Serena Grey

**Undeniable** Serena Grey

*“Protest all you want,” he says, “It won’t change the fact that this thing we have between us, it’s undeniable.”*

Olivia Wilder fell in love with Jackson Lockewood the first time she laid her eyes on him. She gave him her heart and her love, and ended up alone, heartbroken and with scars that were almost too much for her to bear.

Seven years later, they cross paths again. Jackson is everything she remembers, only more irresistible. Underneath his disdain, his desire to possess her lights a response within her, but she has no desire to rekindle their past, or face the pain of all those years ago.

However, Jackson has no intention of making it easy for her, this time he’s determined to make her pay for the past, and for the future they should have had, even if it means destroying her in the process.

### Anna says

Short ❤️? sweet ❤️? sexy❤️? 3.5 stars ❤️?

---

### Elodie says

Honestly ? **Jackson had no right to be angry at Olivia.** Actually, I still don't understand WHY he was. **There was not one thing in the book that justified his anger toward Livie**, not ONE. He was just an asshole incapable of recognizing his own faults and incapable of apologizing, so he took his frustration out on Olivia. I mean, when you are not mature enough to admit that you were wrong and you should grovel back to the woman that you love because you hurt her without reason, you just don't deserve her. And that's exactly how I felt : **he didn't deserve her, far from it.**

I just didn't understand the hero (and **when I say "didn't understand", I mean I kind of hated him**).

---

### \*J\* Too Many Books Too Little Time says

3.5 Stars!

Yup, pretty much sums this book up.

The story flashes between the past and the present.

#### Past:

Olivia is new in town, her father works for the Lockewoods who are a prominent family in town. Olivia be-friends Jackson and Blythe Lockwood. Jackson is older 19 to Olivia's 15 (I think). Olivia crushes on Jackson pretty hard.

After the death of Olivia's parents, Olivia moves in to the Lockewood home known as Halcyon. Over the years, Olivia and Blythe become best friends and on Olivia's 17th birthday, she and Jackson hook up.

They keep their relationship hidden, sneaking around. Jackson is in town for his college graduation party when the "big misunderstanding" takes place. Where everything gets blown out of proportion. Everyone over reacts and I just wanted Olivia to spit it out. Tell everyone the truth.

Gah...it was frustrating.

**Present:**

Flashforward six years. Olivia is now a photographer. She's been asked to photo Halcyon. The house that is filled with so many painful memories from Olivia's past.

She hasn't seen Jackson in the six years since the "big misunderstanding". Olivia never stopped loving Jackson over the years. And despite what happened all of those years ago there's still a strong attraction between the two.

Jackson has been mad at Olivia all these years for what happened. Which made no sense to me....especially since he knew the truth all along.

I kind of felt the ending was rushed...but this was a pretty short book. Not quite novella length, but close. It was a bit on the angsty side.

There were a few steamy scenes....overall it was a decent second chance love story.

---

**Heather andrews says**

Sure Jackson let's pretend it hasn't been seven years since you've seen Olivia, "Jackson steps out of the doorway and walks down the stairs into the sun. His walk is a long loose, and devastatingly sexy stride. He saunters right up to me, and smiles, momentarily disorienting me. "Welcome back Olivia," he murmurs. "How long has it been." You know Jackson took awhile for me to like him I mean the boy is just an a\*\* sometimes, "how easily you dismiss me." He murmurs. "I should warn you that I'm not so nonchalant about your presence here. Frankly I don't know if I want to hurt you for coming back her after everything, or eff you till your body can't take anymore." I must say though I fell in love with him when he took care of business, "...I was so not forgiving when I found out. Carter's beautiful face will always be ruined by a broken nose, and Lindsay," he grins almost malevolently, "I doubt she'll be inviting me over again anytime soon." I really REALLY loved him when he takes care of his girl, "I'm going to run you a bath," he announces, "and get you something to eat, then I'm going to make love to you, in the bath, and on the bed. I promise to make you forget everything but my name, and the feel of my hands on you." I really liked this book about second chances, and was glad the characters got their heads out of their a\*\*es.

**Dina says**

I received this ARC from the awesome author in exchange for an honest review, so here it is..

4 and 1/2 - 5 Breath-taking stars!!

WOW! WOW! WOW!!!

I'm totally in love with this book!!

It was short, but that didn't dim an ounce of how beautiful it was. It got me hooked right from the start and till the last word! Loved how a few things remained a mystery till the end. Loved how the characters came together in this story.

Again.. it was PERFECT!

And this baby was *steamy*!

Can't wait to read more of this beautiful work!!

Great job!

### **Terri ♥ (aka Mrs. Christian Grey) says**

Quick review:

**Cover:** Nice

**Rating:** NC-17

**Staminess:** Sizzling

**Thumbs Up:** 4.5

**Overall:** Wow, I read straight through

**Characters:** Well Done

**Plot:** How to overcome a misunderstanding to gain trust

**Page Turner:** Yes

**Series Cont.?** N/A

**Recommend:** Yes

**Book Boyfriend:** Jackson

### **SUMMARY** (60 words or less)

I wasn't a Jackson fan until the very end, but I couldn't stop reading. In many ways I wanted Olivia to move on, but the story was certainly compelling.

For a full review and yummy pic, see my blog post at:

### **Isabell says**

Before you even think about reading this. Let me save you the trouble. This story is about a young fourteen yr. old. She has a huge crush on Jackson who is 4 years older than her. She lives under the same roof because her parents get into a car crash. Her 17th birthday he takes advantage of naive Olivia. All she ever thought about was Jackson. She thinks he's an Angel the way she describes him. By Chapter 10 he's a 21 year old pedophile. Chapter 9 he was a douchebag. Who carries a condom around unless they know they are going to get lucky? Also in Chapter Ten Blythe's boyfriend Carter Felton tries to rape her. Everyone casts blame on Olivia and She never speaks up! I thought before chapter 10 that she did something horrible but all she did was not speak up. Jackson never will deserve her. Olivia was wronged no one else. I don't see any groveling. Olivia deserves better but she keeps thinking about him. I say punch him in the balls and get it over with. What a horrible story. The end.

### **-y.a says**

#### **3.5-stars**

#angst #steam #misunderstanding #teenage crush

The story is about a young fragile love affair and a second chance. The characters are well-developed in this angst book.(157 kindle pages) Olivia isn't a strong heroine by any means. She bottled up her emotions and feelings throughout this novel. I have been trying to figure out why she didn't irritate me?! Surprisingly it is a good read for me.

---

### **lynn♥?lynn says**

Absolutely loved it. What a great read. Loved the movement from past and present, slow movement forward showing how Jackson's and Olivia's relationship had developed and been destroyed all at the same time. Their love for each other is electrifying.

Once started I couldn't put this book down. I was totally absorbed in this story line. Intrigued at the start at what exactly had happened to Olivia, and then how the relationship came about.the sex is sooo hot, and you can feel how they can just not keep their hands off each other!!!

Will be reading this again.

I received this book as an ARC in exchange for an honest review, but this has not influence my review!... Fantastic.

### **Didi says**

#### **4.5 SECOND CHANCE STARS!**

I loved this. Loved, loved, loved it. Finished last night and I can't stop thinking about it. It was short, not a novella, but a short book. It was emotional, evocative, heartbreakingly beautiful.

Olivia is a successful photographer that's heading back to the town she spent a significant part of her life, Foster, NY. She's on assignment to capture images of an historic home for a renowned magazine. Problem is, she hasn't been back in years. And for a reason. Jackson Lockewood owns the home. He's the boy she fell in love with all those years ago, and the man that still haunts her broken heart. Something bad happened at that

house. Something that affects Olivia till this day. Staying away from Jackson was deliberate. But one week on assignment threatens to change all that.

#### ONE WEEK

Can Olivia handle seeing Jackson again? He doesn't know what really happened all those years ago, and she wants to keep it that way. But Jackson has other ideas. He's angry and upset. Wanting to rectify the past is the first of his desires, and seeing Olivia again stirs in him things that never really went away. But can Olivia get through this week with him? Can she hold on to her heart long enough to escape repeat devastation?

I can't even explain how much I loved this. It was so emotional, I teared up several times. It's told in Olivia's pov and I honestly felt her pain. She tried to hide behind a veneer of disinterest, but it was taking it's toll. Jackson is also hiding beneath an air of dismissiveness and pride. But his feelings are thinly veiled when it comes to Olivia. The air crackles with attraction and unresolved feelings and reading this I felt it all. I love the way Serena Grey writes. Her Dangerous Man series was great. The relationship between Olivia and Jackson was so affecting, so emotional. And the other thing I loved? The sex scenes were not essays. Condensed steamy scenes are more raw, more evocative, and this was perfect in that aspect.

So why not 5 stars? I needed an epilogue. DESPERATELY. I loved the ending but an epilogue would have tied up loose ends beautifully. An epilogue in Jackson's head would have slayed me. I really wanted to be in his head. Jackson reacted badly to something years ago, something that singularly affected Olivia till now. I wish he had had more faith. And Olivia. When that stuff went down years ago I was screaming for her to say something!!! I can't imagine anyone in her position staying quiet. So those are my minor issues. But despite all that, even considering it all, I LOVED THIS.

I'd love to know more about Nick. He intrigued me. Maybe something with Blythe? That would be so great. Maybe a peak into Olivia's and Jackson's future too? Really looking forward to reading more from SG, loved this.

#### Mary says

In all honesty, this was more of a 4-star read for me. But at this point where I try so hard to squeeze in some reading time in between everything I'm doing, all I need and want is a book that can make me really FEEL. I need a certain read to not waste my time with a meh-kind of storyline. Serena Grey's officially among the authors that I'll watch out for whenever she has a new book. I loved her A Dangerous Man series and Undeniable was a home run for me as well, as short as it may be compared to other full-length novels. And the fact that it hit something in me so hard, which was something that was lacking in the previous books I've read, it merited a five stars.

(Although this book needs some major editing with spelling and grammar. It's a good thing I really didn't let those small errors hinder the emotional aspect of the story.) Go read it!

---

#### Tate says

I really liked this book, enjoyable easy read with not heavy stuff which I am very used to.... not also that dramatic...when I read that blurb I thought that the books is going to be longer with more drama and problems but then again the story is based on misunderstanding so there is also not huge base for a drama queens performances... but still nice read...kinda like sighting trough it all... so cute...

---

### **Duchess Nicole says**

#### **3.5 Stars**

I enjoyed this...it reminded me a bit of Linda Howard's Shades of Twilight, what with the underprivileged orphan girl being taken in by the well off rich family and subsequently falling in love above her station. The big difference between the two is the length of this one...it's pretty short...and the big misunderstanding was pretty awful. I thought that Jackson believed the worst of Olivia way too easily, not to mention the rest of the family. If I were Olivia, I'd have washed my hands of them too. And for goodness sake (view spoiler)

Honestly, I felt that more apologies were in order. Olivia did nothing wrong, imo, but she was villainized for nearly a decade. It's the vindictive bitch in me that wanted to get more groveling, from everyone involved.

The sex was pretty hot, but the sexual tension was top notch.

**"Give in to it. Sweetheart," his voice is soft and tempting. "You know you want to."**

I lurve me some drawn out sexual tension, and it was delivered in spades here. Another thing that I loved was how Olivia had moved on, pulled herself away from her less-than-stellar beginnings and made something of herself, someone she could be proud of.

Overall, a nice sexy, angsty story for when you want a book you can sit down and read in one night.
