## **Will You Still Love Me If I Wet the Bed? Liz Prince**

*Will You Still Love Me If I Wet The Bed?* started out as an exercise in keeping a personal comic journal of the finer points of a relationship, but quickly evolved to become Liz Prince's first solo full length comic.

Described as a mix between Jeffrey Brown and James Kochalka, Liz's comic is made up of short vignettes that capture all the cute, gross, and endearing aspects of relationships.

## Sam Quixote says

Liz Prince kisses her boyfriend's hand, then turns it over and kisses the other side – she calls it “corn on the cob kisses”! Liz’s cat Science sits on the bed while she and her boyfriend smooch – what a lil perve! Liz’s boyfriend puts Cheerios in her underpants – because her butt might be hungry! Being in love is nice, yaaaaay!

If you’re scrunching up your face and fighting back the vomit after reading that, this comic won’t be for you. If you’re giggling like an anime girl (and probably wearing a bow) and went DAAAAAAAAAAAAWWWWWWWWWW!!! at least once, you’re gonna love this comic. Will You Still Love Me If I Wet The Bed? (not a bad title, I’ll give it that) is a super-cutesy series of one-page vignettes about Liz and her boyfriend’s relationship.

They’re a really, really overly-cutesy hipster couple! Violence did cross my mind at least once while reading about Liz’s mundane, near-idiotic relationship with a fellow adult child. I can vaguely see the publisher’s comparisons to James Kochalka, who produces similarly “cute” comics, but I don’t remember Kochalka’s being this syrupy, even his children’s books! Some moments are slightly amusing but they’re so brief – it really is a quick read at 70-ish pages, even for a comic.

The drawing style looks exactly like what it is: an art student learning to make comics. They’re extremely sketchy, much like early Jeffrey Brown (who provides a brief intro), but even Brown didn’t leave some of the outlines still visible(maybe that was the point – to emphasise her inexperience with the form?). It’s a first book so it’s forgivable and I have seen her recent work which is more polished, but it’s still hard to look at. We’re talking barely a shade above thumbnails!

I don’t want to come down on Prince for being happy but when it’s nothing but exultant happiness throughout it comes off as vapid and a little irritating. I suppose if you like relationship comics that are snapshots of a mega-super-hyper-cute relationship rather than actual stories, and you share Liz Prince’s mindset/are so deliriously in love that you’re unable to stop mashing frosting and glitter into your eyes, you’ll enjoy this.

## Lesley says

sorry, maybe the 2 stars is a bit unfair because this book IS cute, but perhaps too cute. i don't know, i guess i've been reading jeffrey brown for so long now that i expect agony and heartwrenching moments when it comes to love in panels...

---

## Ana says

These are some of the cutest couple interactions ever caught on paper :)

### **Tami Lynn Andrew says**

I ordered this on Amazon after hearing it described as a comic that captures "the cute, gross, and true aspects of relationships," and was sourly disappointed. I guess considering my current series' I was expecting it to be a lot more about the true intimacies of relationships, similar to Jeffrey Brown (who even does a forward) in it's ability to focus on the mundane, gross, weird moments that show our true romantic relationships.

It doesn't do that at all.. I felt like I was reading a comic from a 15 year old girl in her first relationship. She doesn't include any realness whatsoever in these strips, simply the cute small moments of her happiness. The word "yay!" was in the comic AT LEAST 25 times.

It was just too cute. The title is definitely misleading, as well as the description. It's merely the random cute moments between her and her significant other.

But she does have a cat named Science, that rules.

---

### **Hayley says**

Totally adorable 15-minute read. What can I say, comics about nerdy relationships between short-haired bespectacled girls and drummer boys are pretty much like reading weird doppelgänger memoirs.

---

### **Karen says**

This book is PERFECT. It has it all! It is short and sweet, silly and dorky, cute and smart. I absolutely loved it. I gobbled it up in one sitting. OMG I love Liz Prince. New favorite person. Yay!

---

### **Mehsi says**

The next and last in the Liz Prince books (though not the last in reviews).

This one is all about Liz and her boyfriend Kevin. All of it. It was really fun to read it, though at times I was a bit disturbed with things in there. Like the whole pee thing? Hugging while someone is peeing or peeing over someone else their pee.... Eww, and no thank you. I can imagine there might be couples who like doing this, but I don't need to know. Also the one comic about cheetos (or whatever they were) and that Kevin put them in Liz her underwear..... No.

However, there were several things that I recognize from my relationships and they had me nodding along or cheering.

It was a really fun book and I had several times that I was laughing out loud at the comics or showing them to my boyfriend. :)

Also +points to the title, that one really drew me in.

I would say that this book is 16/18+, this due to various things like sex, boners and of course the whole peeing thing that they seem to love so much.

The art was something that was really lacking. You can clearly see the difference between the now Liz and the then Liz. Or maybe she just didn't have a good editor back then, but sorry, the art was at times just a bit ugly. There were helplines (again, no clue what they are actually called, I will just call them helplines) and sometimes I had to really look close to, for instance, see that what she was flashing were boobs not just roles of cookies.

But all in all this was a fun book, sad though it was so small and short. I knew it was short, but it was a really tiny book.

### **Krystal says**

Quick one-offs that are very me and hubs. We be cute. <3

---

### **Imogen says**

The good news is that Liz Prince keeps improving the more comics she does, but the bad news is that this is her first book. I know I talked shit about Jeffrey Brown in my review of her other book, so... I don't know, I just think his comics are kind of boring. And these remind me of that too much. They're not as funny or vicious or hilarious or anything.

Still, they are better than, y'know, webcomics.

Find all of my reviews at: <http://52bookminimum.blogspot.com/>

Liz Prince really hit it out of the park for me earlier this year when I read her memoir *Tomboy*. Unfortunately, instead of another home run *Will You Still Love Me If I Wet the Bed?* was only like a double. Most of this little book is for those of you who are still in the "Schmoopie" phase. Are any of you even old enough to get that reference????

I've never been much of a "Schmoopie" type of gal. It makes me want to . . .

Yeah.

Add in the fact that I've been married for 38 dog years and I really couldn't relate to some of the over-the-top adorableness contained inside this teensie little tribute. That being said, there were some panels that I loved.

Like being married to someone who knows how to conveniently use women's lib against you . . .

or sharing your bed with a terrifying sleepwalker . . .

who is honest to a fault . . .

and thinks B.J. jokes **never** get old . . .

Someone with a real asshole of a kitten that he loves, but that HATES you . . .

(yeah, Django, I'm talking about you, you little a\$\$hole)

and still attempts to argue about who has the more disgusting feet . . .

Let the record show that having opposable toes is a BONUS and something everyone else in the world should be jealous of. Having weird frinkly half pinky toes is an abomination and if you were a wild animal your mother might have killed you at birth.

I'm definitely not the lovey dovey type so I would never think of penning something like this. Buuuuuut in my defense I do my best to express my feelings the way I know how : )

---

**Emily (Obsessed Reader) says**

SO ADORABLE. Liz and Kevin's relationship is the absolute cutest, at least how it is portrayed in her comics ^.^

---

## **Raina says**

Ok, first - beware. This book is tiny. Like, not a great deal bigger than my phone, tiny.

I actually read it and am reviewing it sooner because I'm terrified I'm going to lose the library copy I have.

I read Prince's *Tomboy: A Graphic Memoir* first, and then put this on hold. As far as the form goes, it is very similar in concept to *Soppy*, something I read less than a month ago. Definitely don't go into this expecting something as polished as either of those books. It could easily be a daily comic, with moments in life, focusing on her relationships with her paramour.

In many panels, you can see the thumbnailing outlines\* faintly under her final images. It's sketchy (but not necessarily in a bad way). The style (b&w, obv) fits, to an extent, with the content, which is occasionally crass and crude, and honest (I assume) about the intimate dynamic of this very specific couple.

Cute, super fast read (it *might* have taken me a half hour).

I see that she has several other works focusing on her early dating life, so I imagine this could be an especially satisfying read if you've watched her try and fail to find her partner through a book or two. Read if you like people enthusing about their happy relationships.

\*Anyone know what those are called? Circles with lines across to show perspective on a head, for example?

---

## **Matt says**

Priceless. PRICELESS I TELL YOU! My only criticism is that people's crotches are, like, totally non-anatomically wide compared to the size of their legs. Actually, I take it back, I like it that way.

Boston.

---

## **Jeff says**

There is no other word for this book. CUTE. This is a cute book. Little comics with little drawings in a little book about a cute little couple who do cute little things... well, sometimes they do odd things. Real odd things. Things that make me think, "If I were in a relationship, and my significant other said that to me (there's a part where the guy hugs the girl while she's peeing on the toilet saying something like, "I want to squeeze the pee out of you!"... I might rethink the whole dynamic of the relationship. Then again, I am not cute. I am not little. I have never been in a cute little relationship. So maybe I don't understand why I would ever feel the need to hug someone while they pee. But at least I can find the charming in this little book. This cute little book.

## **David Schaafsma says**

I like everything Liz Prince does, or that I have read so far. I loved *Tomboy*, one of the best graphic novels

of last year, a memoir, and this is like everything else from her so far, a memoir, though Tomboy is directed more to a YA audience, and this is to... young lovers, wherever you are.... lalalalalala.... Drawn by art student Liz in sketchy Jeffery Brown (who drew the intro) and James Kochalka (who drew the "bio"-pic of Prince) fashion, this book from a decade ago still has the lines from the first sketching of her two characters underneath her faces. It's quick sketch art, and is therefore more real and vulnerable and cuter (a word you will read several times in this volume!!) because of that sketchiness. It has a great title, and will give you a few smiles. Basically oohing happens but hugging and cuddling and cat scratches. This is about young, college-age or twenty-something love, not quite fully adult love, being silly with each other, crazy for each other, and it might just make you smile quite a bit if it isn't too nauseating for you. I liked it a lot. I mean, it's not about breaking up, it's about just hanging out, cuddling, kissing, sleeping with your boyfriend, etc. So you don't like this, you unhappy, cynical person? Deal with it! Go read some Nietzsche! :)

Did I say yet how much I love the size of this book and books like it? I kind of have the feeling that if all books were 3 x 7, the world would be a happier place.
