## **Rock Hard** Kat Austen

First loves don't last. Especially one as unlikely and turbulent as Elodie and Caspian's.

It's been years since she's seen the rough rebel she fell in love with as a teen. She's put him behind her and moved on. That's the story she tries to sell her friends and family, but deep down, she knows it's a lie. She hasn't moved on from Caspian Cruz and she probably never will, but she has to finally give up hope they'll ever reunite.

Or does she?

When her friends drag her to a sold-out rock concert, she comes face to face with the lead singer . . . who just so happens to be the boy she fell for all those years ago.

She never thought she'd see him again. She never realized he'd made it in the music world. And she never expected him to confess that he's been waiting for her as long as she's been waiting for him.

What will happen when their worlds collide again? A repeat of the past or a second chance to get things right?

ROCK HARD is a short and sexy read, chock-full of excessive sweetness and heaps of filthy talking. Not for the faint or square of heart.

## Gi's Spot Reviews says

Rock Hard was the sweetest, most heart warming rock star/musician romance I've EVER read!!!

True, this is a genre a don't venture very often given my personal pet peeves, and specially the renown and usual groupie drama attached to the trope, but this sugary sweet smutty story had nothing of those!

What it did have was one smoking HOT, swoon-worthy hero, Caspian! Sigh...

Caspian and Elodie have been in love with one another since they were teenagers, so when after two years of dating they were broken apart by her parents, and Elodie thought she had lost her heart forever.

**Caspian. The first boy I'd ever loved. The only one I ever really had. The one who had promised me forever, only to make me realize forever was for storybook people, not real ones.**

What she didn't know was that her life was indeed storybook like, because not once, not even for a minute, did Caspian let go of her, and time and space meant nothing because she was always on his mind. She was his lifeline, his everything...

**"You," he whispered with conviction, his steps echoing around me as he moved closer. "All I want is you."**

Eight years passed, and just when she least thought possible, her life and heart rebooted, because right in from of her, as a rock star in a crowd concert was her First Love, Caspian Cruz.

**"So I made a promise to myself to not approach you until I'd made something of myself. Until I'd become a man worthy of a person as beautiful and talented and perfect as you are. Until I made myself worthy of your love."**

**"Caspian Cruz." I lifted my head from his chest and looked into his eyes. "You have always been worthy of me and my love."**

Of course that very fast all the misconceptions were cleared and they fast realized that they were still just as much in love and devoted to one another now as they were eight years prior.

**Caspian had always been like a drug to me, an addiction I could never recover from, even after almost a decade of being sober. He swam in my veins. He stirred my very being.**

**"Because I might want every part of you there is to have, angel, but right now, only one part is on my mind—the one part of you I've never had. I want to have it so I can know I've had every part of you. So I can say I've loved every part of you."**

Actually, if anything, their love shone even brighter now, because their repressed sexual craving (LOL) took it a whole new level, now that they were adults!

Caspian was already the perfect romance hero, with his immeasurable devotion to Elodie, but that extra dirty mouthed talk of his... Lordy... Not even Elodie was prepared – not that she was angelic in between the

sheets – specially considering their equal inexperience on that regard.

**“No, this isn’t making love wet. This is hard, rough fucking wet, sweet angel.” His mouth lowered to my ear, nipping at my lobe. “Is that what you want? Is that how you want me to take you?”**

I sure as hell loved every second of it! And it more than guaranteed Caspian a place on my best book boyfriend list – and the main reason for my five star rating -, because equal parts sweet, devoted, loving and panty-melting is something we don’t see in romance these days. And that is exactly what Kat Austen gave us, once again, in the most perfect and unusual – least for me, at least – of settings. I can’t wait for her next super sweet, sizzling hot, smutty read! <3 <3 <3 <3 <3

**“After all of this time, after everything, do you still want me? Do you still want a forever with me?” I wasn’t crying. Sobbing was a more accurate word. “I want forever and then some with you, Caspian Cruz.”**

**Every part of me loved every part of him. Every piece of me belonged with every piece of him. I was meant to share my life with him, and he was made to share his life with me.**

## **Sabrina says**

So cheesy.....I like it!!

I didn't mind the corny pet-names or the serendipitous way of finding your lost love.

It all worked and I enjoyed this little piece!! :)

++SPOILERS++

3.75 stars

Loved the story, points off for some wtf momments.

This is your typical alpha male, lovers since teens, separationbut reunited, hot romance.

I loved the plot but some things had me scratching my head.

How is it that HE found HER when SHE was the one who went to his concert and he saw her in the audience and went after her? How is that HIM finding HER?

He KNEW where she lived, booked his tours around her concerts yet never approached her? He was waiting for her to find him?

He loves her so much that he decides not to approach her for 5 years because he wanted to make it big first? Not buying it.

8 year being celibate.. a rock star... yeah right.

Regardless, I don't read these books for logic or reality.. this is total fantasy, and I still liked it. I only wish the author had the hero truly FIND her and go after her right away as an alpha male would.

The author missed a great opportunity. She could have had it where the two friends were in on him finding her. That they took her to his concert because he arranged it, as a surprise to her..THAT would have made more sense.

OK enough said.

Good, hot and short. Lots of dirty talk and both virgins.. I can't complain.

100% safe

---

### **Ann Lou says**

Can't remember the last time I read a rock star romance. The H is very refreshing for a rock in roll star. Too short but very sweet. I really enjoyed it.

---

### **Dana ~ The Dirty Smut'atter says**

3.5 Stars|4.5 Heat Stars

I am a sucker for a alpha rocker so I have very high standards when it comes to this kind of character line. I will say that well I did really enjoy the book it was just missing the depth that could have made it even better....

We are thrown into the music world from two extremes and forced pretty quickly to see how interwoven they actually are just below the surface. Elodie is a classically trained pianist whom is just drifting from one performance to the next always wondering what if. Caspian is the leader singer of Mortal Affliction which is the hottest new band. These two have been destined for some many things, but life happened and forced them apart years ago. All it takes is one night to realign what was forced apart and neither look back....true love is the strongest of forces!!

If you are looking for a quick fast pace reunion love story you will be happy with this one.

---

### **Nadine says**

[ they are going to marry a couple of minutes after their reunion? Common. That's absurd. Both being virgins... ??? Really? (hide spoiler)]

---

### **Eyvette Abreu says**

Cute 3.5 \*\*\*

Eloide is concert pianist who has recently broken up with an on and off boyfriend. She is out with her friends and they invite her out to a rock concert. She really doesn't need to be cheered up as she isn't broken up about the break-up, but they talk her into going anyway.

Little did she know how swiftly her life would change in attending this concert. She is shocked when none other than her true love Caspian is the headliner. She has not seen or heard from Caspian in 8 years. He was her first love and when her parents found out about her relationship with him they sent her away. She was seventeen and even though she has become a great concert pianist she has never forgotten Caspian.

Upon seeing Eloide, Caspian literally interrupts his concert to go after her. It was a sweet reunion, even though after 8 years of no contact, Eloide was quite forgiving. He did explain he had searched for her for years and when he found her she was moving ahead in her life. At the time he was broke and had nothing to offer her and decided to go after his dreams and become a worthy man for her. (That was sweet), but I still had a problem with why he didn't come after her after hitting it big. He also had been attending her concerts for a few years, so I was confused about the continued separation.

Their relationship moves at lightening speed. So I was still not too happy with Caspian and the fact that he let so many years go by, but all the preparations he had made with Eloide in mind softened me up. So freaken sweet. All his actions proved he never got over or forgot her and had been planning their future.

**"You", he whispered with conviction, his steps echoing around me as he moved closer. "All I want is you".**

---

## **Erika says**

3.5 stars

Sweet erotica. I didn't like that the hero waited for the heroine to find him, instead of going after her. He had apparently been a very rich successful rocker for awhile. I also would have liked about 20 more pages of non-sex interaction. But I liked that they were each other's one and only loves and sexual partners. This was a nice antidote to all the heroes claiming they love the heroine while separated, but still getting intimate with other women.

## **Chantal ♥? says**

### **3.25 RANDOM STARS**

**Now this book was going to be an EPIC READ for me with the two MC's being Virgin and faithful after an 8 year separation.**

However, one thing that was not clear to me going in was why the 8 years? I figured it would be a verity of circumstances that might have contributed to this. Maybe a mistake or a misunderstanding or simply the fact that they could not find each? Any of those reasons I could have understood but what it actually was...it was basically the fact that the hero could not MAN UP and come to her.

He felt *"...I made a promise to myself not to approach you until I'd made something of myself. Until I'd become a man worthy...."*

Or it turns out until she randomly shows up at his concert!!

Personally, I was not feeling the PASSIONATE NEED FOR HIM TO BE WITH HER.

He just waited patiently on the sidelines, and PLEASE note here that he had to know she was dating another guy as it said so in the beginning.

She says this *"Hans and I had been dating on and off for a couple of years. He was the conductor..."* whom she discovers has been cheating on her.

He admits to her,

*"Of course I was. I've been at every one of your concerts for the past two years, Elodie Taylor. In fact, I made my concert schedule around your concert schedule."*

Therefore, he had to know about her dating this Hans.

**Wow so for two years and while she dated another guy you just watched!?**

Yeah, this book was just not working for me here.

For me, he was so passive aggressive as an alpha that it was a fail.

**NO WAY WOULD AN ALPHA WATCH HIS GIRL WITH ANOTHER!?**

While his actions were sweet, essentially they all were dependent on a random series of events happening and not HIM making it happen or HIM taking charge.

Yes, he was ready for her and had been prepared for their eventual lives together but did he do anything to MAKE IT HAPPEN?

NOPE!

It was all on her! She tells him

*"Caspian Cruz." I lifted my head from his chest and looked into his eyes. "You have always been worthy of me and my love."*

She would have accepted him no matter what and he had to know that she felt like this. For the two years of their relationship she was content with what and who he was.

I know it's young love but it's still a relationship right?

Therefore, she was the one making all the moves. Even when it came to sex, she had to seduce him before he would even touch her.

I did not like that. It's like he could just cut it off and wait but she was desperately needy for him.

(view spoiler)THIS WAS NOT WORKING FOR ME!

Another factor that may have hindered my enjoyment as a reader was the limited POV. I needed to know Caspian thoughts and feelings. I think this might have set my mind at ease and allowed me to better understand his actions or inactions whatever the case may be.

In general, this was a nice story of second chances and it has all the elements to make it perfect, but sadly and regretfully for me it did not!

The epilogue was sweet and the heroine was the perfect blend of sweet and sassy. The hero's actions after they meet again are sweet also.

For me it was good but not great!

**Worth a read but maybe not a reread and I would gladly read another book from this author.**

**She has a wonderful gift for story telling that made me want to read more.**

**Enjoyable and sweet!**

**Safety is perfect without anything other than the heroine dating another but she does not have sex with him. I know nothing about the hero dating just that he was a virgin.**

---

**Leo (Queen of the Rants and the Crazy) says**

No OW/OM drama.

To me this was just ok.

They fell into each other so damn fast that my head was spinning.

I just didn't fell for his explanation on why he waited 8 years, he didn't went after her, she saw him at his concert, he said that he found her 3 years after she moved away with her parents but he wanted to be a better

man for her. I wonder if she didn't go to his concert without her knowing that she was going to see him there, would he had looked for her? I think NOT. SMH!!

Also she dated OM on and off for years?? And she didn't have sex with him? I find it really hard to believe that.

---

**Denna👉 says**

I really loved this I just would have loved more!! It was very short and basically all they do is have sex. I still loved it though especially since they both waited for each other lol

---

**Susan (susayq ~) says**

Quick and steamy read!

Elodie has been in love with Caspian since they were teenagers, but her parents moved her across the country to keep her from him. She goes to a rock concert with her friends and guess who sees her in the crowd? None other than Caspian, and he calls her name! It seems he's been waiting for her all these years.

Sweet and steamy and I enjoyed every word :)

\*thanks to Ardent PR for sharing a copy of this with me\*

---

**Jan says**

**Review for Rock Hard kat Austen**

**Quick hot read.**

**I liked Rock Hard it's an ok read, from the first chapters you meet Elodie a famous pianist playing at her concert then later meeting up with her girl friends.**

**The girls were instantly likeable characters, talking about men, having fun and banter before heading to a surprise rock concert for Elodie an attempt to cheer her up from her break up and cheating ex.**

**Elodie hadn't been to a Rock concert in years to many memories of the boy she had loved and lost, teenage love that got seperated by controlling parents protective over Elodie's career as a pianist and they took her away to another state, Elodie never got the chance to say goodbye or heard from him again.**

**That was 8 years ago.**

**Rock Hard is predictable with cheesy roll you're eyes hot sex scenes and a quick read.**

**Arc gratefully received for review Bbbf-sizzlereads-bestbookboyfriends**
