**Scarlett:**

The whole world thinks they know him, but no one knows him like I do. Keir Wilder may be the lead singer of the biggest rock band on the planet, but he was once the boy next door. He was my first love. He put a ring on my finger. But I couldn't stay with him.

That was a long, long time ago.

Now I need help, and he's the only one who can save me. I know he will...

*If he can forgive me.*

**Keir:**

Five years ago I waited for her but she never showed up. I tried to find her, but she disappeared.

If she thinks she can just walk back into my life with no explanation, she is mistaken.

Sure I'll help her. I'll fix it. That's what I do. I'm a problem solver and I don't let go until things are the way they should be.

Like me and Scarlett, together again.

Now that I have her back in my life, I'm not letting her run away from me again. We're about to leave on tour and I don't care what the rest of the band thinks. Or even what she thinks.

**She's coming with me.**

*Note to readers: This standalone book takes place after events in RANE but there is no need to read them in order. And as a special bonus, I'm including a free copy of my first rockstar book JAX*

## From Reader Review Wilder for online ebook

### The Book Fairy Reviews says

A second chance romance novel that will have you at the edge of your seat. Kier has been in love with one girl since he was a teenager. They made a promise to each other, one that he planned living the rest of his life with, but she never kept her end of the promise. Five years later Scarlet is back in his life and he isn't letting go no matter what.

Scarlet has felt unconditional love only once in her life and that was from her high school sweetheart Kier. They made a promise of forever, but when it came to actually following through with it she had to leave her love behind.

Things and life change people can Kier and Scar overlook the past and fall in love again?

This is more than just a rock -n-roll romance, no this is about two people growing and learning to live with their choices and their pasts. Of learning that they can hold each other up and not try to fix them. Partners in love and life is what they learn from being apart, and that being apart is not what is in their future.

---

### MyzanM says

I can't make up my mind if I sort of liked this book or if it was bad. I choose to give the book 2 stars because there were actually parts that I really liked. Even if there was even more that I disliked, the parts that I liked lifted the enjoyment of reading significantly.

The story is told in first person by Scarlet and Kier. I sometimes have problems with this type of writing because I don't feel like it gives me the best view of things and a lot of surrounding details are either missed or making the character rambling about things that never crosses into normal people's minds. The latter can make a reader lose interest. In addition there can be problems with the character building. Despite being told from their perspective it can be hard to really get to know the characters if the author isn't exceptionally good at this type of story telling.

Unfortunately I feel that all of the above applies to this story.

I found this book to be boring and tedious to get through and some passages of repetitive stuff was just skimmed.

I further feel like the unresolved conflict between Scarlet and Kier and the band is blown out of proportion. I would have thought there was a darker secret behind their breakup and all the hints strewn out through out the story don't add up in the final revelation. There are still a few loose ends.

---

### Maxine says

This is a second chance to romance story, Scarlet ran away from Keir when she was 18 years old and settled into an abusive relationship which she also tried to run away from.

Keir had always loved Scarlet and when she finally contacted him he used his fame to keep her near, This was well written but at times i wished Scarlet would have been braver!

---

### **Clarke says**

1.2 Stars. If I had to sum up this book in one word. Stupid.

Keir wasn't a bad character but Scarlett I could've done without. She was a constant victim but used people (it didn't matter to me if she was aware of it or not). Scarlett was the girl next door with the overwhelming parents. Keir had a single parent home. They fall in love and plan on getting married but on the day they're supposed to run away she vanishes. Fast forward several years and Keir gets a call from her to interview him now that's he's a famous rocker. Scarlet only calls him because she wants to keep her job (apparently she's had his number all these years). Losing her job isn't her only problem she also has a crazy ex boyfriend.

Keir is obviously confused and angry but he still takes the interview. Even after he does this favor she is still unwilling to explain why she just disappeared. Keir just can't let her go so he ropes her into going on tour with him. Much drama, angst, flirting and tears ensue. It finally comes out why she disappeared that day. I wasn't satisfied by her explanation but hey I don't have to date her. Her apology and explanation came way too late for me.

After reading a couple chapters I couldn't take anymore so I skimmed to the end of the book. I might give this author another chance but to be honest her other characters didn't call to me either...

---

### **Vânia Nunes says**

After two books talking about the same subject - loving relationship between half-brothers - I confess that I thought this one would be the same. But I was mistaken.

WILDER tells the story of another Ruthless' member band, vocalist Keir Wilder. He fell in love five years ago for his neighbor Scarlett when she was 16 years old. At first they were jogging partners. Then, Scar went to watch the garage band rehearsals. When she turned 18, Keir asked her to marry him and she accepted. They had agreed that she would run away when the first tour of the band happened in NY.

Scarlett's family was weird, especially her mother who always treated her badly. To Scarlett would be a relief to get rid of that burden. But on the day of run away Scarlett didn't appear. In fact She disappeared and Keir was 5 years without having heard from her.

Until the day his phone rings and it's Scarlett wanting to schedule an interview with Keir. He was the only member of the band that NEVER gave interviews, but for her, he made an exception. And he did more to ensure that she would be around.

But Scarlett had secrets. She hadn't told why she never appeared on that day 5 years ago; she didn't say she

had an abusive ex-boyfriend who was catching her, but mostly she hadn't yet told to Keir how much she loved him.

When all the secrets come to the fore, would the couple still have a chance in the future?

The story surprised me. The pace is very good.

Curious to know if the other members of the band will have their stories told.

**5 stars**

---

### **Jenny Brightman Harris says**

I received this book as an ARC for an honest review.

In this book we get get Keir Wilder and Scarlett Sawyer' story. We get hints of something more happened between these two 5 years earlier but Keir is just as tight lipped now as he was then. Keir has always loved Scarlett he still does to this day. He can't be with anyone else because he feels like he is cheating and in turn his body just shuts down. So one day out of the blue when Scarlett calls him he doesn't know what to do. Does he go after the woman of his dreams demand answers and possibly get her back? Or will he get the closer he needs and finally be able to move on?

Scarlett has gone through a lot in her life even more in the last 5 years. Since everything fell apart with her and Keir she hasn't truly given her heart away again. She left it with him on the day she couldn't meet him. The problem is during that time she has developed another problem one that could kill her if given the chance. So when she gets the chance to meet with her white knight again, there is a part of her that wants him to rescue her but a part of her that wants to stand on her own two feet. Will she give Keir the answers he has been looking 5 years for or will she hold back to keep the man she loves just a little bit longer?

This is a great book about finding a bright spot in a lonely and tiring existence. This books shows us that sometimes loving someone isn't easy but what comes out in the end can be something amazing. I would recommend this book to anyone and everyone.

---

### **Kristin says**

Scarlett was a groupie for Keir Wilder's rock band before there even was a rock band. Keir was an up and coming star, brother and son of a single dad living next door to Scarlett, two years his junior. Except when Scarlett turns 18 and he proposes, he abusive and controlling mother sees the ring and threatens to have Keir arrested for rape so Scarlett does the only thing she knows how to do. She runs away without any explanation and breaks Keir's heart. Now 7 years later, with her music reporter job on the line, she has to use her one ace card to ensure she can continue to pay her rent on her new apartment so her abusive ex doesn't find her. Keir, in a drunken mess of self-denial responds by inviting her on their tour with them.

Keir wants desperately to know what happened and why she didn't show the day they were to disappear but Scarlett won't tell him. She won't say anything about that. At first Keir is hurt, then he just wants to be around her and then he is hurt again as he knows absolutely nothing about the new her. Scarlett learns she

never really knew Keir either, just the idea of him. But she also learns that despite her tragic past, the only way to have a successful relationship with another person is to open up and trust that they will know what to do with your inner most secrets and love you anyway.

This was a great book with lots of information given to the reader but even more held secret until the end. Whatever you think, I guarantee it is worse. It is quite amazing Scarlett can hold down a job. She should be such a broken mess but she holds things together and does what needs to be done. By comparison, Keir is not handling the rejection so well and he can come across too much as poor me as anyone could see whatever Scarlett is hiding is big and way beyond rejecting him. It all works though as when she really needs him, he finds a way to be there for her. So touching and tragic but also hot and sexy. A definitely must read.

---

### **Jennifer Pierson says**

I have really fallen hard in love with this series! Keir Wilder is the lead singer of the biggest rock band around. It looks like he has everything, but deep down, he's never gotten over his first love. As much as he wants to move on, he finds he can't, so he spends a lot of time alone. Scarlett knows Keir like no one else on the planet, as he once was the boy next door and love of her life. Life events set in motion forced her to walk away without a word, breaking both of their hearts in the process. Now five years later, she needs his help to save her. Keir decides to fix it for her, but on his terms, so he forces her to go on tour with them. As they spend all their time together in close quarters, the feelings they thought were gone, rise up to prove them wrong. Keir decides he's not letting her go again, but will he be able to fully forgive her?

WOW! This story was so emotional that all my girly girl feelings were on the surface the whole time. The character development is fantastic, with a highly entertaining cast of secondaries. A fast paced, emotionally charged, and well written storyline flows smoothly. Even after all the years that passed, simmering chemistry sent sparks out of my kindle, leading to SMOKIN' HOT sexy scene goodness. Vivian Lux's talented writing style reeled me in from the beginning, kept my emotions on my sleeve while my heart raced, and threw in some twists that made for awesome OMG moments! I cannot wait to read more of this series, so I HIGHLY HIGHLY HIGHLY RECOMMEND!

---

### **Michelle Cage says**

I received an ARC for an honest review

This is a second chance love story for Keir and Scarlett. Scarlett left Keir and had not contacted him in over five years until faced with the possibility of losing her job also meant losing her new found freedom which she didn't want to see happen. Keir managed to become part of top earning band and when Scarlett who works for a music magazine needs an interview, she calls Keir. Keir agrees to the interview in hopes of getting the answers he's been denied for five long years only to find himself wanting even more after coming face to face with Scarlett. The reader is taken on a journey with these two characters as they struggle with their shared past, getting over hurt feelings, secrets and a crazy ex, but you find yourself cheering them on hoping they can make it a second time around.

---

### **Lady says**

This is the kind of story that happens in the world almost everyday, but I love the twist of having a Rock-God and the Girl next door have a happily ever after. I love how I was stuck into the story so much that I started yelling at the characters to get it together, those are my favorite kind of book.

---

### **Mona williams says**

this book was great! had a hard time following the story line. its about two people who are young and in love. only her parents wont accept that. so they are torn apart from each other. years later they meet up again. he's famous and she is a reporter. can these two pick up where they left off? read to find out what happens

---

### **Nicole Campbell says**

\*\*Please note this novel is not for readers under 18\*\*. A quick read, sweet story, though the characters' "revelations" seemed to happen a bit frequently for me. Overall I enjoyed it, I would definitely read more by this author.

---

### **Michelle says**

#### **ARC REVIEW**

This is the second book in this series and Scarlet and Keir's story will not disappoint you.

Keir has only ever loved one girl and kept her high on a pedal stool for over five years, despite his fame, good looks and rock & roll life no other girl has pulled him in or even drawn his attention.

Scarlet ran away but why? , the secrets of the past slowly unfold throughout this story will two lost broken souls finally make it together or have things changed too much over the past five years.

Wilder contains drama, secrets, some violence and lots of sexy time.

---

### **Jessi says**

Super sexy rocker series! Each book in this series gets better and better, I know this is only book 2, but they are amazing so far. Keir is a super sexy rock star, who had his heart ripped by Scarlet on the day they were supposed to get married, five years ago. All these years later he still does not know why she just left him without even a good bye. Now years later, they meet again by chance. Scarlet is trying to start her life over, get away from her jerk of an ex and fighting to keep her job. Her only chance happens to be Keir. As I was reading, I kept trying to guess why she ran away from him, needless to say, I was not right on my guesses. The real reason was so much better than I could come up with in my head. When the two finally give into

their feelings, it is explosive and very sexy. Everyone should read the Wilder Brother series! It is well worth it.

---

### **Faith89 says**

this is a second chance at love story with some rock and roll. Scarlett and Keir share a past. Scarlett's parents were extremely strict, It was an abusive situation. Her mother controlled her very movement, Keir was the opposite. He and his brother were pretty much on their own for the most part. We have the sheltered catholic school girl and the rebel rock star wanna be. They share a teenage love affair. But true to form, they are separated. Keir is blindsided and devastated. he has a hard time moving on. Scarlett tries to move on but she ends up in a bad relationship. when they meet up again, they learn each other again and things fall back in line. The story was a little slow for me. It didn't really pick up until more than half way through the book. I liked Keir. He was a sweetheart under the rock roll bad boy persona. Scarlett was still a little too innocent, There was a lot of back and forth. I gather that there was a previous book about the brother. I didn't read that story and did not think it is necessary. The other members of the band seem interesting. they should make good stories too.
