### Kati says

And Roberta's revenge arc continues. And it goes on and on and on while the Black Lagoon crew plays second fiddle once more. I'm really tired of them being guest stars in their own manga. I can't remember the last time the series actually focused on them. I miss the good old days when it was Rock, Revy, Benny and Dutch against the world. These days, it's like Benny and Dutch almost don't even exist anymore. I get that the author is doing some world building but it's at the expense of the main characters. I freely admit that I don't like it. In this book, I liked only two or three scenes, those that focused on Rock and Revy. The rest was all about politicking, gangsters sitting around tables and talking about other gangsters. Not my cuppa.

I do own volume 8 - I bought this manga in bulk long time ago - but I don't think I will continue it after that. I fell in love with the manga because I was smitten with the Black Lagoon crew. But the series has been less and less about them and more and more about Roanapur in general with each volume. And that's not what I signed up for.
