**A Course in Miracles: Complete and Annotated Edition** Circle of Atonement , Helen Schucman (Contributor) , Robert Perry (Contributor)

A Course in Miracles has become a contemporary spiritual classic. Since it was originally published in 1976, readers have recognized in its words truths that they had never heard before, yet somewhere inside seemed to have always known. However, in the process of editing for publication, roughly forty-five thousand words were edited out, mostly from the first seven chapters of the Text, and the wording of the first four chapters was edited to the point where only about a fifth of their sentences retained their original wording. The Complete and Annotated Edition aims to restore the material that was lost. It was created by going back to Helen's shorthand Notes and editing afresh, retaining the original words to the maximum degree possible. By going back to the words that Helen Schucman heard in her mind and wrote down in her notebooks, it attempts to bring the reader into a more direct encounter with the power of those words. It includes, either in its main body or in appendices, those approximately forty-five thousand words that had been removed in the original published edition. The teaching in this edition does not contradict the teaching found in other editions of A Course in Miracles. However, we believe that this edition will allow the Course's true meaning and character to shine through a little more clearly. And we hope that this will enable students to better see the Course for what it is, relate to it as it is, and apply its profound truths to their lives.

## **From Reader Review A Course in Miracles: Complete and Annotated Edition for online ebook**

### **Nancy says**

A more in depth version of "A Course in Miracles" in that it contains actual pre-edited version of Helen Schucman's notes as well as personal asides Jesus gave to Helen and Bill Thetford. In addition to that, Robert Perry gives more background information in the form of footnotes that are helpful.

---

### **Martine says**

Disclaimer: I've read my older text; however, I'm still reading this version, which includes original material, footnotes, and cameos. When I would read my first copy of A Course in Miracles, I'd make margin notes, and cross references, while yearning for a concordance edition. It seems I no longer need to yearn for this since Circle of Atonement has completed this task. It reads like a labor of love. In my geeky splendor I read my two texts side by side and note the changes.

Those who want a deeper understanding or additional materials will appreciate this voluminous version.
