**Lights. Camera.**

**And a whole lotta action...**

Globe-trotting fashion photographer Ivy Nelson is home to help her family out of a jam. When she donates her services to a charity calendar, the last thing she expects is hunky firefighter—and object of all her hottest fantasies—Cade Hardesty to walk through the door. Cade is ready to get naked for a good cause, and the heat Ivy feels is anything but professional.

When a sexy dare turns into a scorching kiss, they can't help but give in to their desires. But Cade wants Ivy in his bed for more than one night. Can the hometown firefighter convince the photographer that her wanderlust should lead her into his arms for good, or will one of them run before they both get burned?

## From Reader Review Triple Dare for online ebook

### Danielle says

Ivy has had a thing for Cade since they were younger but of course he only saw her as a friend. Now that she is home to help take care of her father Cade is noticing her curves but of course he doesn't want to ruin a good friendship.

Cade is a ladies man and his ex will not leave him alone. So Ivy offers to help her get the picture but soon things start to heat up and both go up in smoke.

I liked the characters and the way they were written. Ivy was made fun of when she was younger and now that she is older she has shed her baby weight and is all curves. Some still call her fat but she owns her body which I loved. I liked how Cade changed his ways and wanted something with her. He wanted her to have her career and yet stay with him.

The way Cade got hurt was on the unique side and I'm glad it had nothing to do with a fire. Cade stays with Ivy while his broken leg heals and they become closer.

One thing I love about blaze books is that they are so much hotter and feel more realistic.

This is the first book I have read by this author and I liked it. Although the plot had its originally moments I felt the charity calendar has been over used in romance novels. I would have loved to see something a little different and more unique.

Is this book worth the read? Yes because it's cute and has a friends to lovers story. I always find them the best reads.

---

### Mandi Schreiner says

Ivy Nelson comes back home after years away following her dream of photography. As one of the best, she has done celebrity weddings and supermodel shoots. But when she hears her father has had a heart attack, she comes back home and offers to help with the family's nursery until her dad is back on his feet. When the local photographer gets sick, Ivy is called in to shoot the annual firefighter's calendar.

Cade Hardesty is a firefighter - who gets assigned a g-string and a kitten for his photo shoot. He can't believe his best friend's sister is back in town. When they were young, the three of them would get into a lot of fun trouble. Cade knows he has a good body, but parading it around almost naked in front of Ivy turns up the heat. When Cade has an annoying ex girlfriend who won't leave him alone, Cade dares her (as he dared her in her younger years) to pretend to be his girlfriend for one day, so maybe the ex will get the hint. Their pretend kisses turn into steamy make-out sessions and they realize their friendship might be headed to romance land.

I thought this story was so cute. It's your typical best friends to lovers/small town story, with even the hot

firefighter holding a kitten scene. But the story is fast-paced with very likable characters. Ivy dealt with weight problems as a child, but now that she is an adult, she is proud of her curves and shows them off. She is the one that pursues Cade, wanting to explore a romantic relationship, while he is more scared of jeopardizing their friendship. I liked her forward nature and confidence.

Cade's a really good guy, with some nice friendship banter and firehouse scenes included. There was even that time that Ivy left pasta boiling on the stove and left the house for a minute, locking herself out. So she decided to climb through the doggie door and gets stuck. Luckily the house has an automatic-call to the fire station.. But unlucky for Ivy, she is still stuck in the doggie door when Cade arrives. There was a lot of giggles.

This is the first time I've read this author and I enjoyed her voice. On to looking up her back list.

Grade: B

### **Lora says**

3 ½ out of 5 stars

This story was good, but fell just a little short for me. I enjoyed the characters - Ivy and Cade - and I enjoyed their playful banter, but I just didn't connect with them like I sometimes do.

Ivy has been all over the world as a fashion photographer, but came home to help take care of her dad after his heart attack. Her home is a small town full of people who have tormented her most of her life. Cade is her twin brother's best friend. He is also her first love and a totally hottie!

I liked that the author didn't immediately throw them together and that they actually fought the feelings a little longer than some other books, BUT when they got together it wasn't as electric as I was hoping for. Although in following through on the first dare, Ivy wore Cade's extra jersey to his softball game and this line in the book made me excited to see where their relationship would go:

“Damn.” He eyed her up and down, his baby blues leaving goose bumps in their wake. “My shirt never looked so good.”

And their connection was good, just not the intense one I was anticipating.

Having been my first book by Ms Kyle, I didn't know the other characters in the story, but she did a pretty good job of incorporating them into the story without making me feel like I missed too much, but included just enough story to inspire me to read their stories, too.

### **Kathy Wideman says**

This book was a great read. Ivy and Cade have known each other practically their whole lives. Cade is Ivy's twin brother Gabe's best friend; she was just the sister that tagged along all the time and never backed down from a dare. Now they are all grown up and Ivy has come back to town to help with the family business after

her father had a heart attack. She is asked to take over photographing the firefighters for their annual calendar. This brings Cade and Ivy together again and starts then down a path Ivy has wished for a long time. This leads to a dare and a dare leads to more. Ivy has never backed down from a dare in her life. Owing Cade for a dare that was never completed in high school she agrees to help him get rid of a clingy ex by pretending to be his new girlfriend. This works for Ivy as she has had a crush on Cade since high school. She hopes to get rid of the ex and make Cade see her as more than a friend for once. It works Cade is beginning to seeing Ivy as more than just his best friend's sister. Will things lead to more for them or will the fact that Ivy could leave any day make things harder than they have to be? Cade is worried at first about what Gabe will think but then as he begins to feel more for Ivy he worries about her leaving and if he is worth asking her stay. She deserves the world and more than he can offer her, but does Ivy want the world or just Cade in hers? This book was a fun read. The characters are fantastic and not just Cade and Ivy either. I loved Cade's friends at the fire house. I felt bad for Ivy after reading about how she was treated in school. She stayed away because of them and then missed out on her family because of it. Cade is like most guys oblivious until its right there in front of him and then he notices. He feels bad for not doing more for Ivy when they were in school. But, truthfully I don't think Ivy let anyone know how bad it was. I haven't read the first two books but I have put them on my TBR list after reading this book. Reading about how Ivy and Cade came together was great and there story was kind of all over the place. I look forward to reading more books by Regina Kyle in the future. I was given this book in return for an honest review.

### **Fiona Marsden says**

This was another good read in the Art of Seduction series. Cade is the type of guy I'm not keen on, a serial shagger. In fact when we meet him first, he is on his way to a date with a blond bimbo who turns out to be a major stalker. Not cool and not very heroic.

Ivy has known Cade forever as he's been her twin brother's best mate since kindergarten. She liked him, a lot, but she was the chubby girl at school and paid the price in humiliation so she and Cade stayed in the friend zone.

Now a dozen years later, she's back in town, a famous fashion photographer and quite a few pounds lighter, but still curvy. Suddenly Cade is wondering why he never noticed she was a girl before. Shallow twat. But hey, we have to have a character growth arc. Sort of like Jack Black in that movie with Gwyneth Paltrow.

Their first meeting is when she has to photograph him for a sexy fire fighter calendar. \*objectifies\* It would make a great scene in a movie...with maybe Chris Hemsworth as Cade. Anyway...

What starts out as a dare to protect Cade from stalker bimbo turns into so much more when the sparks light up just from a kiss. When events conspire to put them into the same house for six weeks it's a conflagration. Lucky he's a fireman...with a big hose... OMG this book is corrupting me.

Overall this was a cute read with a light touch on some big issues. It came complete with "big gesture" so it all worked out...now I'm seeing Chris Hemsworth working out. That's probably enough excitement for one day.

## **Melissa says**

### **A Fun Steamy Romance**

This book was a totally fun and refreshing romance. It's light and sweet and has zero darkness. The author has done a great job with the writing. I absolutely love her wit and sense of humor. The plot is great while not being exactly a new idea of a childhood crush taken into adulthood, but it is so well written that it doesn't feel like you've read it before. The characters are so real and enjoyable and relatable, especially Ivy. Lets not forget that the steamy scenes are make-you-sweat hot. A totally feel good romance. I was generously given a complimentary copy of this book for an honest review.

---

## **Carra says**

Right off the bat, I have to say that I loved the fact that Ivy's character used to be a big girl when she was younger-and that she's still a average-sized woman now in this story. It makes her character very easy to identify with for me...and the fact that she knows what she wants and goes after it is a big plus as well.

Cade is pretty damn great--extremely hot and sexy firefighter who knows how to cook, and here in *Triple Dare* he's that player that is finally going to be corralled by "the one"...or will he? There's also a good, solid cast of supporting characters that have me wanting to dive in to the other books in this series.

This story puts together a couple of my favorite romance tropes-the player finally meeting his "one" and the brother's best friend-and gives you a really fun, sexy read. For me, Cade seemed to be denying his feelings during the first part of the book which was a little frustrating, but once he gets past that the story settles in, though there's some predictability in the plot.

*Triple Dare* was pretty entertaining, and it's piqued my interest in the author's other books in the series (oh yes, you don't need to have read the others to enjoy this one-it is definitely a standalone). It was a 4-star read for me, and I'd recommend it to romance fans who like a nice dose of steamy scenes in their stories ;-) Now to find out where I can get one of those calendars from the book...

---

## **Jane says**

I want to send my thanks to Regina Kyle, author and Goodreads First Reads Giveaway for my copy of *Triple Dare ~ The Art of Seduction* that I won in the Giveaway.

Sexy world-class photographer and his best friend's twin sister, Ivy Nelson is back in town to help with the family business due to her dad being ill. Cade Hardesty, local firefighter is set to pose for a community calendar and Ivy is filling in to take the pictures. This starts bringing Ivy's fantasy of a romance with Cade into a reality.

*Triple Dare* is full of crazy dares and fun to keep it light-hearted while the romance develops. Throw in a crazy ex-girlfriend, lots of interference from Ivy's family and Cade getting hurt on the job to make this a delightful story for romance lovers.

---

### **Tracey says**

Oh this book was so good! It was one of those that gave me the feels. I laughed, I cried and I empathized with Ivy.

### **Kathleen R. says**

Overall Stars: 5 STARS

Charity  
Firefighter

From fashion photography to charity calendars, this photographer will find out what firefighters have to offer. Globe-trotting fashion photographer Ivy Nelson is home to help her family out of a jam. When she donates her services to a charity calendar, the last thing she expects is hunky firefighter—and object of all her hottest fantasies—Cade Hardesty to walk through the door. Cade is ready to get naked for a good cause, and the heat Ivy feels is anything but professional.

When a sexy dare turns into a scorching kiss, they can't help but give in to their desires. But Cade wants Ivy in his bed for more than one night. Can the hometown firefighter convince the photographer that her wanderlust should lead her into his arms for good, or will one of them run before they both get burned?  
(Amazon Blurb)

This is what women dream of when they think about firefighters: cut, strong, protective and so very tempting to the skeptical. For once the calendar that we'll pick up from the stand, the men that will be thumbed through will be those straight out of women's fantasies. Ivy is hilarious – she doesn't hold herself back from saying what she needs or wants to say – she is also passionate, artistic and caring but does not want forever. On the flipside, Cade is a man who protects, is a man who doesn't believe in right now, but in forever. Regina Kyle's novel was simply put, hot!! I loved the dynamic between Cade and Ivy, their banter, the easiness in which they can speak with each other and the chemistry that made me wish I could become Ivy for some time. I must admit that considering Triple Dare is part of the Harlequin line, in a store, I never would have thought to look at it, however having had the chance to receive a copy from the author I must admit that I have been reminded that you can't judge a book by its cover.

\*\*Received a copy in exchange for an honest review. Read and reviewed by Kathleen for Alpha Book Club\*\*

### **Susan says**

Great, Great Story. Ivy and Cade have known each other since grade school, Cade is her brother's best friend. Ivy was teased in school for having a curvier figure than most the other girls, this made Ivy very self

conscious around people but it also helped her become a strong person. After school she decided to move away from her small hometown to escape bad memories and mean people. She returns home to help out in the family business after her father suffers a heart attack. She is a rising fashion photographer and while home to keep busy she offers her help to one of the two local photographers who has been ill. She helps with a calendar shoot of local firemen for a school fundraiser. It just so happens that one of the hunky firemen happens to be Cade. Ivy has had a crush on him forever but he has always looked at her as his best friend's little sister. Cade and his fellow firemen respond to a call of a kitten stuck in a pipe in the process of rescuing it he hurts his leg and he has to have a cast on it. Now he has restrictions and limitations, no climbing stairs this creates a dilemma since his apartment is on the second floor of his complex. So Ivy offers for him to stay with her which works out fine but the heat between them is becoming more difficult to ignore. But she is suppose to be leaving once her father is better so what will they do? This book was a real page turner I truly enjoyed the story.

---

### **Nerdy Dirty & Flirty says**

This was a cute book. I enjoyed the story line about finding love when you least expect it. Loving your brothers best friend seems to never be easy or attainable.

Ivy and Cade had been friends since kindergarten. Always hanging out and causing a little trouble here and there. She had a crush on him for the longest time. But realizing that nothing would happen, Ivy moved on with her life and got out of town. Returning home for visits and nothing else.

Now she was home for a visit and was asked to finish a charity calendar. With Cade being Mr. December. The story starts off with a bang. Not having seen it each other for twelve years. Those years have been good for both. Ivy now comfortable with herself and Cade finally seeing her as a woman.

When Cade dares Ivy to pretend to be his girlfriend to get another woman off his back, he never expected to actually have feelings for her. Well his "dare" went as well as he thought and now the two are spending a lot of time together. And of course sparks fly, things happen, and they decided to hide it from everyone. When Cade gets hurt, he moves in with Ivy, since he can't climb stairs in a cast. All is going well until they get caught red handed, literally in the middle of the act, by her brother Gabe. I definitely had a laugh out loud moment. So they get caught, they still have to deal with the crazy ex, who thinks she is better than everyone, and then Ivy's boss calls with a job she just can't refuse. Or can she?

While thinking about whether or not she wants to stay home for love and possibly being a photographer in her home town, Cade makes that decision for her. How he does that I won't tell though. Can what happen possibly be the end of the "dare"? Or does everything work out for both Cade and Ivy?

---

### **Heather andrews says**

Cade's compliments can melt your panties off, they're that damn sexy, "damn." He eyed her up and down, his baby blues leaving goose bumps in their wake. "My shirt never looked so good." she eyed him right back, lingering a little longer than necessary between his legs, where the baseball pants weren't hiding anything."

When it comes to his woman Cade's willing to play dirty, "he lowered himself onto the sofa and laid his crutches on the floor. "Do your rules include doing the deed? Or at least some heavy petting? Because I'm feeling kind of lonely down here. And horny." I really enjoyed this book I loved Cade.

### **Voluptueusement Votre says**

<http://www.voluptueusementvotre.fr/20...>

Si vous recherchez une histoire sensuelle digne d'un conte de fée alors n'hésitez pas à découvrir Contre tes lèvres de Regina Kyle.

Ivy et Cade ont une relation particulière ayant passé toute leur enfance ensemble. Ils se connaissent sur le bout des ongles ce qui va considérablement compliquer leur histoire.

D'un côté Ivy est une jeune femme blessée et terriblement complexée. Elle s'est éloignée de Stockton et des siens dans l'espoir d'avancer dans sa vie. Elle a une brillante carrière cependant elle est fatiguée du rythme qu'elle s'impose. En revenant pour aider ses parents, elle se rend compte qu'elle n'a rien oublié et surtout pas ses sentiments envers un certain pompier sexy à souhait.

Cade est le meilleur ami de Gabe le jumeau d'Ivy. Vous comprenez donc que le risque de céder à ses pulsions est grande. Ajoutez à cela le fait que les Nelson lui ont apportés tout ce que ses parents ne lui ont pas donnés et vous obtenez un homme d'une loyauté sans faille qui refuse de perdre sa famille. Il est également réputé pour être instable avec les femmes refusant de s'engager, aimant avoir sa liberté.

Malgré tout, la situation va très vite se corser lorsqu'ils vont ressentir une puissante attraction l'un pour l'autre. Leur confiance, leur complicité et leur facilité à s'accepter vont les entraîner dans une histoire aussi insensée qu'érotique. La personnalité d'Ivy décontractée, coulante additionnée à la gentillesse et l'intensité de Cade vont faire de ce couple, un couple époustouflant. Naviguant entre joie, espoir et désir de se protéger, ils vont devoir se poser les bonnes questions et affronter leurs appréhensions.

Ce livre est un livre vraiment très sympathique où les situations et les affinités des personnages sont bien maîtrisés. J'ai pris beaucoup de plaisir durant ma lecture grâce à la fluidité des enchaînements et la façon dont Regina Kyle a réussi à faire évoluer leur relation. Tout est fait pour nous amener vers un très joli happy-end

Je dois vous avouer que c'est le premier livre de la collection sexy que je découvre chez Harlequin. Je suis agréablement surprise et ne manquerez pas de réitérer l'expérience pour mon plus grand plaisir.
