Talkin' Up to the White Woman: Indigenous Women and Feminism Aileen Moreton-Robinson

Revealing the invisible position of power and privilege in feminist practice, this accessible and provocative analysis elucidates the whiteness of Australian feminism. A pioneering work, it will overturn complacent notions of a mutual sisterhood and the common good.

From Reader Review Talkin' Up to the White Woman: Indigenous Women and Feminism for online ebook

Beth says

Really great knowledge and should be essential reading. Would have given 4 stars, however the academic language makes this an inaccessible read for many.

Not Without Bias says

I consider this book essential reading about the whitewashing of mainstream feminism. Whilst it's geographical context is Australia, it has global relevance. It is written for an academia audience and unfortunately wont be accessible to everyone for this reason.

Ariel says

The academic language used means that it can be very dry or even inaccessible to the casual reader. Having said that, this is an extremely worthwhile book, particularly for white Australian feminists.
