Everything about him was...mysterious.

He was captivating. Alluring.

All the way down to the dark gray jumpsuit that he wore.

What did the name mean?

And why was it on the front pocket of everything he wore?

Sitting next to her in class, Jaime Garcia made everything about Erica Kennedy's first semester of college unforgettable.

It certainly wasn't planned that way, and neither of them expected it. Or did they?

Do they fight it, or do they walk away and pretend that nothing was ever there at all?

Falling for Him is the first book in the Falcon Club series.

I received an ARC for this book in return for an honest review.... Falling for him is a wonderful book to read and I enjoyed every bit of it. I fell in love with the storyline and the characters right away. At first you think it's going to be your typical college love story but it turns out to be so much more!

We have this young girl named Erica who is fresh out of high school, with plans of going to a state university with her best friend Monica, but when her parents break to news that they are getting a divorce her plans of the fun college life with her bestie disappears. She is left finding a college close to home because she can't afford anything more. Erica enrolls in Bishop University, a college geared towards people who already have jobs/families that are looking to further their career or are going for a better/higher paying job. Did I mention that some of the classes are on a military base. That is because Bishop University joined an education policy with the US Air Force. But come on now, who wouldn't wanna go to school with a bunch of hot military men, YUM! So poor Erica doesn't like that idea and is now stuck going to a college she doesn't really want to go to and taking classes she really didn't want to take. But all of that changes when she lays eyes on Jamie. Jamie is VERY attractive older Hispanic that she quite can't put her fingers on and figure him out. Him along with a couple of other guys in her class all wear this gray jumpsuit with the words "The Falcon club" written on the front of them. She doesn't know what the jumpsuits are for but she wants to learn and she definitely wants to know more about this mysterious Jamie. But Jamie has a secret that she never would of thought of in a million years.... the question is..... Is his secret to much for her to handle? Is he worth getting to know, or for that matter, falling for?

This book is definitely a fresh new twist on opposites attracting and it will keep you wanting more. I caught myself yelling at the book by the end because I didn't want it to end, and I wanted to know more.... I will be biding my time waiting for the second installment to come out. Amy did a wonderful job and I am in love with this book! A must read in my eyes :-)

"It's not your normal everyday romance novel"!

ARC provided in exchange for an honest review - Sanne / Scandalous Book Blog

First things first, if you think that you know what is going to happen I'd suggest that you think again because I can pretty much assure you that it's not what you thought it was going to be. I know I was pretty surprised.

Erica Kennedy, a young woman on the brink of starting her new life in college, everything was planned out and ready to go... Until her parents decided on a divorce just a few weeks before college was about to start. You know that life can be tickle and can change in the blink of an eye, so it was up to her to form a new game plan, a plan that made her enroll at Bishop University. Little did she know she was to have a few classes on the local Military Base, a place that also housed the "Falcon Club".

During one of her first classes she meets Jaime, a rather mysterious man who seems to be part of a group that always wears the same jump suits and rarely spoke to any of the other students.

When paired together during a group assignment neither of them can deny the pull they feel towards one another. It's only a short while before they start to grow closer and form a bond neither of them could have thought that would happen. But what happens when Erica finds out what the "Falcon Club" really is about?

I can tell y'all that it won't go over a bed of roses, it'll take some give and take from the both of them. But the passion between these two is so unbelievably strong they can't not act about it and they start sneaking in extra time between classes just to spend some extra time in each others company.

As you can image fairy tales aren't always graced with a HEA and life must swoop in at some point. When Jaime graduates and has to start life at home again will it all be over or will a HEA be in their cards after all?

... To be continued ... Because your guess is as good as mine! ;-)

Kudos for originality and for weaving in the erotica without being too erotic.. If anything I'd label this book as mysterious and sensual, that combined with an unlikely new book boyfriend alone should be enough to

convince y'all to give this story a go!

5 Crazy Ass Stars!!!

Amy Stephens does an amazing job with this start of this new series. I was very intrigued with the blurb so I, of course, signed up for the ARC. I immediately guessed what the Falcon club was because I've been around enough military bases to know. Even though my suspicions were correct, I didn't let that ruin it for me. I was completely wrapped up in the story. I'm left going crazy now with how it ends (or I should say, the lack of ending). I need to know how it plays out. Hopefully I don't have to wait too long into Summer to read *Falling for Her*.

The Romance Book Disciple (Samantha) says

Ok, go into this book blind. Don't let anyone spoil it. I loved the twist and was taken totally by surprise. And, CLIFFHANGER! so beware. Now to impatiently wait for book 2.

So, why not 5 stars? I felt kind of disconnected from the characters. Maybe because its told in 1st person from Erica only or maybe because I just couldn't figure out what to think of her. Not sure. I don't dislike her; I just don't love her like I do in a 5 star book. And because you don't know what Jamie is thinking, he is much harder to get a good read on, ya know. But, the next book is his POV, and I certainly plan to read!

Falling for Him is the first part in The Falcon Club two part series. It is written by Amy Stephens. The books starts off with Erica Kennedy about to start her freshman year at college with her best friend. That is until her parents decide to get a divorce and Erica is no longer able to attend the school she wanted to and is forced to go to a local school that is more suited to help older adults continue their education. Two of her classes turn out to be on a military base, so at least she gets to look at some men in uniform, but she also starts to notice that there are guys walking around in a jumpsuit with the name Falcon Club on it. One of those guys is Jamie, and lucky Erica is in a study group with him. There is an attraction between Erica and Jamie, but what will happen when Erica finds out what The Falcon Club is? Will she being willing to take the risk and fall for him?

Amy Stephens is a great author, and this is a really enjoyable book to read, which is only for readers 18 years or older. Thankful I am over 18, so I was able to read this book, and if you are over the age of 18 you should as well. The mystery of what The Falcon Club is keeps you guessing as you read, so it adds thrill to the plot of this love story. The story does end with a cliffhanger, so I can't wait to see what happens next. Amy Stephens has made a fan out of me, I'm hooked and can't wait to see what happens in part two of this story. A great book and I would highly recommend reading it, especially if your looking for a little mystery with your love!

Christina Concus (Moonlight Novels) says

****I got the pleasure of being a Beta reader for Amy.****

This book is not your ordinary college/military romance. Amy was also able to incorporate erotica without over doing. This book keeps you guessing on what will happen and also what the importance is of a certain grey jumpsuit.

Erica Kennedy is an eighteen year old girl who had her life planned out. Everything was going according to plan until her parents change everything with a divorce. She is left upset at everyone and everything around her. When she has to change her plans and enrolls at Bishop University a local college that works with the Military Base she realizes she needs to grow up. She was very naïve when she started classes and this continues until she goes to her first class on base and sees a group of mysterious men all dressed in grey jumpsuits. What is with these suits? Make sure to pick up *Falling for Him* to find out.

While in this first class on base Erica sets her sights on one of these mysterious dressed guys and wants to find out more. What is it about Jamie that has thinking this school do just fine?

This book does have a cliffhanger because it is written in Erica's point-of-view.

Nancy Wood says

After reading the synopsis I could not pass up the opportunity to read this book. I was intrigued, the whole girl meets boy involving University, Military and mysterious grey jumpsuits???

Erica is a 19 year old girl who thought she had her life mapped out, she would graduate from high school senior year, be attending university with her best friend Monica, they even found a cute little apartment to share... Everything was perfect until her parents announced they would be getting a divorce and her college fund was now gone due to lawyer fees!

She would now be attending Bishop University, fees were cheaper YES, she would also be living close to home to save on rent, but it was not the university she had in mind. It was filled with students that were older either already in the workforce or studying to better their career. Also Erica was also not happy to learn that she would be travelling across town to attend 2 of her classes on the Military Base!

It was here that she would meet 32 year old Jamie, slicked back dark hair, deep dark chocolate eyes, broad shoulders and bulging upper arms and wearing a grey jumpsuit that fitted his body perfectly in all the right places. There of course was an instant attraction between Erica and Jamie! Erica needed to know more about this mysterious man who sat next to her in the grey jumpsuit with some kind of symbol and "Falcon Club" written on his pocket... Was it a fraternity or some sort of program? Or was it related to the Military?

Erica and Jamie were put into the same group to work on a class assignment, here they are able to spend more time together and the intense flirting begins! Even though Erica is trying to get closer, Jamie is trying to keep her at a distance because in his eyes Erica can do better and deserves better than him. What will happen after Jamie graduates and moves back to Miami with his family? Will Erica follow her heart? Will Jamie want her, or will he try to protect her from his past?

“Erica” He whispered my name. “It was never my intention to hurt you, not ever. I’m sorry. I’m just so scared. My life. Your life. This wasn’t supposed to happen.”

This book has it all, romance, intensity, mystery, there are a quit few hot and steamy foreplay scenes that lead up to a point where they can no longer hold back! And of course the cliffhanger, what will happen with Erica and Jamie? We will find out with book 2 The Falcon Club: Falling For Her, told from Jamie’s point of view.

Falling for him by Amy Stephens

I received this book for an honest review.

Shut the front door!! I was not expecting this book at all. I read the synopsis and really didn’t know what to think or expect but was blown away by it. I think the author really got into my head at times and has her character voice the same concerns I had over Jamie. Every single time she did it (and then resolved my and the characters fears) I was like “Well played Amy!”

So this book is about Erica who is really in a bad place. Her life has virtually been turned upside down in 4 months. What she had originally planned for herself is now all ruined. She decides to not sit around and hate everything but actually try and make the best of it. She enrolls in a non-traditional school to get her college degree. The school has classes on a military base as well as a traditional campus. She stumbles into her first class and is given a seat next to a tall drink of water names Jamie. HELLO he must be a military guy if he is taking classes here right??

Jamie and Erica have a vibe. I mean vibe is just how you describe it. They are very comfy around each other but not really knowing each other. She knows he is different...hello he wears a jump suit and has long hair for a guy in the service but whatever he is hot annnd older so that is fine.

The two get paired up with others in a project. Erica is starting to dress a little sexier for Jamie to try and get his attention. She knows he is older but she is gonna flirt and have fun. When one of her project members spills the beans about Jamie....WE ARE FLOORED. My eyes popped like this @@!!!! Omg the self -doubt and pain of hearing about our hottie was too much for her and me!!

When Jamie and Erica have a “show down” my heart hurt like hers did but Jamie Jamie Jamie can sure make us forgive him *Snickers* So now our couple is “dating” but graduation is drawing near.....how will they

make this work? Can they make this work? My heart hurt and then I realized there was only like 5% left and I was like “Uhm Amy get this HEA going girl!!” and then she did it...she dropped the biggest bomb of all...and friends it's not an HEA it's a CLIFFHANGER!!!!!!!!!!!!!!!!!!!!!! I love and hate her all in one breath!! LOL

Nicole Emerald Book Reviews McCurdy says

I love a good college based romance, I think it all hails back to my love of She's All That and Ten Things I Hate About You, regardless when I come across a new one I get excited so to be offered the opportunity to read Amy Stephen's new book was a dream come true.

After some unfortunate home events, Erica Kennedy is sent to a rather unique college that houses classes in a military base and one that caters mostly to working adults, this unfamiliar setting and much older crowd seems to emphasize how young Erica actually is. She may be a typical freshman, she has the same insecurities and fears and dreams and crushes like any girl her age and I think Amy demonstrated her character to perfection, she was naïve, slightly immature but when she ends up sharing a class with some hot shot jumpsuit wearing guys her interest is immediately piqued.

Jaime is the beautiful mysterious Hispanic man that catches the eye of the impressionable Erica even though he is a thirteen years her senior. At times this was a little strange to fathom being that she is only eighteen and it did feel kind of wrong especially when the terrific story took a turn into insta-lust territory without much interaction or conversation between the two of them but the connection and the simmering sexual tension does pick up with Erica and Jaime spending more time together and getting to know one another which brings a much needed depth and semblance of normality to the relationship especially when you factor in Jaime's big 'secret'. Falling For Him was such a brilliant refreshing perspective on the usual college romance novel, there was a surprise or two as well as Erica's character showing some progression towards maturity towards the end. Again the only thing that annoyed me a little was the fairly abrupt conclusion which wasn't conclusion at all but a cliff-hanger. It's a great plot with some good dialogue and characterisation however I think the love connection needed a bit more work as I just wasn't feeling Jaime's emotions, it felt like a case of lust for him rather than an epic romance involving a lifetime of commitment but I'm hoping when his viewpoint rolls around in Falling for Her I will feel a lot differently.

ARC For An Honest Review

Ok, so when I read the synopsis of this book I just could not wait to read it. It sounded like something that I love to read. College girl that had an unexpected life event happen sees guy in a uniform and immediately is attracted to him. I mean, who can turn away from a guy in uniform? Even if it is just a gray jumpsuit with the name Falcon Club on it. I really liked how the author didn't come right out and tell you what the Falcon Club is. It stays a mystery for a while and it makes you not want to put this book down for that reason. Yes, I do admit that at first it did take me a little while to get into the book, but after a little while I couldn't put it down. I really enjoyed this book and I can't wait for the 2nd one to come out which sounds like is going to be Jaime's side of the story. I like reading the guys POV! I know this review is short, but I am one of those people that don't like to post spoilers, because I am always tempted to read them before I read the book. With that said, like I said earlier, yes the book is a little slow starting at first, but I promise you won't be sorry that you read it. Just remember, that first part does have some mystery in it.

I just want to give a big THANKS to the author for letting me read this book! I really enjoyed it. :) Can't wait for #2!
