### **Alena says**

I have no idea why I love this bunch of people as much as I do, and I must say that the book could probably be really crappy and I wouldn't notice. Ok, so I might notice, but I'm not sure I would care.

It wasn't crappy. It picked up right where the last one stopped and was action packed right to the last page.

There were some things that didn't work for me as much as the previous books in this series did though. There was an additional POV that I don't think existed in the previous books, the one of the 'bad guy'. I'm not entirely convinced that it was necessary to the story or that the information it provided could not have been provided in any other way. It felt awkward in the flow, especially since there really wasn't a lot of it. I also felt that the Rebecca/Catherine relationship in this book was more a rehashing of the previous books and didn't provide much in the way of development.

But none of that stood in the way of me thoroughly enjoying the story and getting to visit with old pals.

### **Johanne says**

Dreadful - the sort of book that gives LGBT fiction a bad name

---

### **Brooklyn Graham says**

So, I thought that I would do something different here. Wait until I had read the entire series and then say something. Well, I've read them all, and contrary to preconceived notions brought on by the first several chapters of the first book, I actually really enjoyed this series. It wasn't Rad's best, by any means, but it was very good. I found myself growing attached to the couples.

Rebecca and Catherine, the intellectual and the hardened detective were good for each other, and even though the excitement waned for their romance in the last couple of books, it was made up for by the steamy romance between Dellen/Mitch and Sandy. I absolutely loved these two.

Now, a relationship that I wished was explored more thoroughly was Jason and Sarah. Aside from the occasional mention, Sarah was mostly invisible, and so much could have been explored there with Jason/Jasmine. One thing does happen near the end of the last book, but I won't mention it here.

Now, my favorite couple. Michael and Sloan. My heart just wrapped around these two, and I don't really know why. There were times when I just wanted to throw my arms around Sloan and then there were times when I wanted to shake some sense into her. So smart, but so angry, and even dark at times. Michael, dear sweet Michael. Is there anyone that has read this series that didn't just fall in love with her?

Watts, the comic relief, was always amusing and a constant thorn in Rebecca's side, but one can sense the goodness in him despite his lack of a filter. The villains in this book were truly evil, and even some of the good guys weren't all good, a certain Fed comes to mind.

I really enjoyed Radclyffe's foray into the Trans scene in this book. I don't remember any of her major characters being Trans in any of her other books, so this was refreshing.

I have not read the prequel yet, but intend to soon. I need a break. I do intend to go back to the one Provincetown Tales book that delves into this sphere, and re-read that. I ashamedly admit to having skipped over a lot of it.

All in all, a good little series. I almost wish it carried on, but as with all good things, they must come to an end at some point.

### **Mirtha Siblesz says**

#### **Wow!!**

What a great ending to this book and series! I hope at some point the characters do return and see what happens with Zamora. For what it's worth, the characters were all really well done!

---

### **Ulla says**

I love Rad's novels, and the Justice series may be my favourite series. This one had one of the most intriguing storylines, and without the obligatory, unnecessary sex scenes it would have gotten 5 stars!

---

### **Kirsten says**

Of all the lesbian fiction I have read, this one comes closest to lesbian porn. Seriously. It's a total page turner, not only because of the plot but because you know there are more sex scenes coming and you want to know how these women will get it on. They are all hot, motorcycle riding lesbians, or hot career women, or tough street girls. It's great. I read most of it during an 11 hour plane ride and it made that trip so much better. It's definitely adult. Besides the x-rated nature, the plot is also really great. It's almost secondary to all the who gets it on with whom, but it's still fast-moving and captures the imagination. It was a great crime story and the women in this book are awesome crime solvers. But, definitely easy reading and very enjoyable if you are into this kind of thing.

### **Sally Trotter says**

#### **Great conclusion**

I had been meaning to read this series for a while and once I started I couldn't wait for the next story in the series . One story spread over 5 books, each one more thrilling than the last . Each one worthy of its 5 star rating . If you like romance & thrillers all in one this is the series for you

### **Kennedy says**

I really enjoy this bunch of characters working to right the wrongs. Michael and Sloan. Rebecca and

Catherine. Dellan and Sandy. Jason and Sarah. Each had a part to play and although bumpy at times, in the end the good guys won and live to fight another day. I liked the cyber tech stuff because it is so accurate and relevant when you think about crime and the world today.

---

### **Sara says**

The Justice series is not my fave, and I remembered why after reading this. Radclyffe writes some of the characters so well (Dell, Sloan, Sandy) but others are so one dimensional, that they just feel like props to play the stronger characters off of. But still, entertaining.

---

### **Elizabeth Tanner says**

I enjoy the author's works. The author has built a team who are more like family. I love the psychologist character. A wee more sex than I would prefer. Good series.

---

### **Angie says**

Just like most of Radclyffe's later series-based books, this one was lacking in continuity from earlier works in the series. It's kind of disappointing because the earlier ones flowed together seamlessly.

---

### **Jane Shambler says**

#### **Not fair!!!!**

O.M.G. You cannot be serious!!!! I've looked and the next book is missing. Note to Radclyffe..... I hope the next instalment of this series is nearly finished. The whole lot are awesome. Just found the prequel so I'll have to be content with that until number 6 is available. I love this author. Easy to read, easy to follow. Storylines are exceptional, characters are very realistic and even had people to boo at.

---

### **Celina says**

I can't even fathom what happened to those girls. My heart just died a little for them. A very good book, I just wish and hope this happens. Many people need saving.

Though I would have preferred if that Zamora guy was arrested too. Unless of course there will be more coz the ending was rather open for future books in the series. And I would definitely not mind more of Catherine and Rebecca.

I still didn't like Mitch/Sandy POV and Michael/Sloan POV. I would have liked it if we had more of Catherine or even Rebecca. But I love that this book focused mostly on the detective stuff. Coz I read

nothing about crazy families and shit like that. (though, I still would have loved to know more about Rebecca and Catherine's background.)

Zamora needs to fucking die for making those poor children go thru that kind of hell. And I don't understand men who have sex with young people. Like for fuck's sake, you dull-witted fuckheads are gonna end up in hell. And I will fucking help with chopping the firewood.
