# From Reader Review Rock Her for online ebook

## Miriam Mathew says

**EDIT 29/06/2013:** Since this is a book plagiarised by the author Liz Thomas a.k.a Jordin Williams a.k.a James Bishop a.k.a Jordin Bishop a.k.a Emma Buch a.k.a Emily Curran, I am NOT reading it. Stealing another author's hard work is IMMORAL, UNETHICAL and WRONG.

Original Thoughts: I'll admit, I'm only going to be reading this book *just* because of all the bad reviews it has gotten. Seriously it can't be that bad...I'm hoping.

Plus, the cover is **HOT!!!** And I'm a sucker for covers like that.

---

## Jennifer (TexasDiva74) says

Okay, I made it through 21% of this book, but that's all. I am DONE!

I am a huge fan of erotica and steamy sex scenes in books, but what I just read in this book was anything but hot or erotic. There's nothing even remotely sexy about reading a sex scene where the female's genitalia is called her "dripping f\*\*\* hole", or the man's as his "stiff meat".

So, I can honestly say that the only thing I got out of the 21% of this book that I got through was a steaming hot shower to try to scrub away how dirty it made me feel. I hope my Kindle can forgive me, too, for this violation.

---

## Debbie says

**D.N.F**  
**DID.NOT.FINISH**

I rarely DNF books or do I go on Goodreads to badmouth a book but I just can't help but warn other about Rock Me. I was actually going to DNF this book round the 30 plus percentage mark but kept pushing myself to give it a chance but around the 54% mark I just couldn't stomach anymore and gave up on this.

There were a few issues with this book that grated my nerves such as...

**Poor Editing** - I am not a writer and not the most grammatically correct person but when I notice typos, editing and grammatical errors then I know there is definitely something wrong with the book. Poor editing has never stopped me from finishing a book but I will take notice of it when it happens repeatedly.

**Poor Characters** - The two main characters in this book did nothing for me. Neither one captured my attention which really surprised me because I would have at least thought the rockstar in the story would have somewhat captivated me. For those of you who know me, than you know I love me some rockstars but there was nothing about Kip that attracted me to him.

**Cheesy Dirty Talk** - I've read my share of erotica but honestly who uses terms like "dripping fuck hole", "dripping honey hole", and "love cream"? It just made the sex scenes ridiculous and I honestly don't want to hear about a guy wanting to "give her a bath in his love cream." OH! And the guys also like to refer to his genitalia as his "meat".

**Racist/Politically Incorrect terms** - The racists and politically incorrect terms is what finally put the final nail in the coffin for this book. The first time it occurred was when rockstar Kip was retelling his story about the extended amount of time he'd spent being capture, beaten, and tortured while in Afghanistan. He'd referred to his captors as "rag heads". Normally I would have found the usage of the term as racist but I was being lenient because he obviously still suffers from his memories but the next time the character/author decided to spew something racist and politically incorrect I just wanted to chuck my iPad across the room.

**Annie laughed. "I think I saw a PF Chang's at the far end of the mall. I am famished," she said.**

**"If that's what it takes to maintain your curves, I am ready for some oriental." Kip said. Then later, some ching chang bada bing bang.**

*Are you fucking me with this shit?!* Oriental? Ching Chang Bada Bing Bang? Where the fuck did these people come from? Unless PF Changs started selling rugs I thought they were a Chinese/Asian restaurant chain. As an Asian woman, I was completely offended and shocked that an author would actually allow their characters to use such offensive terms. After reading that little tid bit I immediately stopped reading and removed the book from iPad.

The only good thing about this book was the cover. I mean honestly it's a hot cover and I was totally bamboozled into reading this book after seeing that cover. This will be my first and last book read by this author.

---

## **Scandal (Scandalicious Book Reviews) says**

Ok, so I saw this cover on a friends FB page. It looked really awesome and the blurb seemed right up my alley. The author was looking for reviews and I was between books so I fired off a note and ba-bam! I had it on my Kindle. Well, that's where the happy stops.

I am not a prude. Not my any stretch of the imagination but seriously, fuck hole, love cream and the best "meat" she's ever eaten? What the fuck? The book just felt dirty...and not in a good way...in a Ke\$ha doesn't shower and probably smells sort of way. In fact, the woman in this book gets painted in the guys love cream all the time and seems to rarely shower it off. I'm sorry, come in your eyelashes is not sexy...and falling asleep that way is going to make you feel like you have a raging case of pink eye the next morning. Gross.

There are a lot of things I'll let slide in self pub books. One thing I have a very low tolerance for is racism. There were two questionable words used in this book that really turned me off. First the guy refers to people as rag heads while recounting his time when he was captured and tortured during his time in the war. Now, I may be able to over look something like that because the guy was telling a story about how they were about to cut off his head for the cameras...but still, it didn't sit well with me. It kinda' came out of nowhere and just didn't feel right. Secondly, without any Asians threatening to sever his head, he refers to PF Changs as "orientals" and goes on to talk about ching chang something something blah blah. Seriously? It was too much. I should've DNF'd the book right there but I was honestly curious to see how much worse it could get.

If you know me at all, you know I really hate giving bad reviews. I mean really hate it...look at my reviews here, usually if I don't have anything nice to say, I keep my mouth shut. But I felt I had to say something here. The cover and the blurb are too enticing. The writing leaves a lot to be desired, the characters are basically unlikable, the sex is just straight up dirty, not sexy and the story/plot is completely unbelievable. I did read the entire book but I can not recommend it.

---

### **Angie says**

First, I applaud the author for her promotion of her book. You got my attention, got me to buy the book, and got me to start reading the book. The purchase of their work is more than most writers will ever get.

However, when I make a purchase of a book, or any product for that matter, I expect that the seller has honed their product to its fullest potential. Unfortunately, this book was so wrought with grammatical, punctuation, and spelling errors, I found it difficult to get past the first 15% of the book. But I wanted to give the book its due and the author the benefit of the doubt, so I read on.

And at 20% of my way into the book, "dripping honey hole" and "meat" and "f\*ck hole" happened. I couldn't go on.

---

### **Jack says**

what the fuck

---

### **Heidi Belleau says**

Don't appreciate being spammed multiple times.

Especially don't appreciate the fact that even though I've blocked the spammer, I'm still getting notifications and spam.

Especially especially don't appreciate the fact that Goodreads enables spammers by not having some manner of upper limit to invitations that can be sent out. Seriously, 20k+ invites to a book release event? What could that be but spam?

Not impressed, will not be reading the author. (Not that I would have in the first place, after reading other

reviews. Fuckhole to refer to a vagina? Really? Yuck!

---

### **JoJo - JJJ (Jo Anna) Janesko says**

**Can't wait for this book. I love to read about Rockers. Oh and look at that hot cover..**

---

### **Trader (RedHotBlueReads) says**

I wanted to like this. I really did. But I could not overlook these problems.

1. Poor editing. There are so many typos and grammatical errors in the first 26% of this book, I could not go on. for example, "stature of liberty"
2. Poor characterizations. The female lead is a biographer that is prone to forgetting her notebook. In the first 25% of the book, all we get of the rock star is him coming off stage. The characters did not ring true.
3. The "ew" quality of the sexual content. "he readied himself to aim his cock at her chest, to give her a bath in his love cream" "Annie, spit her mouthful of Kip's cum onto the floor" "meat" and that was the first time they do it. Also, they do not use condoms or practice safe sex or even mention it.
4. too much "telling"

Sorry, not for me. There are much better offerings to read in rock-star themed stories.

Did not finish.

---

### **Suz says**

I haven't read this book and I'm not going to read this book. Why? Because I do not appreciate strangers using the Goodreads recommendation system to spam me.

It is with great personal constraint that I do not place 1 star rating on this book, since I haven't read it. But this marketing schtick is the lowest of the low.

---

### **Ade says**

Luls. Seriously I just can't even. This book was fucking awful. Liz Thomas obviously has some sort of issue with sentence structure, punctuation, and basic vocabulary, because she basically gave them all the finger when writing this book. I can't stop laughing, but it's not because this book is good. It's bad. It's so so bad. I kept hoping that maybe it was supposed to be a satirical work that's meant to poke fun at all the erotica out there, but nope. This book is just *so* bad. Oh, and whoever edited this should be punched in the face. Repeatedly.

ETA: So apparently this is just the first in a series. What the fuck else are you going to do with this story? I mean, you already had the douchey ex-husband shot, killed off the terrorist that kidnapped Kip, killed off an assassin, managed to defeat and kill a terrorist cell located in a hotel, exposed corruption in the NYPD, and managed to find the evidence needed to tie a senator to a rape and murder. What the fuck else can you do? You know what? I don't even want to know.

---

## Vishous says

~~look at that cover....~~

~~then the word rock star...~~

~~no wonder I am reading it NOW!!!!~~

DNF :(

I gave up at 34% because I can not get into this story, and I will not rate it because of that. I usually don't give up on books because I hate not to finish what I started.

I love stories with rock-stars, but rock-star ex-marine.... just no....

I didn't feel any chemistry between main characters, some scenes were completely ridiculous and the writing was just bad.

Maybe one day I will finish it but for now I am putting it aside...

This is only my opinion so maybe you would like it :)

## Spoiler Whore-Momoea says

I'm willing to give any author a chance. I respect their imagination and the guts to put out a book. I applaud them. Buuuuuuuut this book was **AMAZINGLY RIDONKULOUS**

The cover is hot, beautiful even. The story line...not even that. I went into this thinking it was a rock-n-roll bad boy book. What I came out with was a mixture of bad boy, rock-n-roll, veteran, billionaire. All that was way too much for me. He was more in combat mode than anything else. Story line was way over the top. None of it was believable. None. The descriptions to Kip(bad boy, blah blah blah)and Annie's sex was again ridonkulous. It was bad bad porn. Here are some of their moments:

*She rocked back into him as he fucked her, fucking him as much as he was fucking her, filling her dripping honey hole with his meat, making her grunt with each stab. LOL*

*When she started to slow and relax, he let himself feel the throbbing hum in his cock and he readied himself to aim his cock at her chest, to give her a bath in his love cream. **Who says love cream?***

*Kip climbed over her and let Annie guide him inside her. He slid in his full length slowly, and Annie relaized then that as good as the steak was at dinner, Kip's meat was the best she'd ever had. **At this point, I'm crying laughing***

*He brought her to orgasm again and again before he filled her well attended pussy with his creamy load.*

*Her hand snaked down between their bodies, grabbed hold of his turgid member and positioned him for her wonderful tunnel **Snickers...tunnel***

*"Send me over the edge into paradise!" He shouted. **I'm thinking who in the FUCK says that shit.***

*He pulled out of her throat and started stroking the rest onto her face. Gob after gob of the sticky, salty substance stained her face.*

*At the sight of Annie cumming, he lost control himself and pulled his tool from her in time to coat her ass and back with torrents of creamy elixir. **Torrents???? Creamy elixir??? Bleh!!***

And the ending, oh dear Lord, just sorry to say this but it was horrible. I'm not saying not to read this cause that's just not me. To each his own but don't say I didn't warn you.

\*I'll give book two a chance. Maybe it will be better. Maybe. Hopefully.\*

## **Chris Kuhn says**

I think as I'm discovering more authors and styles within the romance/erotica genres I'm getting a sense of what works for me in terms of plot and characters, and what holds my interest. And I hate giving 1-star to anything but I just gave a 2-star rating to another book that I did like more. If there was a half-star, maybe I'd rate this 1 1/2 but the truth is the main characters and overall storyline just didn't appeal to me. The sex scenes didn't feel real. Some of the phrasing used came across as over the top. I liked some of the conversations that took place between characters (not during those scenes), but I think one thing I really struggled with were the typos. I'm a freelance writer and editor by trade. Like all writers and editors, I make mistakes and overlook things, because it happens. We're not perfect and I've learned over the years that 100% clean copy is hard to deliver. However, here, I found myself really distracted by what seemed like one typo after another. This is my first time writing a review here and I hate that it sounds so harsh because I know firsthand the work that goes into writing a book and how personal it is. But I'd definitely suggest to the author to find a new copy editor because that is an element that can truly get in the way for a reader.
