## **Eternal Ecstasy Setta Jay**

\*This is the finale of the Guardians and the Realms series and is not meant to be read as a standalone title\*

As the ruling God of Thule, Hroarr's priority is the survival of his world. Gifted with the ancient ability of sjá, he has seen the birth and destruction of hundreds of worlds. This incredible power comes at an enormous cost, yet its toll seems to ease in the presence of a hauntingly seductive healer from Earth.

Sirena's life is comprised of duty. Duty to her Guardian family, to healing those of her world and, most of all, the overwhelming duty to right the wrongs of her secret and vile bloodline. With everything on her plate a ruthless warlord God from another world is the last thing she needs, no matter what fate and her heated body demands.

Will a dark Destroyer of Worlds bring upon the end of Earth and Thule or will two strong-minded beings fight and discover their own eternal ecstasy?

Warning: Take one possessive, dirty talking Warrior God and one smart, no nonsense Healer; combine and shake things up for explosive results and scorching content meant for mature audiences!

## From Reader Review Eternal Ecstasy for online ebook

### Marta Cox says

Well the final book is here and if it's a battle royal you are hoping for then you won't be disappointed as so many elements come together in this story. The Guardians of the Realms have always been entertaining with their passionate matings but this time it's the turn of quirky Sirena, the healer who has helped so many but she's paired up with the insanely, arrogant ( not to mention smoking hot) Hroarr who doesn't remember how to feel or does he?

So yes this is a romance driven story but it's the world building that grips this reader. Obviously as the last in the series there is a lot for the author to tie up but never fear she does it in fabulous style. The Thulians are needed to help cage the Earth Gods but there is still the threat of the evil Tria who felt unfortunately remarkably absent for much of this book. All our favourite characters get to take a bow as they converge not only on old enemies but also a much darker threat that could see world's colliding with devastating consequences.

For some reason the romance between Sirena and Hroarr seemed smoother than what previous couples have experienced and I'm happy to say they are left to decide things for themselves. That doesn't make things easier but it allows them and here I'm thinking particularly of Sirena to take back a little control. Fear not though as Hroarr is no pussycat just a male who knows what he wants and no one will stop him. Honestly it was high time Sirena got a man in her life and this Warlord God of a male is perfect for her but you might not initially warm to him!

A lot does happen in this book but for some reason we end up being told about it and not shown. Yet when everything shakes down at the end its non stop and so relentless. There are moments of horror and the fear that maybe just maybe the Guardian's and their allies are about to come unstuck. We get sadness and sorrow but then the author throws in a surprise that is so sweet you will want to cheer!

This has been a wonderful series with its mythological characters stepping up and constantly surprising this reader but it really does need to be read in order. I can happily say there's none of the icky threesome stuff that never really made sense. There's even an epilogue that's a little cheesy but still made me smile. I'm sad it's over but unfortunately this wasn't my favourite in the series but the last third of this book just blew me away. If you enjoy paranormal romance that sizzles then this series with its protective males and sharp sassy heroines is one you need to read.

This voluntary take is of an advance reader copy from Netgalley and is my honest opinion

It's over.

I really had fun with this series. There was probably too much smexy even for me but not enough to put me off. I mean it's smexy time so it's not like it was unwanted!! This series was exactly what I needed while unwell and absolutely saved me.

We end with the lovely Sirena and ruling God of Thule Hroarr. Hroarr is a bit of a knob but not to worry, he tones it down by the end and we like him!

I kind of wanted this one to be a bit longer as it all finished up so quickly but we do get a pretty detailed epilogue and it was a challenge trying to remember everyone but I loved getting an update on all the Guardians are their mates.

The most surprising thing about this series is that I really got into the overall story and I enjoyed pretty much everyone's book. I started out looking purely for smut but I got a nice fun story and became invested in everyone. What more can you ask for!!

### **Angela (Angel's Guilty Pleasures) says**

**Eternal Ecstasy** is the final installment in the *Guardians of the Realms* series by Setta Jay. It's all been leading up to this one explosive world altering event for the Guardians.

It's always sad to say goodbye to characters that have entertained you. I do hope that we might get to return to this world again; either with novellas or a spin-off. The world has been fascinating, the characters are memorable, and the writing is fantastic.

Sirena, I have loved her since the moment she was introduced. She is such a workaholic and devoted to what she does. Hroarr, Alpha and Dominate. His word is law. This couple just didn't seem to connect like the others did for me. I didn't feel that soul mate bond between them. Their mating was not the typical mating we have seen in the other books. I liked that it was different and their romance was super-heated, but my issue and reluctance with this couple is due to Hroarr. At first he was too much, but once their mating started to progressing things changed and he ended up not being so bad. I still don't love him, but I don't hate him either. It's middle ground for me with Hroarr.

I loved all the mind-blowing surprises we got. Some were happy and some were heartbreaking. The ending epilogue was: Wonderful! Sweet! Adorable! It gave us a look at the life of all the Guardians and Mates. Awww!

*What a wonderful series and a lovable end. I highly recommend the Guardians of the Realms to those who love unique worlds, characters, and a lot of steamy romance.*

**"Take more of me, volur minn."**

**Eternal Ecstasy** is the tenth and final book in The Guardians of the Realms Series. I have been a fan of this series from the beginning, and this final work of art certainly does not disappoint. Setta Jay delivers a perfect conclusion by bringing these characters full circle! To say my feelings are bittersweet about this ending would be the understatement of the century. I have loved these characters throughout each mating, explosive battle, and passionate interlude and to finally have Sirena's story in my hand has been nothing short of perfection!

**"Before she knew it, his cock was slamming her down hard, making her cry out at the raw pleasure of being filled."**

**Eternal Ecstasy** picks up directly after **Storm of Ecstasy**. Sirena and the unknown powerful Hroarr have made contact and now that the mating has started the physical draw between them becomes painfully strong. With the fate of the worlds hanging in the balance, Sirena and Hroarr need to find a balance between completing their connection and battling the entities that threaten their existence.

**"His intention was clear, he was marking her as his own in front of her family while fighting the desire to carry her home with him."**

As tension continues to mount, Sirena and Hroarr are spending time in the fight and stealing moments together. As with all of the matings in the series, the passion between the two is intense, and as the physical and emotional bond between the two grows stronger, the bond between them becomes unbreakable.

**"You please me too much."**

Told in dual POV, **Eternal Ecstasy** is another perfect blend of complex characters, non-stop action, and smoking hot passion. Setta Jay has created a world in which I love to escape to. The Guardians are strong characters who love their mates fiercely. The relationships between them are strong and as they battle together their loyalty and fierce desire to protect the innocent drives them to succeed. Like a blockbuster movie, every second spent in this world will keep you captivated from the first moment until the very last.

Overall, **Eternal Ecstasy** is a must read for fans of this series and paranormal romance fans need to dive in with book one **Ecstasy Unbound** right now. The passion, action and unforgettable characters are sure to please. Every moment spent with these characters is one that I will never forget. I love this series and as sad as I am to say goodbye, I cannot wait to see what Ms. Jay has in store for us next!

I received an ARC of this book from the author via NetGalley in exchange for an honest review. Thank you Setta Jay!

What a great finale to the The Guardians of the Realms series. Serena's story was exciting as she was feisty with a very possessive God. I've always loved Serena and I am so happy she found a suitable mate. I really enjoyed when they both didn't want anything to do with each other. It made me giggle when they were trying to stop something that couldn't be.

Setta! Those last chapters were so intense! The suspense and the anxiety were well worth it with that ending though - you know those black wings get to me! (Wow I just used three exclamation points in three sentences; no shame).

I am sad that this series is over, but it was extremely entertaining. Thank you for the summary of the past books at the beginning. Really appreciated!

I think Hroarr might have tied with Drake for my favourite guy in this series. I loved him and Sirena together, their relationship formed so naturally even with their rocky start. I was glad we got to catch up with all the other characters and you really felt that the author put her all into making this the best book it could be for the readers. I'm sad that the series is over but I've very happy with how it ended. I loved the little prologue where we got to see them all happy. I'm looking forward to reading more from Setta Jay and her amazing world building abilities.

*5 happily ever after stars*

**Warning: Take one possessive, dirty talking Warrior God and one smart, no nonsense Healer; combine and shake things up for explosive results and scorching content meant for mature audiences!**

Seriously bittersweet, I have been waiting for **Sirena's** book from the very start, and for her to end the series is almost fitting. She was the pillar of strength, serenity, safety and comfort for the Guardian's. There was no man, outside her Brother Guardian's who was powerful enough to mate with her so all she had was her family and her work. It's hard not to love her dedication and spirit. You can just imagine how excited I was that not only was she getting a mate, but a dirty talking Warrior God, who takes power, cockiness and possessiveness to new heights.

***“You invaded my palace. My dreams. Entered my mind, and then endangered yourself by seeking out my very power. And now you’re connected to my soul, Healer. The question is... what will you give me for saving you from your own curiosity?”***

Sirena isn't one to play games, and neither does Hroarr. She knows what the fates has in store for them, and he knows what he wants... *He would have the seductive healer writhing in his bed, her power making him feel something beyond the darkness and shadows of his numb soul.* But it would be stupid of him to think she would bow down to his every arrogant whim without a fight.

He has the power and the knowledge to put the destruction at rest, or at least give the Guardians the fighting chance they need. And his little Guardian witch is proving to mean more to him than all the worlds combined. He would move heaven and hell to see her protected, and if that means playing nice with those she cares for, then so be it.

**Eternal Ecstasy** was utter erotic paranormal perfection, I LOVED it... Hroarr is simply amazing, he is a man who is rough, raw and hard to love but see him melt under the right woman's hands and he's everything a man should be and more. He infuriated and aroused with ease, and to see him *feel* again was a beautiful thing. Sirena, had her work cut out for her, lucky for her she's had a lifetime of practice dealing with overbearing protective men, only this time she had the benefit of enjoying her mate's body.

I can't find enough words to say how much I love this series, it was one that I immediately fell in love with, that kept true to the overall story line but delivered something different in each book. I was emotionally invested in the characters and the story and was something I always looked forward to reading. It is a magical erotic world where your imagination can run wild and free and just enjoy each and every moment, allowing you to fall in love with each and every one of them. I'm sad that it's over, but I'm beyond happy to have the chance to read them all. This was a happily ever after that was long time coming and it was worth every second.

### **Rithy says**

Sometimes you get to a point at the end of a bag of Flaming hot cheetos and you know only the crumbs are left but you can't help upending the bag so you get every.last.crumb. That was me with this book. I was so sad to see it end I ended up reading the entire thank you note, the coming soon note and the about the author section (even though I've already read this with the first couple books I read of hers)

The guardians of the realms series is hands down 1 of my all time favorite paranormal romance that I have ever read. It has great possessive, protective alpha males, Sexy, smart and kickass heroines and great worldbuilding storyline to boot. The writing flows so seamlessly you can imagine exactly what the book is about and that helps hook me to the story.

Sadly Eternal Ecstasy is the last book in this series. I heard there is going to be a spin off- keeping my fingers

crossed! This story is about the last of the guardians Sirena, She finally found her mate in Hroarr but she knows nothing about him and upon first meeting him he is a tad arrogant. Ok a lot arrogant but we love arrogance! Not to mention HOT, whewwww ...\*\*eyes glazes over\*\*\*

Anywho, Hroarr agrees to help the guardians only if he gets Sirena, I know jerk move but he's feeling the pull and all he knows is he wants her and he will have her. Sirena ends up agreeing because the Darkness is coming and he has a way to help. Between all this happening they do get to know each other more, sexy times of course are included. I was getting a little scared in the end because it seemed like the book was close to ending and yet the battle wasn't happening yet. I didn't want it to feel rushed you know. I shouldn't have worried. The battle happened, Everything was explained and it DIDN'T feel rushed at all, it felt natural and I couldn't be happier with how everything ended.

Bonus was the Epilogue it was super cute! I love Nastia! " I will cut you!" Muahahahaha This will definitely a series that calls to be re-read from time to time.

#### **Spoiler warning**

Seriously??? I know this is smut focused and all, but it is also PNR and that is a genre with fucking plots. Naturally, I expected to be at least, treated like I have a couple of brain cells. Not this innocence saved the day and they lived happily ever after bullshit. And THAT is a bullshit!

Nothing sexy, just whiny people talking and talking and bam magic baby takes care of stuff in a minute. Okaaay then, me and my brain and my camel are crossing off this author of my tbr list for good, before riding into the sunset.

Maybe more to come soon, but for now...

A little bit slow, but once the action started, it was go, go, go. A very nice ending to the series. I cannot wait to see what Setta Jay comes up with for the spin-off series! Happy reading!

## Stacey is Sassy says

### I'm sad to see the *Ecstasy* end...?

*Eternal Ecstasy* is the last book in the *Guardians of the Realms* series and I'm a wee bit sad. *Setta Jay* writes paranormal smut that ticks all my boxes. Each instalment has an exciting and action-packed storyline, interesting characters and the kind of smutty smut that has me smirking, squirming and smiling. But, the best part of Setta's books is her bossy, possessive and growly heroes. I love to step away from reality and fall for men who beat their chests, need their mate in touching distance and are happiest when their mate is smirking, squirming and smiling.

This series has an awesome ongoing storyline where the Guardians were created to protect the world from evil. The 12 Guardians appointed are made up of men and women with special abilities and talents. Their jobs have given them a single-minded focus which has, up till now, distracted them from their loneliness. Each knows that they are destined to find their one true mate and no other will be able to fill that space.

As evil comes closer to destroying the world, their true mates come into their lives to make them stronger, fiercer and happier than they ever dreamed. The Guardians have always been determined to save the world but now, they have even more reason to.

I'm so excited we've finally come to Sirena's story. It has been a struggle seeing her watch her fellow Guardians finding their forever mate. Sirena is happy to see her brothers and sisters (Guardians) find their one but she's also jealous.

Sirena wants and needs someone to adore her and put her first for a change. As the healer, her job is to see to others health and well-being and it's normally at the cost of her own. At the end of *Storm of Ecstasy* - #9, we get a glimpse of where and who her destiny is aligned with and to be honest, I wasn't at all sure how things would go.

Hroarr (picture Jason Momoa) is the ruling God of Thule. His job is very important and he doesn't have time for things like feelings. After meeting Sirena, he decides that he will keep her as payment for helping the Guardians fight the darkness and save their world. He's a God, and what Hroarr wants, he gets. Funny thing is, Sirena is not so keen to become his pet or sexual slave...just because he says so. Turns out that this God may have to actually set aside some time to talk to this woman...THE HORROR!!

What follows, is a very different kind of mating than what we have seen previously. Sure, it's great that they aren't all the same but to be honest, I missed seeing the *FRENZY* take hold. Both Sirena and Hroarr struggle with their feelings and connection. Hroarr knows that he has an unusual need for Sirena but doesn't understand the feelings attached to the need. Slowly we get to see their communication lead to a better understanding of each other and when they share their histories...it all makes sense.

Well, the Darkness came and all the Guardians, mates and good Gods unite to fight the baddies. The action was exciting and I could picture the ending scenes as they played out.

I enjoyed *Eternal Ecstasy*. I was a wee bit disappointed that Sirena's mate took awhile to get into the swing of things when it came to being possessive and nurturing. It definitely came but it lacked the overwhelming frenzy that I've come to enjoy.

It was fantastic to see all of the Guardians and their loved ones fighting together to beat the Tria and the Darkness that comes with them. The little glimpse into the future put a big goofy smile on my face.

I'm sad that the *Guardians of the Realms* is over but I'm excited to see what *Setta Jay* comes out with next.

4.5 stars

This is the conclusion to the *Guardians of the Realms* series. And secondarily it's Sirena's and Hroarr's story. I'll admit that there's a LOT going on with this particular series. It should not be read as a standalone but Ms. Jay does a good job inserting reminders for the abundance of characters and side stories that have been involved in this series. I'll admit that my only little bit of disappointment was the small amount of actual interaction between Sirena and Hroarr. A lot of their interactions were referenced after the fact. With all the other story points going on I know it had to be hard to give these characters a piece of their own story. It was there but I wanted more. The stuff that we did see, especially near the end were sweet. Bravo to Ms. Jay. This series had to be a doozy to write but I'm so happy you persevered and gave us these books.

I love this story, but this was not my favorite. I loved seeing everyone in this installment. I am glad that Sierra got her mate, but I really didn't like him. They just didn't seem to connect like the others and the didn't give off that soul mate bond. I just thought he was a jerk ad when my two favorite characters, Pathos and Drake don't like him that tells me something.

I feel bad I couldn't love it. It was a great series and I enjoyed it. I would like to thank Ms Jay for the ARC! I am always honored to get one from you! Great writing! Can't wait to read your next adventure.

## Tanja ~ T's Book ~ KT Book Reviews says

Eternal Ecstasy is a five-star read! I could sit here and tell you how fabulous, sexy, strong, and magical these characters are and every nuance that happened and how it made me feel and think, but I won't. Why? Well, friends, if you've made it this far into the series you already know. I mean, it's book ten. You stuck around for a reason. What I am going to tell you is that I wasn't a fan of book one. "WHAT?!?!?!" I hear you exclaiming. I gave it a three-star rating with a spoiler warning and the reasons why in my Goodreads review. Three stars.

Forward ahead a year later. I receive the sweetest e-mail from author Setta Jay, asking if I would like to read more of her series. She'd taken my somewhat critical review as intended: not with malice, but with an open mind and a thoughtful attitude. How could I not give this series a second chance?

Well, here we are at the end of the series and I have rated every book since then four stars and higher. So, I'm not gonna give you a review of her work, but a review in adjectives of the person as I know her. Smart, innovative, well thought-out, risk-taking, observant, thoughtful, courageous, funny, and imaginative. All these things are evident in her work and correspondence.

Five Stars for Setta Jay and the Gaurdians of the Realms

## Mindy Lou's Book Review says

This book is bittersweet for me. I've completely fallen in love with this series and sad to see it come to an end. This world Setta Jay has created was fun, intense and sometimes a bit confusing with all the new terminology, but definitely impressive.

I loved how she created characters that are so different from one another, yet they bonded as family and had each other's backs. I'm a super hero junkie so it's no wonder I fell for these guardians who each had their own power and drive to protect, just like my favorite Marvel characters. This series would make such a great movie or more likely HBO series with all the heat she created between bonded mates.

Speaking of bonded mates, Setta Jay has the best Alpha males! I'm such a sucker for a manly man that is 100% all about his female. The possessive, protective and dominant males that make you swoon! Her heroines are just as much of a draw to the series. I love when an author pairs a very dominant male with an

equally sassy and strong female. Each heroine in this series was equals to their very strong mates. This was erotica at its best!

For the final book in the series, it ended perfectly. Everything came together as it should and I loved the journey. I'm excited to see what this author will create for us next!
