## A Shameless Little Bet Meli Raine

How do I prove a negative?

I need to prove Jane is innocent, despite overwhelming evidence to the contrary.

Mirrors, smoke, and lies can conjure a truth that isn't real. Money, bribes, and power can twist reality. What we call proof is all an elaborate magic act.

So is love.

How do you prove you're in love? How can you know with unrelenting certainty that the person you can't live without really loves you?

It's all about what you believe. Who you believe. And I believe Jane. I love her. But it might be too late.

Or, worse - it might all be an illusion. If proof is just a magician's sleight of hand, then we're caught in a sick trick.

A deadly one.

One that doesn't end with applause.

But with a bang.

Read the entire Shameless series now!

A Shameless Little Con (#1)

A Shameless Little Lie (#2)

A Shameless Little Bet (#3)

## From Reader Review A Shameless Little Bet for online ebook

### Liv says

#### 3.5 Stars

The conclusion to Jane's story started where the previous book left off and I was on the edge of the seat clinging to hope and praying that everything would turn out okay. Now, I will not tell you how it developed but after that suspenseful ending of book #2 and the great start of this book, I felt a bit disappointed at how everything unfolded afterwards.

As far as I know, this was still supposed to be a romantic and suspenseful kind of story but although it was thrilling at some parts, it was rather lacking in the other compartment. If you're looking for a romantic love story you'll probably not be satisfied with this book or this series in general but you'll absolutely get your fill of action. In my opinion, it just fell a bit flat here and could all have been done with two books.

'My word isn't enough for Silas.  
My body isn't enough for Silas.  
My heart isn't enough for him, either.  
What is? When will I be good enough?  
Never.  
Never, I guess.'

Since I kind of guessed already who was behind all the stuff that happened to Jane – because come on, we got soooo many clues in the prior books and it was just really obvious – I felt the showdown somewhat lacking and the road to it unnecessary drawn out. I did like the reveals of more secrets and how complicated this net was spun but all in all it wasn't as packing as I'd hoped it would be.

I liked Jane and Silas but this book was not my favorite of this series or this story of all the characters combined. What I am sure of though is that I CAN NOT WAIT for the next series!!! Oh my god! I can't tell you anything about it but there's a little peek at the end of this book and I am absolutely in!! Bring it on girl =)

'None of us can protect a mind, and yet it's the mind that is the most dangerous. Manipulation pushes people to the edge. It's the edges that are the line between life and death. You can nudge someone from madness to action.  
How much does it take?'

-- *I voluntarily reviewed an ARC of this book given by Give Me Books Promotions.* --

### Iris says

This book has it all, suspense, love, drama, action, EVERYTHING! I loved this series. And I really like the

connections between all the characters, even the ones from other series.

---

### **bookbabe says**

Having read the trilogy, which must be read in order to make sense, I found the main character, Jane to be somewhat of a whiner. There was so much repetition of how she felt that I found myself skimming pages. I wasn't too bothered that someone wanted to kill her. Her choices at time were extremely immature for a person with a target on her back. Not only did she not seem to care about her own safety, she didn't seem to care that other people were targeted when she was around them. She was supposed to have a secret that was never fully explained. The "secret" was not really a secret at all. It was never clear to me if Silas was Secret Service or some other alphabet agency employee or if he was part of a security outfit. Drew was his boss, but I wasn't sure if Drew was the overall boss or someone else. To me, there were too many inconsistencies for a detail person like myself.

The person responsible for the whole scandal was the only person who had the most to lose which was obvious. However, the whole thing seemed counterproductive to this person's overall objective. It wasn't a bad story, but could have been fit into one book with less rambling.

\*\*\*Received an Advanced Readers Copy during a blog tour hosted by Give Me Books Promotions in exchange for an honest review\*\*\*

Every time I get closer to the end, there is always something reeling me back in - that is Raine's books. Shameless series has been one hell of a ride and I am not sure if I am ready to go back for seconds or if I need to start from the beginning and read them all over again. I am addicted.

If you have, or even haven't read the Shameless series up until this point well the comrades might I suggest you do! A Shameless Little Bet is filled with more eye popping plot twists that honestly I may have shit my pants. Really, I think I may have. Everything has been leading up to this point, I guess I should point the obvious - what the hell is actually going on? The answers to all questions possible are finally getting resolved. This soap opera took a turn into conspiracy territory and I am loving it. Not only did the main characters really take a spin, but the secondary characters really played such a huge role in the suspense and undertone of the plot.

And the characters ..... oh my! Activate happy dance because comrades I got my wish! What was it? I needed to know what was in Silas' head and I flipping got it. I FINALLY GOT IT! That's right, we got the split perspectives this go and I am swooning from wall to wall, grinning from ear to ear because hot damn I needed to understand Silas.

Silas really has been the shadowing main character of Jane up until this point. Hate him, love him, as the reader we only get the perspective of his personality strictly by Jane. His every action up to this point has been two sides - possessively, borderline obsessive in love with Jane or founded, full of rejection counter. There was no between, no understanding or aiding in defending what was in front of him. Though this

should piss you off as a reader, honestly the ringer he put Jane through left me livid in A Shameless Little Lie, but we finally get to understand him.

Jane on the other hand is finally to the breaking point. She is completely, devoting with a dash on insanity type of love with Silas. While battling her feelings for the asshole she is also still wrapping her mind around the secrets and lies she is finally discovering not only about herself, but her mother, father, hell her 'so called' friends, just about everyone. Regardless of the beat down her defensive side takes, she is still holding strong to her personality and really standing up for herself. Really I cannot gush enough about this character; as a female in her predicament is just perfection. She is broken yet strong, she is inferior yet she is powerful - she is really believable as a character.

I said it before and I will say it again - Meli Raine has beguiled me one hundred percent, there is no denying that I am absolutely captivated by her extraordinary writing style. She truly has such a refreshing style that I truly cannot gush enough about. Her characters have depth that is untouchable and plot twists that are beautifully complex that honestly she takes my breath away.

The Shameless series was perfection. The emotions that I experienced during this read was out of this world - she took my breath away. Silas and Jane's story was gut wrenching as it was beautiful, heart pounding as it was saddening. I devoured this series - absolutely inhaled it. If you haven't picked up anything from this author might I suggest you do this now! You can thank me later...

#### **4 Stars**

A Shameless Little Bet is the final installment in the Shameless series and the story picks up where the second part left off. Going into this book, I was on the edge of my seat! The author deftly combines a beautiful romance and a spine-chilling mystery. She has done a great job keeping the action intense with each read. This story full of deadly secrets and deceit had me hooked from the start.

Silas set Jane up, rebuilding the trust he had established with her will take time. Jane wants to be impenetrable and unforgiving, and yet Silas is slowly unlocking all her defenses. I absolutely loved the romance between Silas and Jane, besides being hot and expertly interlaced with suspense, these two complex characters are growing and forging what feels like a solid connection.

With a target on her back, Jane is in danger. Silas wants to protect her at all cost and clear her name.

It's amazing how this author has you hanging on each word and waiting to see what will happen next! I enjoyed the moment I was able to connect the dots. I don't want to give anything away, but I found this final installment totally satisfying. The major puzzle pieces slowly fall into place and questions are answered.

---

### **Kari Hansen says**

The conclusion to this riveting and suspenseful trilogy is here. After the events that transpired in A

Shameless Little Lie Silas is not the only one with trust issues. Jane feels devastated, betrayed and heartbroken and is not sure if she can ever look at him the same way.

Silas is determined to protect Jane and earn back her trust but the evil surrounding her just keeps getting closer. As they unravel layer by layer of this mystery it seems to bring more questions than answers but the biggest question of all is will they find out who is behind it before it is too late?

The story is an amazing ride with so many twists that you end up with whiplash. The author has created compelling characters that draw you in and the suspense leaves you on the edge of your seat and it all crescendos into an amazing climax. I really enjoyed Jane and Silas's story and can't wait to see what this author comes up with next.

---

### **Lindsay says**

I was really disappointed with the end of this trilogy. It all started really promisingly with Silas being shot and Jane betrayed. It then seemed to lose itself in a mass of exposition and to be frank I didn't care enough. The poor flower shop girl Lily, just served the purpose of getting shot in the head and will now get her own series!

A bit of a befuddled mess for me....

---

### **Mandy says**

Once again Meli Raine has brought us an exciting romantic suspense filled with action, love, betrayal and surprises - lots of surprises.

As with the other series from Meli Raine, I have decided to review the story as a whole because really you cannot read one without reading all three, it is essentially one story broken into three parts. I have loved the other books by this author and this set is no different.

This series, based around Silas Gentian and Jane Borokov, follows on from the Harmless Series. Silas is awesome, I loved his character in the Harmless series and so pleased to see him get his own story. He is mistrusting and not at all happy about having to bodyguard for the lying, deceitful Jane, but the longer he spends with her and the closer they become he realises that what he thought was true may not be so clear cut.

Jane has a lot questions surrounding her and they are answered in this series along with so much more.

Since the 'incident' with her best friend, Lindsay Bosworth, was so publicly aired, Jane has become the most hated person in the USA prompting multiple death threats against her. Jane continues to claim her innocence and when the Senator Harwell Bosworth requests protection for her, Silas is the lucky one to get the job.

There is plenty of tension between these two. Jane is desperate to prove that she did not set up her friend and as her feelings for Silas grow she wants him to believe her more than anyone. The trust/mistrust that encompasses this story plays throughout all three books and we find out why Silas has such trust issues. There is, however, definitely no issues in the bedroom when the sexual tension takes over. Silas, the sly dog,

has a secret that we find out about in 'Bet' and I was really looking forward to reading more about this side of him but it never came about. Maybe Meli could write a novella on "Jane and Silas - Bedroom Dominance"?

Many characters from the previous series crop up - Drew and Lindsay Foster, Harry and Monica Bosworth, Mark Paulson, Marshall. But we do have a couple of new faces as well - Lily and Duff (next series main characters).

Lots of questions arise and most of them are answered. Secrets are revealed and surprises are in abundance. This was a fantastic continuation to what is an ever increasing story, told from the point of view of one particular couple in each series.

As one series leads onto the next and interlinks with others, I would suggest reading them in order as characters from all four series will be found popping up in others:

Breaking Away

Coming Home

Harmless

Shameless

Looking forward to seeing what happens between Lily, the flower shop girl, and Duff, the quiet and reserved bodyguard, in The False Series.

## **Up All Night With Books says**

**5 Stars**

**Review by Sasha**

**Late Night Reviewer**

**Up All Night w/ Books Blog**

The thrilling conclusion in the *Shameless* trilogy is here and is packed with all of the punches. Meli Raine uses *A Shameless Little Bet* to answer all of the burning questions that have eluded us so far. Who is behind all of the attacks on Jane's life? Who is Lindsey's biological father? Will Jane and Silas be able to work out their differences and be allowed to be happy together?

The group is so close to unmasking the villain that they've been chasing and as they dig deeper and deeper into the information, the more and more danger they embark on. Jane can't seem to see the light at the end of the tunnel, losing the small bit of hope at a life of normalcy, but Silas keeps her grounded.

With chapters written in Silas's perspective, we start to understand exactly how this whole process has started to take a toll on him. You finally understand the intricate workings of his mind and how his job has consumed him and thus made him better at the same time. The events of her life have left Jane broken and wanting to build up her walls, ready to block out everyone who she thinks she couldn't trust. Silas has to regain her trust and slowly break down those walls that she's been building up so high.

With the ground being pulled out from them, friends being picked off like flies, and rumors circulated faster than the news can keep up with them, Silas and Jane have to find a way to get back to each other. Because in this crazy world, the only people who can keep you safe and sane are the ones who can see you for the real you.

Holy Crap. Did this novel keep me on edge. With every chapter, I was almost afraid of which character Raine was going to target next. The plot was filled with shockings twist that I would never have predicted. It made the conclusion of a fast-paced trilogy to be that much more thrilling. Everything about this novel was thrilling, not just the action scenes, but the ones that are centered around the relationships that people are dealing with; Silas and Jane, Jane and Lindsey, Monica and everyone. There are so many dynamic aspects of this story that it keeps you drawn into the story.

### **Pamela says**

OMG! OMG! OMG! I did not see that coming! This is the third book in the Shameless series, the conclusion of Jane and Silas story. This book picks you exactly where the second in the series leaves off. In order to completely understand the series you should read them in order. This book has so much in it that I did not see alot of what was going on coming, it has surprise after next surprise, when I finally figured out what was going to happen I was so caught up and saying to myself I knew it! As I read I kept thinking why is Drew being such and arse! Well as I kept reading I found out why! This book has so many layers, it has intrigue, lots of mystery, love, hate, tears, sexiness, political history all while trying to figure out who and why they want Jane dead. Will Jane and Silas find a way to continue to love each other with all that is going on? How many more people have to be hurt/die in order to get to the bottom of all of this? What is Alice trying to get to Jane in all of those boxes? I am sorry to see this series come to an end but it opened the door to a new series. I love Meli Raine's books she is the best at mystery, scandel and intrigue! I want to thank Meli Raine for giving me the opportunity to read an ARC of this book.

---

### **Paula Phillips says**

This series is coming to an end with new revelations and the true masterminds being found out. Like the first two books, this one also starts with the beginning of what was the cliffhanger in Book #2. We discover that Silas is not dead and that it was all a big fat test to see if Jane was betraying the ones she cares about and loves. I hated the fact that Drew put her through this as OMFG how many times can Jane prove that she had nothing to do with it all and that she is the one who is being set up and surprisingly was the main target all along and not Lindsay. In Book #3 Jane learns that Alice has passed away and has left Jane her entire estate as she had no children or heirs to leave it too. Now with Alice gone, Jane feels more alone in the world and with more murders and attempts starting to stack up it seems that somebody will go to extremes to have Jane dead or set up for life imprisonment, just like they got her mother out of the way. In Book #3 Lindsay finally narrows her fathers down to three men, a bit like a Mamma Mia moment and we come face to face with Lindsay's real father which surprises a number of characters. I have to say the ending of this book was a bit of an OMG moment but then again it was justified. This series also goes to show the lengths of power people will go too in order to "rule the world" as with Alice's research, Jane and the others will unravel and 20+ year conspiracy. This was a good conclusion to the Shameless series and I am looking forward to reading her earlier works of Carrie's story since I have read all of the Harmless and the Shameless series.

---

### **Eve Recinella (Between The Bookends) says**

I don't really have much more to say about this book that I haven't already said in my reviews for the first two books. This was an amazing conclusion to a fantastic trilogy. The writing was phenomenal. It was fast-paced. The plot was intriguing and engaging. It was full of twists and turns that will make your head spin. Seriously, I am not sure how this author keeps everything straight in her head! I was happy to see Jane stop being everyone's favorite punching bag, and get her vindication. Silas got his head out of his a\$\$ permanently. Drew was somewhat redeemed. That said, I am still not a huge fan of how this author choose to portray him in this trilogy. Last, it was all wrapped up in a satisfactory ending that sets up the next trilogy (?) featuring Lily. So yea, all three books in this one get a HUGE recommendation from yours truly!

---

### **Amber says**

A Shameless Little Bet is a brilliant culmination to this epically exceptional series! I have been literally dying to read this book, and it blew my heart and mind apart. Nothing prepared me for the fierce battle that was laid before me with both sides mounting a precise and calculated attack. My heart was decimated until there was nothing left as I watched the horror that unraveled until there was nothing left. The simple yet intricate plot left me utterly speechless as the last threads of this grotesque masterpiece came together for all to watch in abject revulsion. What you find is a no holds barred last attempt to remove and decimate a nagging and permanent stain of failure that can not be tolerated. This book is utter magnificence for the romantic suspense genre!

Jane knows this time she will either meet her Maker or the mastermind of her current nightmare. Everything is about to change, and she has finally reached the eye of this cyclone of incomprehensible evil also known as her life. What she didn't expect was to have to fight for her very heart in the midst of this miserable excuse of an existence. When one obstacle after another comes between her and Silas, she will have to reach deep within herself and decide if their growing love is worth the last of her reserve of fight or if she is better of just walking away keeping that small piece intact for the endgame. When the bottom drops out under him, Silas starts to fight his way back to Jane only to discover the depth and breathe of her doubts about them. He can fight anything the comes between then, but he can't fight against her because that would leave him fighting his own heart. Will Jane hold onto her greatest strength, or will she embrace her greatest weakness and finally fall to the vicious predator that hunts her?

This book painfully and desperately dug to the very heart of the danger that menacingly stalked the very definition of innocence. The evil that infiltrated this series penetrated and infected everything in its wake.

Nothing is seen as off limits, and the fear of being revealed drove it to madness of epic proportions. You could say it was motivated with a desperation of a man doing everything to save the woman he has fallen hopelessly and irrevocably in love with. This is a story that devoured me whole, and I fell the very depths of its madness and hope that I could feel the desperation that clung to Jane and the frustration that dripped off Silas as they fought against an unknown yet dangerous enemy. This story rocked my world and enthralled my senses until I was lost to everything except the words that flowed effortlessly from these precious pages. This is the very definition of the perfect story!

Meli Raine continues to showcase her extraordinary talent that separates her and places her work in the ranks of the madly gifted. She is a goddess among authors, and will always be one of my all-time favorites. I savor every book that I have read by her, and her stories only continue to grow in grace, creativity, and excellence. Whatever genre you read, please do not pass up the unequaled opportunity to read and enjoy and experience a pulse-pounding and fabulously crafted story written by this fantastic author!

---

## **Patty says**

Wow! What a crazy ride this series turned out to be. Man, there were so many twist and turns to this plot, like a crazy roller coaster ride. The final book in the trilogy of Jane and Silas wraps up nicely with a bow. With an ending setting up for the next trilogy containing Lily and Duff's story. I can't wait.

So as the books come to an end, many questions are getting answered. Who is Lindsay's father? Is Monica involved? Where does Alice fall into all this? Is Silas a double agent? Some of the questions are answered and you go "hey they gave us a clue to that" or "wow did not see that coming".

Meli Raine has really taken suspense romance to whole new level. This whole series was a well was steady paced plot throughout, with so many twists that it keeps you turning those pages like a mad person. Her characters are well-developed with strong personalities and complex nature. I guarantee you will fall in love with them and feel invested in their stories.

I highly recommend this high energy packed thriller. Your head will spin from all the twist and complex nature of the story. You will want to continue your journey with the characters even more when it is all said and done. So if you haven't read any of Meli's books then start it right. Here is the reading order:

The Breaking Away Series (Chase & Allie)

Finding Allie

Chasing Allie

Keeping Allie

The Coming Home Series (Mark & Carrie)

Return

Revenge

Reunion

The Harmless Series (Drew & Lindsay)

A Harmless Little Game

A Harmless Little Ruse

A Harmless Little Plan  
The Shameless Series (Jane & Silas)

A Shameless Little Con  
A Shameless Little Lie  
A Shameless Little Bet  
The False Series (Lily & Duff) COMING SOON

---

### **Alicia says**

#### **So worth the wait...**

So I was halfway through a great book when I realized it was June 5 on the east coast. I randomly checked my kindle and there it was, "A Shameless Little Bet.". I can think of maybe one time I put a book on hold for a new release. The book wasn't great, so I didn't feel too bad and I did go back and finish it. But here I was really enjoying this novel and I make it a practice to finish what I am reading even if a new release was just delivered. Well...suffice it to say, I finished the chapter I was reading and went against my practice and put the novel on hold. I had been waiting as patiently as possible for the final novel in this trilogy. IT DID NOT DISAPPOINT!!

Meli Raine did not disappoint. In fact this trilogy may be her best yet, though I was just as enthralled with the Harmless trilogy. I liked how this one picked up from Harmless and really built on the characters. But something about Silas and Jane really captivated me. Her strength and his emotional side when brought together was enthralling. Seeing how Lindsey had slowly moved forward and going between the love/hate feelings toward Drew all made the novel that much richer.

Anyone want f a good trilogy read or even a stand alone novel, a mystery and suspense hit...This book/series is for you. You will not be disappointed and won't have to wait to read them all. My suggestion: read the four trilogies in order.

Rating: 5.0
