#### **Okay**

Overall i enjoyed the book. I did however feel like some parts were left out throughout the story. I felt bad for lyric from book one but i was glad she was able to stand ten toes down and achieve her dreams.

#### **Yes sir**

Omg ur series is so lit. I loved that life Jay momma got her karma. But I hate that they had to lose a brother in the process. But everything came out with a happy ending.

I was sad at the end of part 3 because I didnt know that there was a part 4 but I found it . LOL , this Series was a great read. At first I felt bad for Maya but once I found out what she had done I took all my Sympathy back , she was wrong and should have known that would have made it worse with Payne. trying to hurt her friend thinking it was going to get her man back. Im happy for Tammy and most of all for Lyric after everything she finally came out on top.

Okay but...

This one was okay but it still left things open, like why Gleek was pointed out as being familiar when they went to ATL. What happened with Chelsey, did she graduate what? The investigation and why point out she was sharing needles if nothing was going to come of it? Overall this one was just okay.

#### **Great ending**

This was such a great ending . Loved the way Payne loved Lyric and helped her see that she was beautiful and worthy of love . I was so happy Andre stayed true to Tammie I was worried that he would slip but he

stayed true to her . Both couples got their much needed happy ending ?

Daisy got what the he'll she deserved which was being a crackhead homeless on the street... lyric and Payne got their happy ever after as well as Andre and Tammy... highly recommended series

#### **Such a Great Ending!!**

Maya just didn't know when to let go, so she lost everything. Lyric and Payne got the happiness they deserved after overcoming all obstacles. So proud of Andre's growth to become the man his family and Tammy deserved. The boys dedication to Gleek was beautiful. Poor Daisy.. still doesn't get it.

#### **Omg**

This book was so freaking good. I finished reading the whole series in a day and a half. My emotions were crazy reading this book but it was so worth it. Lyric deserved everything she got and more because the things she went through was so depressing.

Great ending to a great series and I loved every minute of it. Picked up right where the last installment left off. Held my attention from beginning to end and then some and I hated to see it end. Loved the storyline and plot and it flowed really well, a page-turner. I was so glad that the brother were able to get their brotherly bond back and have each other's back. Andre finally realized that Payne and his father really loved him and only wanted what was best for him. Really enjoyed the sisterly bond with Lyric and Tammy, they both needed each other. So glad that the couple got their happy every after and addition to their families. Maya and Daisy got what they deserved. Highly recommend this series. Job well done Tasha Nashay.
