She Not Ready For A Savage Like Me Amber Shanel

Dior is a twenty-two-year-old bank teller that doesn't want to have anything to do with men. Growing up she watched as her mother ran through many men and decided that she was saving herself. With an empty space in her heart to fill Dior hides behind a wall that she has built up herself, not letting any man in. That was until she met Sincere Williams.

Sincere Williams seemed like the perfect package on the outside. Having good and steady income and being breath taking handsome but there was one problem, he was married.

Sharee, is an upcoming model, that is sick of nearly killing herself trying to maintain an image for money. Day in and day out she spends the day watching what she eats, making sure to not gain too much wait afraid that she won't be accepted anymore. Through her troubles she meets Hunter.

Lastly Sophia, with Sincere as an overbearing, older brother and parents that come and go, she doesn't have time for foolishness in her life. Sophia has dreams of taking her clothing designs to the next level. She just needs to come clean to her older brother, letting him know that she has been seeing one of his closest friends behind his back...

Three different women, three different stories, could they be ready to fall in love with these Savages like they think they are?

This was alright but not enough to make you want to read and the ending definitely is not enough to make you want to read the next one. Dior was too old to be living with her mother and the relationship with Sincere seemed forced, heck, his situation with Noree made little sense. I'm still not sure if the father is a retired lawyer or not but it really doesn't matter because they're not in the story. It needs work.

Yes yes yes

I just love Dior. She is a smart girl and don't take no mess. Sincere is funny but a thug at heart I like him. His sister is doing her thing. I hope that Shree let Hunter in to help her. Now on to book 2

Good Read

This is my first from this author and I have to say I loved reading it. I'm excited to see how things are going to play out and connect. I don't think leaving is going to be easy but I don't think staying away is an option

Tamia Reid Sturgis says

Wow

What a way to end book one I truly did not see that coming. I really hope in book 2 Sharee gets a grip on her health.

Loved the book

I loved this book. It didn't disappoint at all. Can't stand Noree or her father. I hope Sin and Dior can work things out before they are a lovely couple. Sharee needs to come to her senses and realize she's killing herself before it's too late.

Just Plain Good!!

So far this story has started out with a bang and ends on a cliffhanger with a bang. The writer weaves a story that's very entertaining, that you are going to be so into that when it ends you are like what!! The dynamics between the couple's in this story are so different but alike and the writer does a good job of drawing you to them. Overall a good story with a few typos but not so many you can't enjoy.

I liked Sincere he was a cool dude. That situation with Noree was crazy she needed her ass beat for coming to Dior about Sincere and she the one who cheated. Dior momma was crazy and I hope she get it together how you gone out a man before your child. I hope Sharee gets help for her issues cause her and Hunter seem going together. On to part two but I enjoyed this book

AWESOME READ

I just love you it's character this book was very entertaining the drama was nonstop noree is definitely going to get it.... Funny how she brought all this drama on herself and can't take it well since he is definitely a good man and I'm so glad that he found someone to love him without what's in store and buy characters on point I'm still feeling for my girl I can't believe that she's doing that to herself just a marine small but you know these are life lessons people really go to the da realistic touch to this book is me and all out freaking standing I can't wait for part two

Shamane says

This book was sooooooooo BOMB! I loved Cane, Sincere, and Hunter. I loved how everyone was connected together effortlessly and didn't seem forced. I loved the real issues that were covered in this book especially with Sharee. Amber has a style of writing that makes you laugh, think, and amazes you at the same time. The ending had me shocked, didn't see that coming at all. I'm running off to part 2. This was an awesome read, but then again, it always is. ♥?
