## Wicked Craving G.A. McKeve

Savannah Reid may have a few extra curves on her full-figured body, but that hasn't stopped her from becoming one of the most successful private investigators in California. Her latest case puts her hot on the trail of a shady weight lose therapist who has made a killing treating - and cheating - his overweight patients.

# From Reader Review Wicked Craving for online ebook

## Dolina says

Savannah Reid, private investigator, and her policeman beau track down the murderers of shady weight loss therapist and his wife. The zaftig Reid has much to say with humor on the subject of food. This is a quick, cozy read.

---

## Sheri says

This is a new series for me and I liked the main character Savannah Reid and her Gran visiting and she and Dirk investigating a case of a woman who fell off a cliff and died and her husband who was a weight loss doctor. All that is debunked and they come to a good ending. Not a lot of violence but some and twists and turns with the mystery of who-dun-it. I will explore this series of books and find some earlier books to read next.

---

## Amanda says

Savannah Reid Rocks!

She is everything I want to be when I am all grown up.

I am so glad that Granny Reid has the time and energy to visit Savannah so often, Granny is such a great character.

I know that it may be unlikely but I hope that Gus decides to give Savannah a reward for solving his ex-wife's murder and ensuring that justice prevailed.

I hope that Lydia manages to break the cycle of violence in her life, and that she manages to stay in touch with Savannah (even if it is only a card at Christmas).

Ryan and John are such a fantastic couple, I hope I find that kind of relationship eventually.

Tammy is a modern Nancy Drew, she should never change!

I can't wait to read all about Savannah's next adventure I know that whatever the case she will solve it (with her friends and family by her side).

---

## Laura says

I committed a dreaded reading sin when I started this book. I have never read any of the other books in the series - \*gasp\*!

Luckily, it wasn't hard to figure out what was going on. Savannah is a detective who solves crimes. (Duh!) It was an easy book to read with witty dialogue and memorable characters. Savannah was fun and feisty -- Dirk was quite appealing as well. I was surprised by 'whodunit' at the end -- always a sign of a good mystery.

Also, Savannah is a plump heroine, which was always something I was always looking for in my chubbier days. It was always better to read about sassy ladies who looked like me than yet another waif. I will warn you -- do not read this book or any others in the series if you are dieting. Some of the food descriptions are drool-worthy.

I enjoyed this book so much, I went back and started the series from the beginning. I'm on book 4 and have enjoyed every story.

---

### **Michelle Rafalski says**

Good popcorn mystery. This was my first Savannah Reid mystery and I would definitely read more.

---

### **Pamela Sepulvado says**

I absolutely loved this book. I started with book #15 something i never do but am thrilled I did. Savannah and Dirk are a perfect crime solving team. This witty duo has to solve the murder case of Maria, Dr. Wellmen's wife after finding her dead body on the beach at the bottom of a cliff. And find her missing jewels This mystery will draw you in from page 1.

---

### **Kris Hynes says**

Somewhat predictable but fun summer book to read. I feel like this whole series is like a grown up Nancy Drew.

---

### **Julie Trapp says**

Who killed the weight-loss "expert" and his wife? The patient who is disgruntled about his results? The patient who is carrying his child? The husband of another patient? His wife's ex-husband? This is the first book I have read in the series (by mistake) so am not overly thrilled with the relationship between Dirk and Savannah. And what PD allows private citizens access to crime scenes (even with a member of the force) and other information related to a crime? Not really believable. Cut out the annoying crap between the 2 and the story is okay. Will read others with a grain of salt.

---

### **Annie says**

The slow burn aspect of this series is driving me crazy, but I love it nonetheless.

---

### **Betty says**

I have always enjoyed the Savannah Reid adventures. The characters are fleshed out and the southern charm is evident. The comments about food and diet are often funny but true. In the 15th book of this series, Savannah is helping Detective Sergeant Dirk Coulter solved the murder of the wife of a well-known wellness doctor. Granny is visiting from Georgia. Dirk is acting unusual and Savannah is wondering if he has a girlfriend. The Doctor has several secrets that will change the direction of the case. The ending is terrific. My Thanks to the Meridian Library for my copy of the book.

---

### **Jody Hamilton says**

I do enjoy the Savannah Reid books in the series, but I wish there were less plots dealing with weight-loss doctors, clinics, etc.

---

### **Mary Ashford says**

I love all the Savannah Reid books so it's difficult to pick a just one book but Wicked Craving is one of my favs.

---

### **ChrisGA says**

Good solid mystery, interesting characters, enjoyed the interactions within the created family

---

### **Katharine Coggeshall says**

This was the first book I read in her series and it totally hooked me! Excellent cover to draw in new readers, easy read that's engaging and fun. I read this series out of order and it didn't matter, you can read each book as an individual and still greatly enjoy it.

---

### **Cathy says**

good book. Savanna and Dirk have quite the time finding the murderer. ..kept me guessing all the way through the book!
