## Stage Left Ali Parker

From Best Selling Author, Ali Parker comes a new Billionaire Series filled with sexiness, humor and intense attraction...

Ethan Lewis has been in the bright lights for as long as he can remember. He's just turned the cusp of celebrating his twenty-fourth birthday, and yet he feels more like eighty. Living the life of a celebrity isn't all it is chalked up to be, and dealing with the unruly number of women who are more interested in his billions than who he is as a person is getting old. He has resigned himself to giving up on love and focusing on the only thing that truly gives back – his career.

Riley Phillips has always dreamed of being on a big stage with the warmth of the spotlight baring down on her, but she just couldn't seem to catch the right agent's attention. After giving a quick commencement speech as Valedictorian of her graduating class at Billmore High, she's offered something she can't refuse... The chance to work in Hollywood. It's not all it's chalked up to be, but she works hard and finally gets her big break four years down the line. There is a new movie that her agent wants her to audition for, and her co-star? The dreamy Ethan Lewis.

She scores the part, but soon regrets it due to his callous, overbearing persona. He's nothing like the public touts, and she for one isn't impressed.

Funny enough, he is - immensely.

This is book 1 in a continued series.

### Taryn says

Ethan Lewis has been in the bright lights of Hollywood sense he was a child, even at the young age of 24 it has already gotten to him. He is tired of the life and the women who are not interested in the real Ethan Lewis, but only in what they can get from him. That is until he sees a photo of Riley Phillips.

Riley Phillips has wanted to be in the spotlight, on stage or in movies since she was young, but she just couldn't seem to catch the right agent's attention. She was unexpectedly noticed after giving her commencement speech as Valedictorian of her graduating class and was offered the chance to work in Hollywood.

This book is hysterical, it will have you laughing out loud. The chemistry between Ethan and Riley is really HOT! Deza is funny, serious and a strong female. Charlotte and Liam are funny in their own ways. I'm dying to read the next book, learn more about the characters.

Ali you continue to surprise me. Great Job!!!! Stage Left

OMG...

This is the way to start a new series! Absolutely loved the entire story, and characters...well, with the exception of Ethan some of the time. He definitely needs a kick in the boo-hiney for being an idiot! Getting past that, there was definitely a great deal of under current going on between he and Riley, but they both seem to be unable to be straightforward...which is the cause of the problems! The story is not all angst and sorrow...I actually can't remember when I have laughed so hard I had to put the book down to catch my breath! My most fave quote from the book (not saying who or when) was:

"Hell yes, except with Dani. Can we do a scene where I dangle her ass over the side of a building and for some odd reason I greased up my hands with lotion first?"

I literally lost my breathe laughing when I read that. I highly recommend reading this story, and can not wait for the rest of their journey!

### Karen Shortridge says

I received this for my honest review. Absolutely loved this book, where do I start.....

The story begins with Riley Phillips, a drama student she is waiting for her chance on the big screen. She goes with her friend who is totally excited to go see a movie with a hunk of a man, Ethan Lewis. He is an

eligible bachelor, a billionaire and sexy who every girl wants.....

Finally getting the chance of her lifetime, Riley gets an audition with hunky actor Ethan Lewis. But things don't turn out the way they want. Both hiding their feelings and both end really confused, could they be on screen lovers ? Strong possibility..... off screen..... maybe not so much, there is too much to lose.

Ali Parker has a gift with words, that she uses to pull you into the story, and then you are totally hooked, I don't want to give anything away. You just have to read it for yourselves and I can't wait for part 2

## **Claire - The Coffeeholic Bookworm says**

A famous celebrity eventually realizes that being popular isn't always the best thing in the world. That the bright lights and sexy girls in his bed aren't the things that make him happy. Ethan Lewis knows that his name means billions and women flock him because of that name.

An actress wannabe desires to see herself in the limelight. She has a good head on her shoulders but the people who manage her simply do not share her sentiments. Until an offer to do a Hollywood film knocks on her door. Is this the moment of truth for Riley Philips?

These poles don't always meet but somehow manages to attract each other in the end. Ethan is easily enamored by Riley but he's such an idiot, he never knows how to act properly in front of her. He says all the wrong words while sending out those sexy erotic signals. Riley, on the other hand, is wary, in control, in denial. But when there's evident sexual tension, she falters and ends up getting disappointed.

Two contrasting characters, one opportunity of a lifetime. The stage is set for them, all they need to do is act.

Ali Parker has surprised me with this new series. I have always loved all of Ali's previous books, all of which are definitely tasty and yummy. This latest one's got me roaring and tumbling up and down. Ali never ceases to amaze me with her stories. Love the momentum that the characters had built, I love the excitement I feel whenever I get to read the next chapter. I love everything Ali writes. I can't wait to read more!

Absolutely loved this book! Oh.Em.Gee!!!!!!

Where do I start??

On screen lovers? Strong possibility. Off screen? Maybe not so much.

The story begins with Riley Phillips, a drama student, waiting for her chance on the big screen, totally excited to see a movie with a hunk of a man, Ethan Lewis. He is an eligible bachelor...did i forget to say billionaire and sexy? Yes. Sexy eligible billionaire bachelor.

Finally getting the chance of her lifetime, Riley gets an audition with hunky actor Ethan Lewis. But things don't turn out the way they want. Both hiding their feelings, both end really confused.

I can write forever about how this book is about, but I don't want to give anything else away. You just have to read it for yourselves.

But I have to say, it broke my heart..if you want to know why, you just have to pick up the book and read it.

Ethan Lewis has been in the bright lights of Hollywood for some time, even at the young age of 24, and already it has gotten to him. He is tired of the life and the women who are only looking for money instead of the real him..at least until he sees a photo of Riley Phillips.

Riley is attending UCLA following in her love of the arts and acting. She keeps waiting for her big break and finally gets it when she is asked to audition with Ethan for his new upcoming film.

These two have a fabulous chemistry in front of the "cameras" and can have one when off, but for some reason it is hit or miss. Each one is too worried about what the other person thinks...talk about a lot of sexual frustration! Riley was considering passing up her greatest opportunity to make a name for herself but Ethan convinces her to take the role. So looking forward to see where these two go with their relationship and hoping for a HEA! Received an ARC for an honest review.

## **Susan says**

This is another outstanding series by Ali Parker. Ethan has been acting for many years, and has become every woman's fantasy. Riley is a college student that has been doing commercials, but dreams of much more. Even before they ever meet, just from a picture of Riley, Ethan is very attracted to her. Even though Riley is also very attracted to Ethan, she does not want to show it. That chemistry between them though is way over the top. One of my favorite parts of the book, is the relationship between Ethan and his agent. That adds so much to the story. Ali Parker has a gift with words, that she uses to pull you into the story, and then you are totally hooked. One moment you are panting needing a fan, and then next you are laughing out loud. I now can't wait for book two. I received this book from the author in return for an honest review, and yes, I highly recommend it. I am looking forward to reading more about the monster of Ethan's.

## **Tara says**

Ali Parker has written us a new billionaire series filled with sexiness, humor and intense attraction between two amazing characters that I couldn't get enough of. I am waiting patiently, or not so patiently for book two, lol. She assures me it won't be too long.

Ethan Lewis feels like he's been in the bright lights forever, although he's just getting ready to turn 24. He's getting burned out dealing with the celebrity, the women that only want him for his money and fame. Ethan

wants to find a woman that will love him for him or not have one at all and since he fears that isn't possible, he's resigned himself to giving up on love and focusing on the only thing that truly gives back - his career.

Riley Phillips has wanted to be in the spotlight, on stage or in movies since she was young. She was unexpectedly noticed after giving a speech at her high school and she works her a\*\* off for her chance in Hollywood. Managers aren't what they seem and aren't always the best so she looks out for herself as well. She is going to try out for a new movie, but this audition is different. Ethan Lewis himself will be helping cast the part. It gets really interesting and EXCITING! ;-)

These two characters have awesome chemistry and a fun loving way with each other. I absolutely loved this book. Due to some issues Ethan has had, he can definitely be a stinker but Riley is the perfect counterpart for him. This gets HOT & SPICY PEOPLE and is a great read. Ali, thank you for allowing me to read ahead of time. I absolutely can't wait for the next book.

Stage left is book one in this new series by Ali Parker and if this first book in this series is anything to go by i cant wait for some book 2.

We meet Hollywood A Lister Ethan Lewis who has been in the bright lights of show business for he has been in it for as long as he can remember. Ethan is starting to get fed up of being in public eye 24/7 and all the trappings of being a celebrity. He feels lot older than his years, he is fed up with women who will only sleep with him for his celebrity status and his money. Despite feeling all of this he decides to take on as much work as he can so he can block out how he down he truly is.

Next we meet Riley Phillips who unlike Ethan has always wanted to be under the bright lights and enjoy all the glamour and trappings that come with being a celebrity A Lister. Unfortunately she is unable to catch her big break due to getting the agents looking over her every time.

Riley finally gets the chance of hitting the big time when she gets a call from her agent to go to a audition with she has an audition with hunky actor Ethan Lewis. But things don't go the way that she planned when she realises that Ethan isn't the nice guy he seems to be on the red carpet. She finds him nasty, arrogant and is not the least bit interested in a man like that. Riley gets the role and its not long before she see's the true Ethan Lewis and despite Ethan fancying from the start the chemistry that builds up between Riley and Ethan is red hot. But you want to knock some sense into them as both are hiding their feelings for one another which ends up 2 confused people.

Ali Parker has a that rare talent with words, that she will pull you into the story, and then you are before you know it you are totally hooked, and reading the whole book in one sitting it saying to those famous words "just 1 more chapter wont hurt".

I can't wait for part 2

### **Kristen Holt says**

Really good, really short read.

I'm not really a fan of cliffys, or of what should be a full length novel getting chunked up into smaller parts. It's like a crack dealer - the first hit is free, then once you're hooked, the rest are costly.

Because of this, I'm not really down with shelling out \$3 bucks each for the next four installments of 100 pages each.

Regardless, I want to reiterate, this was a good read. Nice angst, good push and pull against the instant attraction.

---

### **Felicia says**

This was a good beginning to the series book. I feel like it was definitely just a starter book and maybe this book could've just been added into the second book? Because seriously nothing happens in this book other than setting up for the rest of the story?

Anywho, this is Riley's story of her shot at making it to the big screen. She gets an audition to a movie to star along with the biggest man in movies, Ethan. He's hot af, a jackass, rude, and mostly an immature idiot. She catches his attention but he finds it hard to let himself go and just is always a dick to her instead.

As I said, nothing really happened in this book. Just some smut with the MCs being with other people. Which was just... meh. But I am still going to continue with the series because I'm intrigued enough to wonder wtf is going to happen to Ethan and Riley.

### **Theresa Nowaczyk says**

Completely fell hard for Ethan and Riley's story! I simply could not put this down once I picked it up. I planned on reading a few chapters before bed, but I engulfed every single delicious chapter in one sitting. The push and pull between these characters is real, frustrating, but oh so good!

I loved going through the ups and downs with these characters. This book made me smile, laugh, cringe, and then finally want to break my reading device in two. However, in the end I'm glad I didn't because I'll need it for the second book. That ending though... Loved it! Not to mention that heated audition scene. Wow! I quickly recovered from the sadness that I hit the end of the book once my mind ran wild with the realization of where this series is headed. Stage Left is exciting and worth every page.

This is my first book by Ali Parker who kindly sent me an advance review copy in exchange for my honest review. My honest review says that Ali Parker now has me twisted around her little pinkie finger. Thanks for making me wait and suffer for book two Ali Parker! Lol! Not cool! But, I love you for writing this book!

You can find me waiting in the audition lines for book two! This is my honest review of Stage Left by Ali

Parker!  
Must Read!
