Day-thief says

So, mpreg. Once in a while, silly me thinks "why the hell not?" Only to realize there are REASONS. Mainly personal ones.

So I'm sure that quite a bunch of people will like this story (overprotective pack and perfect husband fulfilling Stiles' every wish, covering every aspect of a pregnancy in detail, and - in one gloriously unironic moment - talking about how to maximize kitchen workspace).

Otila says

Stiles is pregnant! Derek is the other daddy, of course. They are both very happy about this.

Everyone in the pack (they're all alive, btw) is also super happy about this.

This fic goes through All NINE MONTHS of preparing for the baby and everyone being happy and joyful with life in general, and this was me by month 3...

I asked for sweet and fluffy after Tiny Houses and that's exactly what I got. It was just too much sweetness and fluff for me. I liked the ending though, with the flashbacks of when Stiles and Derek first got together. I just would've preferred it if that ending was much closer to the beginning.

I'm not going to rate this because it's exactly what it said it was, so it's not the fic's fault (or my friend who rec'd this *side eyes Rosa* because she did warn me about the diabetes) that I'm an evil shrew that usually prefers it when the boys suffer, at least a little.

2nd read 1/23/15:

Just as good as the first read, made all the more richer due to having watched the TV show since then.

Original read 9/25/14:

FLUFFITY FLUFFITY FLUFFITY!

I've gone into a sugar coma and I like it.

Plus MPREG!

Trisha Harrington says

This was just exactly what I was looking for. Sterek mpregs like this make me so happy. I loved how happy Stiles and Derek were.

No smut. But plenty of feels and fluff.

3.5

Quite a bit happens in this Mpreg story. It's entertaining. Unfortunately, I like sex with my fluff so it lost a star and is not a favourite of mine. Still, not bad.

Tara♥ says

Mpreg is so weird. I'm not sure I'll ever be able to just 'get' it but this one was okay and it was also enough to put you in a sugar induced coma.

I'm not complaining though because that is exactly what I was in the mood for. Over the top sweetness can be exactly what the doctor ordered sometimes.

No smexy just cuddles and lots of 'awww' moments.

Meep says

Um it's fluffy mpreg, well written, I'm sure people will love it.
Wasn't really feeling it though, don't really know why.
Did think it got better towards the end.

Susan says

Re-read, because I needed me some Sterek. Still loved it.

Stiles and Derek have been together for some years when Stiles finds out he is pregnant. Derek wants nothing more than to protect Stiles and their baby.

I love protective Derek!!

No sex in this one. None whatsoever. No kissing, no smexing, no nookie. Luckily also no fade to black scenes. There is just no mention of it at all. But that never bothered me. FTB is the worst, but I never missed the sexy times here. There's enough love to go around. And lots of pack feelz.

Rosa, really says

First and foremost: **MPREG** .

I don't want to shock anyone but it's possible this book has too much fluff for me.

I can't believe I'm saying that.

It's probably the length -- it just went on so long that I was fluffed out by 30%. It went something like this:

*Enjoyable fluff

*Yep, more fluff

*There are about 30,000 other Stereks I could be reading right now

*Where's the sexy times?

*Okay, now we have a plot

*Plot is good

*Omigerd, more fluff

*Seriously, could we have some fucking? Okay, Stiles is preggers, but why not some lip action? Jerking off?

*Aw, that ending is so sweet. (view spoiler)

I've read plenty mpreg but I've gotta say I don't think Sterek mpreg is for me. It weirded me out.

5 Stars

I admit I was very reluctant to read mpreg. My scientific brain can obviously accept paranormal stuff but it has a very hard time wrapping itself around the idea of a male being pregnant. The actual how and why is glossed over here so you do have to suspend belief because there is no rational explanation... however, once you do that, the story was absolutely wonderful.

As mentioned by others, there is no sex in this and like some others, I agree that it wasn't missed (well.... of course it would have been much appreciated.) What you do have is the MC's personalities perfectly depicted to a "T". Derek is his usual taciturn, grumpy self but also possessive, protective and sooo in love with Stiles. Stiles too is his typical impulsive self but his strengths really do shine and he comes into his own with perhaps a new twist that he's more than just a human among wolves.

For those too who might scoff at this due to the lack of smex and the fact that they're already an established couple - don't. There are nuances to their already evolved relationship and their feelings toward each other change and strengthen in this story. It does play out month by month but it's more than a play by play of the pregnancy; there's even a baddie arc interspersed in there.

As per my usual disclaimer because this is fanfic, your love of Teen Wolf will enhance the read - but if you're not a fan, it shouldn't detract at all. Really - not at all.

And those flashbacks at the end??!! Swoon!!

Rosa thank you for the rec; I don't think I can read any more mpreg because it won't be as perfect as this.

Finnegan says

I usually hates mpreg, fluff and too much cuteness in books, and this sterek fanfic has all three components in spades. And yet, I loved this book. It just has so much heart, and it left me with the fuzzies after reading it. So, five heart-warming, happy-feeling, drinks-all-around stars. Jay!

Re-read 09/25/15 - 09/26/15

It's funny to come back and read a review you wrote a little over a year later. My original review kinda makes me chuckle. It is not wrong though.

I loved this just as much this time. I am so glad that the author did not end the book at the 24% mark like they originally planned. When I read that last night I was like what? I can't imagine if the book had ended

then and we didn't get all the awesome that came after. Oh, and the baby's name? Right on!

I am floating on an absolutely fluffy, rainbow colored, glitter sparkling cloud right now. Throw in some cute puppies and bunnies and just picture it. THIS BOOK WAS SO HAPPY. So pretty and just so f'n good! I laughed and I cried and I fretted. I love Stiles pregnant (MPREG) and I really don't do pregnant. I love Derek all Alpha, jealous and MINE. I love pack love, cuddles and feels. This had everything. Oh wait. This had ZERO sex and I just realized it. That tells you something because I didn't even miss it at ALLLLLLLLL!!! I don't think I have ever read an established relationship Sterek. I loved that and even better, in the 90% range I was rewarded for that love. My God these two could keep me reading and happy for the rest of my life. I am seriously checking out more from this author because this one rocked my socks off! L-O-V-E-D it! I feel like it just flowed beautifully and that the characters were spot on if you watch the show. The only thing that killed me a bit was that end. It was beautiful but then it was just over. I needed like two more chapters or at least an epilogue. More, more, more!

Read.

Dalia says

This is so fluffy! Everyone is super protective over pregnant Stiles and Derek is so damn happy when he hears the good news. There's no sexy times, but the feels make up for zero smut.

It's cute, marshmallow fluffiness.

I'm a bit bummed there was no on page nookie. I repeat, there is no nookie.

This is the first time I've allowed myself to read a story with an **MPREG** theme. It's a bit of a weird concept for me to wrap my brain around – logically speaking, cos **WHAT!?! *insert my flabbergasted face here***. In all honesty, I don't think I'm a fan. BUT – and it's a big but – this is **STEREK**, so how could I not love the idea of these two guys, who I'm certifiably nuts about, having their very own bundle of joy!?! The answer is: I couldn't. Even if I tried, which I didn't because why would I purposely attempt to repress any kind of Sterek joy?! Pfft! I'm crazy but I'm not *that* crazy. Ultimately, I looked past all the Mpreg weirdness and grabbed onto the fluffy sweetness that was this story, and I had a good time.

The pack feels were strong in this one, which is a favourite Sterek trope of mine. The boys were in character, which I appreciated. I particularly adored Isaac in here, too. I have such a thing for this guy, but then again, I

have a thing for **ALL** the guys - with the exception of Scott, because UGH (projectile vomit!!) – so I shouldn't have been surprised by my Isaac loving reaction.

The whole pre-established couple thing was done really well, but ultimately that's not something I'm generally into. I like seeing the whole “coming together” portion of a relationship in my stories. (view spoiler)

Plus, no sexy times! Like, zilch! *stomps foot like a petulant little brat*...

This is my own problem because I'm a creepy creeper who loves the hot Sterek loving. As my fellow pack peeps have discussed in their own (much better) reviews, the smexy times were not actually needed in this story and the lack of them didn't detract in any way from the quality of this fic - but that doesn't mean I didn't miss it. *sigh*

May I also just say how much I enjoyed all the baby naming discussions throughout this story. It reaffirmed my geek-girl status. There was one particularly awesome inner monologue that Stiles had about how, when choosing baby names, you should ask for lots of outrageous names first and then negotiate down to what you really want in order to get your way. This cracked me up. (view spoiler)
