Rachel Harris

You're Still the One Rachel Harris

Love is one dare neither of them can take...

Arabella Stone, Nashville's darling, is eager to shuck her prim-and-proper rep, and a few wild months spent checking items off her "summer bucket list" is the way to do it. First up: kiss the man she's crushed on since she wore a training bra, the bad boy of country himself, Blue bassist Charlie Tucker.

For Charlie, a beautiful woman flirting with him isn't out of the norm--but a beautiful woman bolting after the hottest kiss of his life sure is. And when he finds out his kiss-and-run Cinderella is none other than Arabella Stone, daughter of his label's CEO, he knows he's in trouble. Because not only is she a Stone, she's also his employee for the next few months at the recording studio he just bought.

Over the course of one thrilling summer, Arabella and Charlie chip away at her bucket list and fight the simmering attraction between them...knowing that once it's all over, so is their time together.

Sha-mazing. Like always.

bows to Rachel

Jessica *The Lovely Books* says

Rachel Harris. There's is nothing in this world I could say to give her the praise she rightfully deserves. There's just this thing she does when writing a story that I can't explain. It's beautiful, witty, and makes me want more. Every. Single. Time. You're Still the One has been such a delight to read. Immediately I fell in love with both Charlie and Arabella. Their the epitome of opposites attract. Ella is sweet, shy, and the ultimate good girl. Charlie is the sexy bassist for a country music band, bad boy extraordinaire and he's in deep shit for a misunderstanding with the mayors daughter. Causing him to make nice.

He the reasons for Charlie swearing off women (for the time being) is so that he can get a program together for teens with depression. He needs his boss and the owner of the record label to be part of the board and invest in what he's got planned for the teens. Right after Charlie says no no to anymore women, a beautiful brunette stumbles into his life. Even though he should know exactly who Arabella is, he doesn't even recognize who she is. Which is just as well, considering she wants to finally tell Charlie how she feels.

Flirting. Telling Charlie about a list of things to do before summer is over... Including a hot and sweet kiss; the two will try as they may to stay professional around each other. But it's looking like that shit isn't going to fly. For obvious reasons, duh! I was only a few chapters in when I realized that one, I didn't want this book to ever end, and two, went to straight to goodreads to see if there were another one after this book. Imagine my joy when I saw that this WAS the first book in a new series! Ha.

Charlie. Charlie. Charlie. He's my FAVORITE type of book boyfriend for the sole reason that he's a musician. Damn. I go weak at the knees when reading about a man up on stage either singing or playing any kind of instrument. Plus he's a bad boy with a heart of gold. Another one of my weaknesses. It's hard not to see why Ella has been in love with him for so many years.

I recommend this book and any other book by Rachel Harris to everyone. Well if you're younger than eighteen...make sure you have an adults permission for the adult books. Not that they're are bad but they may have some things that aren't suitable for children. Anyway, I can't tell you enough: GO READ RACHEL HARRIS. And keep in mind this fair warning, you will fall in love.

*Thank you to the publisher for providing a copy for an honest review. All thoughts and opinions are my own.

ARC provided by the publisher in exchange for an honest review

“For as long as she could remember, Charlie Tucker had been the guy, and tonight, all she wanted was for him to see her as more than just a little kid. To actually see her as someone desirable. To simply see... her.”

Adorably sweet and charming!!!! **You're Still The One** by Rachel Harris has me totally smitten with this beautiful heartfelt love story!!!! For all you romance aficionados out there, Ms. Harris has beautifully written a story where every raw emotion, friendship, family and love was pouring out of each page.

“If this was good-bye, then he was going to leave Arabella with something to remember him by. Something honest. Where words had failed him, his actions wouldn't. They'd speak loud and clear, showing her that regardless of what he'd said, or how they'd started and ended, this was real. Their connection wasn't manufactured or fake. It was the truest thing he'd ever known.”

In this heartfelt tale, Ms. Harris introduces readers to Charlie Tucker and Arabella Stone. Two people. Two friends. Two people who have their own hopes and dreams. Two people with a list. And in such, it was inevitable for these two people to finally find one thing that they were searching for. LOVE. This book definitely took on a slow burn approach but it worked for this story because the character development of Charlie and Arabella were beautifully crafted that readers could FEEL their emotions and vulnerabilities off each page. I loved that Ms. Harris allowed readers to really see her characters for who they are. They may not be perfect but together Charlie and Arabella were two friends who had their lives entangled for a reason. They brought comfort, love, joy, hope, beauty, and passion into each other's life.

“You said you wanted to make a difference in someone's life this summer. Sweet girl, I hope you know that you did that for me.”

Music has always been an outlet to tell a story. And in this love story, Ms. Harris told a story of young love. She beautifully played a tune that will have romance fans' hearts racing with the pounding of the beats and bass as she allowed readers to see beyond the depth of friendship. She allowed readers to see that LOVE can completely knock you off your feet and make you feel alive. And for Charlie and Arabella, finding love was one of the greatest things that they can cross off their list.

Fizza says

I loved it. It is a very well written book. Characters are also well developed and lovable. Story flows smoothly and overall this book is quite entertaining. There are some scenes in this book that are just epic! And the best thing about this book is that characters start as a little awkward but grow into themselves as the story

progressed. It is very romantic and humorous book which I enjoyed reading a lot. In my opinion it's a must read for romance lovers.

Arabella has a list, daring things she wants to do before the summer ends. She is ready to tick all these things. It is her chance to prove that she is a confident woman. Charlie is on the list. He is the man she has a huge crush on since her early teens and it's time she gets his attention. Determined she approaches him during an event where her father is supposed to come at any time. So she must make haste...

Charlie is used to women hitting on him. Media has given him a bad reputation but the truth is that he dreads such encounters. So when a sweet, innocent and very beautiful woman approaches him he is a little taken aback, She doesn't seem like the women he often has to fend off. After an awkward incident they share a kiss and the next moment she is gone....

Later it turns out that his kiss-and-run beauty is also his CEO's daughter. Now he is in trouble. On one hand it will be extremely difficult to resist her but on the other hand he is her babysitter for the summer and supposed to look after her. But when he realises that she is also into him then all bets are off. They will enjoy whatever little time they have and then move on. What they forget to consider is that the things usually don't quite go as planned....

Brooke (The Cover Contessa) says

I want to thank Entangled for providing me with a copy of this book to read and give an honest review. Receiving this book for free has in no way altered my opinion or review.

I've only ever read Rachel Harris' YA writing. And I loved every bit of it. So I was super excited to get to read this book, which she has been talking and teasing about in her Flirt Squad group for forever! I wasn't sure I would love it because adult romance isn't really my thing, but I ended up truly enjoying it.

Arabella is such a great character. She is soft around the edges, or at least to the first glance, but she has a strangeness within that is hard to beat. She takes the reigns of her life and pushes through things. I love her lists that she makes. They remind me so much of myself. And I especially like that she takes the time to complete things and make them accomplishments. And as she crosses each thing off her list, she only becomes stronger and more aware of herself and what a truly terrific person she is. Plus, she's super talented, and that becomes more and more obvious as you read through her story.

Charlie, what can I say. Is he swoon worthy, sure. But we are introduced to him as a true ladies man. Not one to ever settle down, he is perfectly clear on where he stands with relationships. That's until he is reacquainted with his boss' daughter. Never one to lead ladies on, he vows to keep things between him and Ella friendly. But his past mistakes threaten to jeopardize even their friendship. And his current secrets will through them both over the edge. While he's made out to be this womanizer at the beginning of the book, you certainly see it's not really what Charlie is about. He's actually a complete softy who will do anything for the people he loves.

The romance in this book is off the charts. My favorite thing about it is it is built on a solid friendship. Sure, Ella has had her crush on Charlie for a long time but this was more a teen dream. Once she really gets to know him, and see him for who he truly is, she can't help but fall for him more than her crush ever would

have allowed. The tension is slow building and fun. There are laughs between them as well as a bit of steam that has you wanting to throw them at each other and find out what comes back at you on the other side.

And a romance novel wouldn't that if it didn't include a bit of drama. Each character certainly has their insecurities that help pile it on. But each character also owns up to this in the end, allowing the full force of what they feel for each other to shine through.

I really like the secondary characters in this book. Ella's best friend, Lana, is snarky and spunky and truly cares for her friend. And all of Charlie's band mates, especially Tucker, really show they are definitely brothers in all but the blood sense of the word.

And Charlie's cause that he's fighting for is so prevalent in the world today: teen depression. I love how Harris worked this seriousness into the book. The idea of Life and Lyrics is an incredible one that has such merit and I think could actually accomplish what it sets out to do.

Overall, I really fell for the characters in this story. I loved their progression and development. And I especially loved that they didn't give up, on themselves or each other. I'm not much of a country fan, but it didn't matter because the meat of the story went so far above and beyond anything country music than you could fathom. Fans of Harris will tuck this one right into their pocket of love for the author. If you like the writings of Melissa West or Julie Cross, then Harris' story will set your toes tapping and your heart melting.

Claire - The Coffeeholic Bookworm says

One night was all it took for prim and proper Arabella Stone to cross out one thing from her bucket list. To flirt with a stranger. One night was all Charlie Tucker had to leave a good impression for his boss. To shed off his playboy persona. One night together, she was unknown to him, while he was so well-known by everybody else. One night, in a men's room, a surprise kiss, a bucket list of desires, one unforgettable moment.

In his arms, innocent girl Arabella blurted out her top 10 things to-do list. And one of them is Charlie Tucker.. No, I didn't mean like, she wanted to "do" him. (Gosh, even Charlie got confused with that statement, ha!) Without revealing who she really was, Arabella was able to leave a lasting impression on Charlie, something that boggled his mind in the next weeks to come.

Until they finally saw each other again. Some secrets were revealed. She never knew she was soon going to work for him. He didn't know she was his boss daughter. What tough luck these doomed lovers have...

This is my first Rachel Harris book and it has been exhilaratingly great! Music and romance come together, creating a vivid world of imagination. Charlie and Arabella fit each other like puzzle pieces. I love how they've grown and matured in their own ways, diminishing their undesirable qualities, one song at a time. From virtual unknowns, to mere acquaintances, from being boss and employee, to being friends, and eventually.... well, your guess is as good as mine.

What I loved most about this story is the drama and lessons that came with the romance. Teenage angst, depression, despondency, self-reliance, determination. Charlie's concern with his troubled niece was admirable, Arabella's dreams of making a difference in the world was truly commendable. Rachel Harris's writing, exceptionally wonderful. Like I said, this had been exhilaratingly great!

Valerie says

I love the sweet love stories that come from Entangled Bliss and this author particularly. This one certainly fits that style.

Ella has had a crush on Charlie since she met him at age 14 but the 6 year age difference had him only seeing her as a kid and his boss's daughter. As bass player in the country band Blue, he's got the player reputation. But he's more. He's an uncle that cares for his niece, Abby, with all his heart. He works hard for his band and for his niece. But a relationship isn't in the cards. Believing that he has nothing to offer a relationship with a woman he does the hook-up thing instead. And he has the worst luck with the press. But Ella believes he's more.

As they end up spending time together now that she's graduated college, she finds out she's right. He hides himself away from the world but she gets to know him and discovers the real man. Of course, he still believes a man in a band has nothing to offer to a relationship and the secrets are too many.

Ella was a nice breath of fresh air. She's had a sheltered life as the daughter of a major record label. Feeling like she isn't seen for who she really is, she takes some chances to prove herself. I loved where this plot line went. Her conclusions were perfect.

I loved that their relationship developed over time. She grows to love him deeply as he gets to know her for who she really is. But there's a lot standing in their way. What was nice was how much I cared about them as characters. I was cheering for them; Yelling at them for their misunderstandings; And joyful at their successes. I love when characters become dear to me.

I really enjoyed Ella's bestie, Lana, too. She's one I hope gets her own story. That girl has some spunk. And I can see who she may be tamed by. Hehe.

This story took place during a summer band break but the tour bus is ready to go. I'm hoping the next book takes place there. I kinda have an idea of who that one may be about (*coughs* Deacon *coughs*).

I will admit to seeing how this one would play out but there were a couple things I didn't get quite right. Nonetheless, I really enjoyed watching these two figure things out.

So sweet and satisfying. Very much a Bliss book.

If you enjoy the sweet Bliss books, then this one is a great pick!

Alyse says

You're Still the One by Rachel Harris is the first in her new Country Blues series. This was also the first book I've read by this author and I most definitely won't be my last. I thought You're Still the One was incredibly sweet and charming. I LOVED Charlie and Arabella (what a pretty name) together. This was a story of family and friendship, overcoming ones fear, and finding YOUR passion.

Arabella Stone has summer-bucket-list for her summer away from home. First on the list: Flirt with the man she's had a crush on since she was a teenager, Charlie Tucker. The rest: drink a beer in a biker bar, get a tattoo, learn a country two-step, ask a stranger for his number, experience a two-curling kiss, do a random act of kindness, go skinny-dipping, stare at herself naked in the mirror, and find her passion. This is her chance to get out of her comfort zone and experience things she's never dared to do at home. Only, she doesn't expect to see Charlie again (so soon) after performing her kiss-and-run.

Charlie is determined to stay out of the spotlight and figure out how to get his new charity up and running this summer. When his boss asks him to watch out for his daughter who has an internship at the studio Charlie JUST bought, Charlie has to agree to please his boss. But when he discovers that Arabella was his kiss-and-run girl, he finds it hard to keep his distance and stay professional with her.

The romance between Charlie and Arabella (Ella) is slow building in all the right ways. You always feel their chemistry and attraction towards each other but they (mostly Charlie) refuse to act on it. This was a really sweet read and look forward to reading more by this author.

Rating: 4.5 out of 5

Melissa West says

I have such love for all things Rachel Harris, and this book is just another example of how she's able to create the most amazing stories of love and humor and heart. I couldn't love it more!

Rachel Harris says

Can't wait for you to read Charlie and Arabella's story!!

Stacee says

I love everything Rachel puts out and I was thrilled to get this one in my greedy hands.

I absolutely loved Ella and Charlie. Their chemistry was off the charts and it was hilarious to see each of them struggle with it. They don't even kiss until 60% into the book, so you can see how I'm surprised that I'm not dead from the delicious UST.

As always, there's a stupid decision to lie, and then the truth comes out. Thankfully the angsty times weren't too bad. And with Rachel, I always know I'm going to get a HEA. My only complaint {if you could even call it that} is that I wish there would have been an epilogue. I really wanted something related to the future, but I'm thrilled with how it ended. I can't wait to see the next book in the series.

****Huge thanks to Entangled Publishing and NetGalley providing the arc in exchange for an honest review****

Brandi says

Oh, what a sweet, sweet story!

Sexy Charlie. Arabella has had a crush on Sexy Charlie for longer than she cares to admit. She admired him the first time he stepped foot into her home and she continued to admire him throughout his musical career.

Little Bit. The ridiculous nickname bestowed upon Arabella by Charlie when she was still a young girl. His boss's daughter, the princess of Nashville. It never occurred to him that she would grow up.

But boy does she grow up?!

And he didn't even recognize her.

A summer like no other before it. A friendship neither saw coming. A working partnership that proved both were more than their monikers.

What they could have never expected from each other was love. Love wasn't really on either's agenda. But they gravitate toward one another. They find themselves spending more and more time together. They find themselves fighting their attraction. They find themselves succumbing to that same attraction.

And scandal. Because what's a good book without some sort of drama. You know, more than the boss's daughter drama. More than the bad-boy country star drama. Scandal. A scandal is always a sure fire way to halt the progress between two people.

A scandal is just what we need.

Don't say I didn't warn you.

I think you're going to love Sexy Charlie and Ella just as much as I do.

Danielle (Love at First Page) says

Fun and super sweet! Just what I expect from and love about Rachel Harris' romances. They don't take themselves too seriously and are just so very playful! I've been itching for Charlie's story for a while now, having met the charming rascal in another series, and couldn't wait to meet the woman who would finally tame him. Charlie and Ella are pretty adorable together, and I enjoyed their banter. But I also felt like they ran around in circles a little *too* much. Charlie's hangups were getting to be frustrating! So, not my favorite book by Rachel but still a good summer read!

Irene says

5 stars

I loved You're Still the One!

The storyline was beautifully written with great characters that will capture your interest and touch your heart.

I really connected with both Arabella/Ella & Charlie's characters. They made this a fun, sweet, heartfelt read and even though the sexy times were fade to black you could see the chemistry between these two was off the charts.

Rachel Harris has once again written a beautiful, heartwarming love story that will leave you with a smile on your face and a heart full of love.

I highly recommend You're Still the One, this was an excellent start to the Country Blues series. Looking forward to the next book ;)

Thank you to Entangled Bliss via NetGalley for the advance copy.
