Wonderful

It is such a joy to read Jackie Weger books. They are true, timeless love stories with a bit of suspense, a pinch of spice, a hot, honest hard working man and lots and lots of a love we all strive to find.

Akina says

Cute story. It seemed somewhat rushed. The relationship progressed too quickly especially in light of the circumstances. And a bit predictable in many ways. But the feelings between the couple seemed real and intense. The children were a nice bonus. Children are rarely incorporated well into romances but the author executed their involvement extremely well.

I'm already a huge fan of Jackie Weger's! Want to know why? Because her characters are so realistic. They aren't always nice, but they're redeemable, and that love and trust and home is found in the end of her stories make for a very satisfying ending.

Her books are populated by people who are fun and funny--my favorites of her characters are always the kids--they have the BEST lines. Highly recommended!

Thank you

Thank you Ms Weger again for another great story. Love this book the setting is wonderful and the characters are ones that you can love.

Linda Williams says

An enjoyable romance about a mom, her two kids, and the cop she can't help falling for. The story offers memorable characters, wonderful imagery, and suspenseful moments. Will Leah be acquitted of a crime she didn't commit? Or will her past determine her future? With Detective Leo Garvey breathing down her neck, in more ways than one, she can't be certain of anything! Highly recommend.

Great fun romance!

I really enjoyed this book, the characters real and funny, the plot engaging and realistic, and the romance very sweet.

It took me a while to decide how I felt about this as it was quite a gentle read. I found the character names – Leo and Leah a bit confusing at times. I also wasn't sure if it was meant to be a sequel as there were several references to past events which were never fully explored. The author herself says she doesn't like "bad-boys" but I think Leo was too nice. I don't believe a detective would behave like that. But I liked Leah and I was rooting for her. I found myself drawn in and I read it quickly. It was an enjoyable story overall.

Wonderful

So wonderful I never put it down. Read the entire book in one night. I tried to put it down to sleep, but wanted to know what happened next. It is the fourth book I have read by Jackie Weger and she has not disappointed me yet! I'm debating sleeping or looking for another of her books to buy!

(3.5 Stars)

Anyone who knows me understands that paranormal/ urban fantasy is my genre of choice; but, then a year ago I stumbled upon a book entitled, "Finding Home" by Jackie Weger and now I have a newfound respect for good old fiction.

So, what happened to cause my revelation? Well, first and foremost, I love Ms. Weger's writing style. She hasn't jumped on the billionaire meets struggling average girl love bandwagon

She writes about everyday people who have everyday problems but she makes it interesting. There is a wonderful snarkiness to her characters that is refreshing and will leave you smiling while reading through the pages. Her stories just make me happy and I know I'm in for a good read. However, enough of me gushing about Ms. Weger and more about "No Perfect Destiny."

Imagine ending a marriage to a man who you thought loved you only to discover he and his mother don't think you have the proper pedigree for their ambitious lives. So, when you are wrongfully accused of embezzling money for the company you work for, your mother-in-law insists you don't embarrass the family further by fighting it but rather you pay restitution causing you to lose your home. Now, they want custody of your two children because your ex's perfect new wife can't have babies. So, what do you do? You go on the

run and do your best to provide whatever you can for your kids. This is the story of Leah Spencer who has been trying to live below the radar until one fateful day when an audit at her current job reveals funds are missing. Now, Leah is on the radar of a handsome but quirky, used clothing wearing detective named, Leo Garvey.

It seems Leah has Leah in his sights for embezzlement he also has her in his sights for the greatest crime of all, she makes him all hot and bothered! So, what do you do with a woman you suspect of a crime and that you are lusting for but she shuts you down every step of the way? Well, the answer to this question can only be found in the pages of this book.

I really enjoyed this tale especially because the author didn't make the embezzler so transparent that the blind could see their identity. I will admit that she almost had me fooled and I thought, "How refreshing?" Additionally, I really enjoyed the relationship between Leah, Leo and her kids. For those of you who are so inclined, there was plenty of passion but it wasn't erotic so be warned. I will say that it did not detract from my reading enjoyment! There's no doubt about it for me, if Jackie Weger writes a book, I am going to read it!

Love Her Books

Loved Leah and the kids quickly. Leo, the vintage clothes detective, grew on me. I love the HEA ending and the setting of Galveston Island. The story quickly drew me in and Scully and Evie were great supporting characters. I hope Jackie writes their story.

I liked how the spiritual dimension to Leah's life was brought in to the tale as well. Thanks for another unique and interesting book Jackie!

Mary Ann says

I didn't enjoy this book as much as I have others of Ms. Weger it will not stop me from looking for other books she has written. Since the book was shorter I didn't have as much to love and hate.

Rosie says

As soon as I started reading No Perfect Destiny, I knew I was in the hands of an experienced author and story-teller. Her phrasing and use of words is glorious; her heroine is sassy and her hero strong and authentic - but no cardboard cut-out. The author's ability to hold back just enough of the story to keep you guessing and keep you reading is clever. I cared about the lead characters and I wanted to keep reading.

For a satisfying, romantic read, this is just the ticket.

It's the first book I've read by Jackie Weger but it won't be the last.

Piper Templeton says

“No Perfect Destiny” is an easy book to like. Sweet and romantic, it also draws realistic, likable, and engaging characters in Leah and Leo. Many struggling single moms will identify with Leah as she grapples with paying the bills, building a new life, and being a good mom to Nelson and Sally. Romance isn’t even on her radar until sexy, brash Leo enters her life, a detective with an old-school charm and an old-school wardrobe.

When an audit at the machine shop she works at as a bookkeeper turns up embezzlement of funds, Leah becomes the prime suspect. This subplot is intricately tied to Leo and Leah’s budding romance, and the author deftly introduces possible suspects throughout the novel and keeps readers guessing on who the real culprit is.

The dialog is very natural; the characters—adult and children—talk like real people talk. There’s a natural flow to it. The writing is very colorful and fast-paced. I highly recommend it for readers looking for a fun, engaging, relaxing read.

Laura Reading says

Read as part of the Hearts & Kisses anthology

Despite twice being accused of crimes she did not commit, struggling to survive and provide for her kids, and kids who decide they can get a new daddy.

E Reeder says

What are the chances of being accused of being a thief at work twice, when you are innocent? What if the hunky detective seems to be very interested in you? What if you go to jail? What about the children? This story had the right amount of suspense and love to make it a great read! I loved this story, I think it was one of my favorites.
