of book. Rich boss, falls for a young girl that he employs and wants to make her his submissive.

This book also had a little bonus story called Power Play at the end. It was obviously super short, but cute.

---

### **Nikki Wilde says**

First off, I should start off by saying that I did not like 50 Shades of Grey or Gray or whatever. I stopped reading about halfway through. So generally, if I see a tie on the cover of a book I automatically think, great, another 50. Normally, I avoid them but this one was a freebie on Amazon and I figured what the heck it's only 50 some odd pages it might be worth a gander.

I actually, wasn't disappointed. This was so quick and easy and not repetitive like 50 that I found myself getting into it. I'm not a huge fan of the dom scene but this wasn't bad. It has a conclusion that doesn't make you scream and there are two more shorts in the series. The price is definitely right.

Lauren a temp at King Corporations has been called into Mr. Kings office. Here he tells her he needs her on a business trip and she gets whisked away the next day. Trying to figure out if Mr. King is as bad as everyone is saying or if he's just misunderstood Lauren is nervous and elated to be out of the country. It's in Italy where things start to heat up.

I'm glad I gave this one a chance and didn't pass it up.

---

### **Lesley Badham says**

It didn't really capture my interest in general.

---

### **Milena says**

I enjoyed this short read, as I found that the characters really complimented each other. I tend to enjoy reading about sexy billionaire's who sweep damsels in distress off their feet. Be warned their story does not end here... Look for What Money Can Buy 2 - Secrets & Lies and What Money Can Buy 3 - To Have and To Hold.

---

### **Angie ~aka Reading Machine~ says**

Lauren Wade, a temp struggling to make ends meet, knows that she needs this job. She has to wonder what her boss Jason King wants with her. Everyone she knows says that Jason King is real bastard and sexist pig but that is not what she finds out for herself. She finds a extremely powerful that doesn't take no for an answer. Jason King is a billionaire business man that knows exactly what he wants and will do everything in his power to make it happen. So when Lauren Wade walks into his office nothing will be the same for either

of them. Jason wants Lauren to accompany him on several business meetings in Italy. Jason tries to overwhelm Lauren yet she remains unintimated by him despite rumors to the contrary. Will Lauren keep her job? What does Jason really want from Lauren? Will Lauren whatever it takes to be with Jason? What risks will Jason take? Your answers await you in *What Money Can Buy*.

The bonus story *Power Play* was a sexy adventure in the highest order. To me, it was the ultimate expression of power, sex, and most of all danger. Who hasn't had an office sex fantasy yet this one shows how good a relationship can be. Admittedly both stories were hot, kinky, and full of heat. I'm willing to explore more books by this author.

---

### **Jessicca Collins says**

The story was well-written and fast-paced, but it really didn't do it for me. The second book to the series sounds more promising, so I'll probably pick that up. I just wasn't drawn to the characters in this book. The author added a free short at the end called '*Power Play*'. It was hot and erotic with a surprising romantic twist at the end.

---

### **Kam Carr says**

I liked it every much, but I would of like it to be a little longer and discover more about the characters. Also there were gaps which should of been filled, I think this let the story down a little. You were pretty much left in the dark.

---

### **Karla Schneider says**

I don't do foreplay, I fuck, hard (and pretend it's kinky).

---

### **Sarah says**

This was a brilliant book and I really did enjoy it I'm just waiting for book 3 to come out so I can carry on reading but gotta say If u liked 50 shades of grey u will love these books the only down fall is that I wish they were longer cuz they r so good I didn't want them to end ;)

---

### **lyn says**

Sorry to say this but after reading this book I was actually left speechless. I like the plot, how they met and the setting but the thing that left me really speechless is the fast pace of it. The story start and ends too quickly. It's short that I just read it in one sitting.

I think the story is interesting enough. I just can't feel the characters cause of lack of their point of view. I was clueless most of the time and I felt that I was left in the dark. Don't be angry with me but this was I felt

reading it. I just wish that the story is longer than that and tells more of them. It's like I like you, I want you, I'm attracted to you, then if you get it lets rip our clothes and get started. After a hot shagging session, I suddenly realize that it's more of that so let's get engage. The end.

---

### **Kemistry says**

IT WAS TEDIOUS. I COULDNT RELATE TO ANY OF THE CHARACTERS I ONLY FINISHED BECAUSE I DONT LIKE LEAVING BOOKS UNREAD. SORRY BUT I DONT RECOMMEND IT

---

### **Jessica says**

What Money Can Buy by Katie Cramer was a book I found for free on Amazon. While I will admit there are some interesting lines and expressions in this book, it didn't really capture my interest in general. The story felt almost non-existent and just a half-hearted attempt to explain why two people were engaging in sex. I have read a few random paragraphs from 50 Shades of Grey by E. L. James and Cramer's book was both better written and more interesting, but it still boiled down to something I could have done without reading. The lack of character development was also a huge turn off for me.

There are always books out there that have an amazing blurb. You prepare yourself for this and that and you have high expectations - or at least some idea of what will occur in the book. Unfortunately, I felt the story didn't really stand up to the blurb. I was expecting to learn of a young woman's struggles, then of a man's dark world and all the fun bits in between. Instead the story was spread thin. It touches on Lauren's difficulty (view spoiler) and Jason's foul business plays. There's nothing gripping or engaging. Even the 'playboy' we're meant to get excited about just seems boring.

Both main characters are pretty dull. Our female lead, Lauren, starts off by being rather presumptuous - she makes a dramatic statement for almost no reason in the beginning of the novel (view spoiler). She decides to have sex with her 'arrogant', 'intimidating' and 'sexist' boss, despite not knowing the man. Her reason? 'His hard chest muscles'. She's shallow, over excitable and rather trite. I wonder why she is given a back story of (view spoiler) when she generally seems so far from what you would expect someone in that situation to be like. Her character bounces between challenging the male lead, Jason (or Mr King) for control and being absolutely submissive - though she's generally the latter.

(view spoiler)

The series name is Billionaire Domination and Submission BDSM Erotic Romance. I don't think the material really matched that. There was a bit of spanking, a brief gag, some secretary-boss roleplaying and that was that. In my mind this light play doesn't validate the tags of BDSM.

It seems, from the brief summary of the sequel, that there may be more plot and character development in the second book. However, I really wasn't thrilled enough to continue even with the dim hope that the next book could be an improvement.

It's readable, there's just little character development or motivation, and equally little plot. That isn't really the sort of thing I like to read, but from the looks of other reviews lots of people like this book. However, not

every popular book is a good book, for example Fifty Shades of Grey. I think if you just want to read sex scenes then you will like this book, but if you read books for characters or story then I suggest picking another book.
