This book is so fun! My girls love doing the quizzes (which eats up time) then following up with a creative activity. Just like her other books, the activities are imaginative yet simple enough to do without tons of set up or purchasing random materials. The activities are challenging enough for my older daughter, yet can be tweaked to accommodate my younger daughter as well.

Rebecca Garcia says

Great questions and activities. The perfect test for a young girl like me!

I won this book through Goodreads Firstreads and just got it in the mail today! My 12 year old daughter has done the first quiz and loves it already! Great to have around for the kids, because I HATE hearing, "I'm bored!" Gives them some ideas to keep them occupied.
