## Changer's Moon Jo Clayton

The two contenders tossed the dice for the final contest. The Noris drew the Runner, the Sword, the Sorcerer, the Eye. He was pleased. The armies could march. The valley and all that was in it would be his.

The Indweller drew the Kingfisher, the Poet-warrior, the Priestess, the Magic Child. "The mix as before," she said, "but with a change." She pointed to the priestess. She still had a chance.

And the chance was Serroi, once the puppet of the Noris, now moving through the people like an electric current, against the patriarchs, to serve the Changer. For the Coyote was the one who could alter the rules - and make the incredible credible and the impossible possible...

## **From Reader Review Changer's Moon for online ebook**

### **Catherine Emerson says**

A weak ending to a great trilogy. I'm afraid to get into the second 'Serroi' series for fear of again dealing with an extremely disappointing end.

---

### **Althea Ann says**

The last book of the 'Duel of Sorcery' trilogy. With this book, the story just really fell apart. I strongly got the impression that Clayton was bored of the character and the situations.

Rather than developing the existing plot, she introduces something totally new - a different woman, on a different world - in a near-future scenario, fighting against both illness and a socially repressive, militaristic government. I got the definite impression this story was NOT written with this trilogy in mind at all.

But what she does is has Serroi (protagonist of the trilogy) ask for help in her situation, and a group of rebels from this totally different story come over to her world as mercenary refugees.

It's rather ridiculous, doesn't work as far as the structure of the book, and is non-essential to the story.

General rule-of-thumb - DON'T change tack 3/4 of the way through a tale!

Ah well. What can you do?

---

### **annette says**

**I love Jo Claytons books and hope to see more of them, reading this made me think of the Wild Magic series when Serroi was woken from her tree form..**

I would recommend Jo Clayton's books to anyone and look toward to seeing more of them in digital form. The Drinker of Souls series, the rest of the books on Serrois world, Shadowplay and others.
