Just a little Love Bite: The intelligence of a few perceives what has been carefully hidden.

A couple of months before, Jaymes Martinez--master of the Amarillo coven--received from Fate the best Christmas present possible. He discovered his beloved in the young human Paul Cosborn. Unfortunately, Paul was only seventeen at the time, so Jaymes returned home and did his best to focus on readying his coven for his beloved. Now, two months later, Jaymes is ready to make his move. He convinces fellow vampire, Daystrum, who'd been keeping an eye on Paul for him, to bring him out to the ranch to visit. After one steamy make-out session with Paul, and one oh-so-satisfying bite, his beloved disappears. Can Jaymes track down his missing beloved in time for them both to enjoy a romantic Valentine's Day?

It almost broke Paul Cosborn to be accused of abusing his younger brother. His adoptive father sided with Caleb and that was the last straw. If not for the help of his Big Brother mentor Korbin the young man wouldn't have been able to clear his good name. Korbin and his lover, the vampire Daystrum, were happy to take Paul in especially since they knew an important secret that would change Paul's life forever once he turned eighteen.

Finding his beloved at a recent Christmas party after so many years of searching was a wondrous thing for Master vampire Jaymes Martinez. He's waited somewhat impatiently for Paul to become of age before making his claim. Needless to say the past few months have been difficult for the master.

Leaving his worries behind Paul is thrilled to be invited to spend time at the Rolling Meadows Ranch and Resort where he can secretly lust after Jaymes, the man he met a few months ago at a Christmas party. Their age difference isn't a problem for Paul, in truth he prefers older men though he's sure the ranch owner won't be interested in such a young guy. Paul has no idea of the surprises awaiting him at Rolling Meadows...

A Rose for Paul's Protector is a lovely romantic tale. Concerns for their age differences are nicely dealt with and soon wiped away in this delightful love story. A sincere young human is about to be cherished forever by an honorable master vampire in A Rose for Paul's Protector. Dealing with Paul's family troubles adds spice to the story. The second installment in the A Loving Nip series is an enjoyable treat.

This was much better than the first in the series.

Despite all the huge age differences in most of these books, in this case it comes across as definitely creepy. Paul just seems so very green, so needy for affection and family. It doesn't help that he looks even younger than he is, but it's mostly his behaviour and insecurity, his confusion that make him seem like a child.

Jaymes, on the other hand, casually feels him up, not giving clear signals, fantasizes about dominating him in fairly restrictive ways off the bat. That just... feels kind of icky. Not to mention his way of oh-so-casually rubbing the boy's nipple? Dude. That's like the creepy old man copping a feel and then pretending it never happened. And Paul? He made me laugh out loud as he wondered whether it was a sign of attraction or if Jaymes did that to make him feel more comfortable. Of all the things! In what universe would that make any sense?

Eh, at least Paul's somewhat willing. It simply seems sad that he won't ever get to find out for himself what he likes. With a bossy man like Jaymes I just can't see that happening.

Also, I have kind of given up on this but I still meekly wish the author would not substitute lust for love. *Romance* would be so nice, huh?

Further food for thought is provided by the fact that on Jaymes' orders (view spoiler). A bold move.

### **A Vampire and a Gentleman**

Paul really made an impression on me in the First book in this series. His honorable beloved Master Vampire Jaymes Martinez III, waited impatiently for the seventeen year old to turn eighteen. The coven leader had two agonizing months to wait. What made things even more difficult was that since he had tasted the sweet blood of and confirmed that Paul was indeed his Beloved, he could no longer feed from Human donors who provided the best substance. Drinking donated blood from a glass was only a bit better. The bitter taste often matched his current mood. The coven doctor was worried about the Master Vampire. Not feeding from one's Beloved could lead to a myriad of health problems.

The big dark haired bear of a Vampire deliberately grew a beard after his Beloved expressed a preference for large hairy men. They had really gotten to know a lot about each other using email over the past couple months. Including a special surprise gift for Paul based on some of those email revelations. A big reason Jaymes relied totally on emails was because he knew he would not be able to see his Beloved without risking claiming him!

Jaymes didn't leave Paul unprotected. He left him in the care of his "Big Brother" Korbin at his old farmhouse residence, his roommate Brock, and Korbin's Vampire Beloved Daystrum. It was due to Daystrum's machinations that false indecency charges against the orphaned Paul were dropped. Paul was shocked, grateful, and unaccountably strongly attracted to the big gorgeous older gentleman.

In this story I was reminded of forgotten Vampire lore. Jaymes had to pretend to be the third in his lineage in order to explain away the very slow aging process among paranormals. How not drinking from their soul mates causes big problems for Vampires.

Paul's small size, defensive personality, innocence, and desire to belong somewhere & to someone made him a special character to me. His lack of confidence about Jaymes feelings for him, his wanting to make a better life for himself by getting a starter job & planning to save for college. There were just so many endearing things about Paul. A big reason why Jaymes wondered how he would explain being the leader of a Vampire coven and what Paul's reaction to the news would be. Especially since it was disguised as a cattle and horse ranch that catered to vacationing tourists. An excuse he was using to get his Beloved to come to him under the pretense of a birthday vacation. Along with Korbin his "Big Brother" and Daystrum his Vampire lover.

Paul's reunion with his big hairy Beloved is just the beginning of this very exciting tale.

Ah, yet another god-awful, yet somehow strangely irresistible story from Charlie Richards. I don't know what it is about her writing. I suppose it's just the fact that I enjoy following the characters and watching them all get their Happily Ever Afters. There's something strangely compelling in these tales. They are, however, losing steam. I've read the Wolves of Stone Ridge series and the Kontra's Menagerie series, and pretty much all the sex scenes Richards writes are the same thing. Her formula never changes, and her story arcs are repetitive. She's not good at writing dialogue, and often her characters are put into awkward sexual situations (like constantly making out in front of their pervy friends). She has no idea how to use commas

correctly, and I can always count on finding at least one wrong word that makes me laugh. So why do I give her books three stars? I don't know, damn it. I suppose it's just because I get a kick out of 'em. Bad writing, silly word mix-ups and all.

This was a sweet, and charming romance between Paul, and his beloved vampire Jaymes. Of course, he doesn't know that vampires even exist, and I love the way he handled it when he did find out, because once he gets past that, then they can experience their issues together. The characters were appealing, and I especially liked Paul. He was inquisitive, which was so cute. There was one part that I didn't like because of a psychotic person and I was raging right along with Jaymes, so the author conveyed his emotions very well, and the ending for some of the characters was fantastic. Although, the conclusion of the whole story was a bit abrupt, I totally enjoyed this tender, and engaging book. :)

I can't begin to tell what I didn't like about this.. oh! Actually I can and here goes.

It's not that he's JUST turned 18. I've read those before and been mostly fine with it. It's that almost within the first day they go on a hike and Paul learns that Jaymes is a vampire. But he seems totally ok with it, like there's no adjustment to it really. Then, kidnapped. Rescued. About 6 weeks later is when Paul pushes for the full on monty.

There is no working up to telling Paul. There is no adjustment or feel it out period. There is no long kidnap/torture (not that I would WANT that). Then after finding help and getting 'cleaned' up and doctored there's this 6 week jump. No drawn out post traumatic anything. The person behind the kidnap was not handled appropriately (extreme prejudice) and Paul basically shrugged it off. And he KNEW the person so.. really? ok just totally blasé about the consequences.

Well to be a Vampire in today's world is not easy... this writer was creative in how she placed their world. Note to self: If turned into a Vamp .....start a Dude Ranch lol. I was dying to see how Charlie Richards was going to resolve the issue concerning finding a mate that is a minor, well done Charlie. Paul is adorable and makes you want to hug him and keep him safe but that is not what this strong minded young man wants. Oh

no he has his eye on a sexy bear of a cowboy Vamp....yum. But alas nothing is ever easy in the Paranormal world and before the happily ever after could take place, Charlie will take you on a merry roller coaster ride in this April September sexy Romance that will not leave you hanging.

Loved Paul and Master Jaymes together, On to the next...

### **Candice says**

Not my favorite :( For some reason Jaymes was too stand offish to me. Yeah, I know it's hard to be close to your mate and not do anything about it, but buck up kiddo. TALK to Paul and let him know. Not wait. I wanted Jaymes to take a bit more control over everything, considering he's the coven master. What duties are for Paul? What happens now? So many questions...

### **Jennifer says**

What stood out for me were the characters' names. Charlie Richards names are oftentimes odd, but this one has some excruciating examples beginning with Gypsum. Then there is Cassium and Daystrum...I would go back through my Charlie Richards collection and compile a list of similar abominations, but it is all too painful to endure. Apart from from that complaint, the story itself is dull and formulaic.
