### **Kathleen May says**

Cute. But I like The Anvil of the sun better than this one.

Cauldron of Iniquity was actually the first Cloak and Dagger novel I picked up. I got it in the grocery store one day and picked it up because the cover interested me. Being as inattentive as I sometimes have a tendency to be, I didn't realize that it was part of a series until I got it home. But I read it anyway and I was incredibly glad to have done so.

Jen, Thib, Vera and Absolom are back for the third installment of the series. This time, Jen & Thib have been given a bodyguard job for their Guildmaster's old friend, Saul. He has been feeding information to Owen (the Guildmaster) regarding the Dreams smoke trade and the family of someone he informed on has sent an assassin after him. His own bodyguards are on vacation. Since it should be a fairly easy job, he sends Jen & Thib. But things are never as easy as they seem. Saul has a lot to hide and has the help of beautiful psychopath Gideon to try to keep them from finding out what is going on.

This is by far one my favorite of the three books. Even though you can see where the main plot of the story was going, it was interesting to see how Jen & Thib find out what is really going on. Gideon is a truly scary psychopath. Charming when he wants to be, but completely without morals. And the worst is that Jen is completely blind to it. Saul is just as ruthless as Gideon, but doesn't take it to the extremes.

The best part for me, though, was the character development. Jen grew up a lot in this book and her eyes actually opened to what she had in Thib. But as with many of the best stories, it isn't really a pay off, because they still are afraid to tell each other what they are each thinking and miscommunication becomes the norm. Jen manages to lose her confidence and gain it back, and Thib gains a backbone. We find out more about Vera's past and one of the most important relationships of her life. While we don't learn more about Absolom, his relationship with Vera gets explored more.

The only problem that I have with this series is that there hasn't been a new book in over a decade. I keep hoping that Anne Lesley will come out with a fourth book in the series, but I haven't heard anything new on it. Still, I constantly have hope. Because I can't have anything less!

### **T J says**

This is the 3rd in the Cloak & Dagger series and it doesn't disappoints. Jen and Thibault are out on an easy assignment guarding an old friend of the guildmaster. While her aunt is secretly tagging along with her pet wizard. There is a lot of intrigue, mystery behind the scenes that will keep you guessing to the very end. Be prepared this is last book but it will have wanting more.

this trilogy is in a good category in that they can be enjoyed by teens and adults (i think!) alike. the characters are fun, the dialogue snappy, and the plots interesting, even if the reader can be absolutely certain that everything will turn out alright. always wished the author had done more with the protagonists' romance, but you can't have everything. :)
