I really wanted to like this one - interesting plot but the writing style was driving me nutty. The author kept deviating from the running story with to so many flashbacks and 'character reminiscences' that it was hard to stay on target with the story. I was skipping heaps of paragraphs so i could find the original storyline. I loved her other book but this one didnt do it for me.

Amusing read. This is the second book I've read by Marisa Mackle & I would read more by her. These are more 'coming of age' books than romances, I think. The main character 'grows up', comes to terms with herself. The book almost reads like inner monologue or a conversation over coffee. I like the intimacy of that point of view.

A good book for the beach. And also only 99 cents!

A fun look at the world from a air hostess' view.

Katie is that air hostess who has been in the same relationship because she feels she should be for a few years. She gets approached by a famous actor after one flight, and finds herself charmed despite herself. She ignores all others and decides to end her relationship with Tim.

Well the actor it appears has done this approaching more than once, in fact he seems to have several air hostesses on the go at the same time ...

Fun and easy to read

This book contains a good story line, but not a bit of comedy in sight disappointing as billed as an Irish Romantic Comedy. The grammar is appalling and the whole thing is written as a total cliché. However it contains some quite good moments scatted between all of this and missing sentences.

Written as a conversation which really felt forced, the main character is completely self-absorbed and contradicting therefor I felt no sympathy towards her at all. The raw material though was really enjoyable. I felt the writing of this must have been rushed as, if more time had been spent on the lay out of the story line and character development this would have read a lot better. The ending came out of nowhere and in my mind should have been introduced a lot earlier within the narrative.

In short a good story done badly, I was hooked by the subject but was left rolling my eyes quite a lot of the time. I was left with the feeling that I would have loved it had it been done well.

Jade Connolly says

This book started out with a lot of potential. But I feel the lead female never really developed her character. And seemed very shallow. (Which I realised was the purpose. But never quite seemed believable) progression was very slow until the last chapter in which everything happened all in one go and sort of felt like the author was bored and just wanted to finish the book. A very different writing style than the rest of it. And a bit jarring to read. But overall a light easy read. With a laid back writing style. Very informal. Something to read and not overthink.

Ada Angharad says

Awful. Pretty funny and promising beginning, but by the 5th chapter it started to be dreadfully boring. Nothing happens. The story is also very predictable while the writer tries too much to make her main character lovable and chirpy. Kate is basically a teen-minded flight attendant, half of the time drunk, living with her parents wishing for the perfect man. And getting drunk in between. With any occasion. The end. Good for a read on the beach or while traveling.

Love reading Marisa Mackle! Mile High Guy is definitely worth a read!

Toni (U.A.C.) says

This is suppose to be a comedy...I never found it. I also found it impossible to really like the MC. She came across as selfish and a bit shallow.

Rachel says

This was not one of the most spectacular books I've ever read, but it was really funny.

I'm writing this review about 18 months after I read the book, and I read a lot. The fact that I remember it, and I remember it with a chuckle, speaks volumes for the book.

It was a light, funny, relaxing read. It was a bit silly and fun as well. When you're in the mood for a silly little romance, this is a great choice.

Catherine says

I struggled with the writing style and the use of language in this book. The book kept jumping between the present and previous memories in a very random manner. I had expected to enjoy it more having worked in aviation my entire career.

Essentially the storyline was good but I wish it had been told in an easier to follow format. I probably wouldn't read another book by this author based on this book.

Amanda Robinson says

Good holiday read; lighthearted and entertaining!

Tonileg says

This was a funny first person narrated story and there is a surprise to whom Katie the Irish Flight attendant will end up with. I like that she is human and vacillated between settling for just Mr. Right-Now or waiting for Mr. Right. I thought that this was just going to be another 'reformed rake' plot, but there is much more to this fully formed heroine's story. I did laugh out loud a few times, especially when she is with her family. I have those people in my family so I can empathize.
2 and a half stars.

Lucretia says

I laughed so much reading this funny trip into the world of Katie. I must say it was a new world for me, since I have a terrible fear of flying that has kept me grounded my entire life. Even after enjoying this so much, I'm still not tempted to fly. Of course the story was more about the tragically hilarious romances of Katie. I don't want to give away which man was what to Katie but I was surprised by how it all played out in the end. The narrative was unique in that it was a first person, sort of free flow allowing Katie to take us down many paths. I enjoyed that aspect as that tends to be how I think, with a lot of asides. This is my second book from this author and I look forward to reading more.

Dollyliz says

A very funny light read! Never read a book that is about the job of a flight attendance, and not surprisingly, the author Marisa Mackle was a one of them herself before she started writing.
I can't wait to read her another book Confessions of an Air Hostess.

Erinn says

Suggesting this is a romantic comedy is a bit far reaching because there is nothing about this that is inherently funny. It reads like an unedited diary.... And not in an enticing way, but more because it's rambling and not much of a story line.
