Halo and Prosper: No Rules In Love Goddess Love

Halo Vanega is a beautiful, vibrant, twenty-three-year-old living in Florida with dreams of being successful and going far with her business management degree. But her happy dreams are turned into nightmares the moment she gets into a relationship with Mickey. Halo thought she was going to get love, but instead she got black eyes and visits to the hospital. She knows she deserves better, but the fear of leaving him always has her staying with hopes that he will change. Mickey treated her like his property and she couldn't make a move without his permission. Halo is a prisoner in her own home and each day she thought of an escape plan. The last straw is when she is brutally beaten and left for dead. The person who found her, was the person she had always loved. Prosper.

Prosper Harrison used to move dope with Halo's older brother before his sudden death. Prosper along with his other best friend, Fresh had the streets on lock until Prosper realized that being a businessman came with perks just like the drug game did. Prosper had always been overprotective of Halo since they were younger, but true feelings didn't start to flourish until he realized the woman he wanted had always been her. He gives her that love that is only heard about on TV and in 90s R&B songs.

Once the two of them give being together and love a try, the haters come out by the dozens and one happens to be Halo's ex that she thought she got away from for good. There's no rules in love, but there is a lot of naysayers hating from the sideline.

Excellent Read

Loved it from beginning to end. Halo and Prosper equals perfect for each other. Hayley and Fresh are a trip. Mickey is a dead man that has some real issues. Love the storyline and I would definitely read this again. Hyped to see what's coming next in part 2

Felt like I was coming into a story that was already going on so I didn't get a connection with the characters or what they were going through. All the label dropping and price tags was beyond me. I knew Mayhem was going to be a foe but I'm really wanting to find out what's going to happen with them. The way Fresh approached that situation was dumb but it seems like the author didn't really care about the character because his issues fell to the back. I'll checkout the next one.

Halo and Prosper

Man I had a feeling about the abandoned building scene. Omg my gut told me.. That's why it's always good to a least let one person know where you are going. I hope that Fresh pulls through. And my God, with Lord got going on behind his cousin's back.. Oh wee he slimy as hell...#UIP

It was more then obvious it was Lords baby from the jump!! I didn't give up on the book but I hoping for something which never came!! And with him having a twin or coming back from the dead in the end typical !!

When I first selected this story it was with the impression that this was going to be one really good story. This story starts off with all the makings of a good story, it has all the makings. Some how it gets derailed and goes so very wrong. Sometimes this happens with these kinds of stories when dealing with young adults. The writer does to much and doesn't give you enough time to settle in and start to relish the story. Now everything wasn't bad just needs a little more work. I will read the next installment because I have to know what happens.

First off domestic abuse is not okay. Halo is living is a abusive sheltered life Mickey but he took it to far almost killing her. Prosper and her sister Harley cant stand him and after the last time they want him dead. Prosper is in love with halo an until she gives him a chance she realizes what she been missing. Harley is a live wire but she has skeletons in her closet. Harley loves her drinks but she jokes a lot especially with fresh proper right hand and when she starts catching feelings fresh isn't one for relationships. The drama is most definitely at 100 but a great storyline no doubt so go read
