Damn the rules, damn the gods...even if he has to share her, she belongs to him.

*Wasteland, Book 4*

High Priestess Xian has followed the Path of the Peaceful Sun since she was chosen at birth. Yet the joy she receives from helping others is overshadowed by her growing belief that the world they live in is...wrong.

At a crossroads, unsure of her ability to do her job—unsure of anything—she journeys to the ruins of the old city, hoping to uncover secrets that will give her clarity. Instead she finds the path to her goal clouded by an unexpected desire for her handsome guard, Hel, and for the battered stranger they find along the way.

Hel can't prevent Xian from reaching out to the mysterious Siraj, but there is danger in allowing him to stay. Siraj belongs to no caste, follows no rules but his own. And Xian's fascination with him makes Hel's blood boil. No one can know that Hel has always loved her, or the secret he's kept hidden for years. But Siraj's advances and Xian's curiosity force Hel to cross lines he never before dared...

Really? The Wasteland series is over? Well. I could just cry. For the last four weeks I have been enjoying this series of novellas published by Samhain Publishing. Each book by a different author from the Smutketeers. Smut being the operative word here. Smut in a time far, far away... into the future, post 2012. A land where Mad Max wouldn't be out of place, and where women are cherished because of their rarity.

Between all four authors, a world was created in these books that was not only believable, but also damned sexy hot.

I hope there are more to come.

Now THIS was an awesome way to wrap up a series.

This is a classy novella. Yes, it's hot as hell, but the love scenes are done in such a manner that the book doesn't feel bawdy, sex-for-sex-sake or raunchy. It's absolutely beautiful. You get into the emotional and psychological 'bits' of the main characters without any unnecessary dialog or 'dry' parts. The world building is nicely done without being overdone. I do, however, think it's best read after reading at least one or two of the others. There were a couple of spots where I would have said, "Huh?" if I hadn't already been at least a little familiar with the world.

I would have liked to have learned more about Siraj. He felt as if his story is deep and should have been told in greater detail, perhaps in a separate book or something. But I still loved the character. Given his position in the story (literally and figuratively) he didn't feel like a third wheel, just hanging on to our main couple. The author did an awesome job of integrating a man into the relationship who shouldn't have fit yet in the end, he felt like he was supposed to be there.

In addition, this book told us how the world and its customs/beliefs came into being. And it was quite a surprise. All of the characters mentioned in the previous three books were brought around (not physically, but a mention was all it took to explain where they fit into our characters' lives). At the end of the book there were no loose ends, everything was tidy and very nicely wrapped up.

The final book in the Wasteland series REALLY tied in well w/ the other three books. Xian is a woman who, even though she's been taught it's wrong, questions the status quo & fights to be happy w/ her life. That's what I love about this series, that no matter what shape the story takes, these women empower themselves to be happy & to change what makes them UNhappy. Once she realizes that she CAN have a life outside of the life that's expected of her, you see Xian really come alive & live her life to the fullest. You also see some of the characters from the other books & find out what happened after their Happily Ever After. I HIGHLY recommend this series!!

A great ending to the series. Brought a lot of answers to questions. I think I'm in love with Hel. ;-) And very interesting how the Goddess and the Angry Sun god came into being. Smart women, they were. Smart, scared women. I can't even imagine the horror and fear at that time and trying to bring your daughter through it so she survives. Granted, this was fiction, but I can see how such a world could exist under the circumstances. Humanity could easily lose its humanity and revert to animals.

The last novella at Wasteland series

After apocalypse at 2012, Earth was broken, and the survivor build a new life. But they become unfertilized and because of that women is so rare and they divided to 4 class, The Wanderer, The Whore, The Breeder and The Priestess.

This novella tell story about Xian, the high Priestess. We first meet her at Nitara's story, The Breeder. Xian know about Nitara's escape, and like Nitara, Xian start doubt the way of her temple to sacrifice men, just to continue the existence of human race. Xian then plan a journey. To search the answer, but she's not alone. As the High Priestess she must accompanied with her Sun Guard, Hel. Xian herself love Hel, and vice versa. But they both must restricted their feeling because their role. When another man, Siraj, come, their relationship took to a whole new level, and finally Xian found her answer. What happen to Earth after apocalypse at 2012. Why women so rare and divided into 4 classes. All because to protect them.

For the last, The Priestess end Wasteland series, with a good ending, and explanation about what happen at Wasteland a long time ago. But, again this story to short, so it make me a little unsatisfied, because I want to know more about Xian, Hel and Siraj relationship.

Note : The novella contain many sexual scene such as voyeurism, a little m/m scene, and menage
