Claimed Lulu Pratt

She's got my name written on her, she belongs to me.

I'm wallowing in my PTSD and toasting my army buddies who didn't make it home when I notice this insanely hot chick all alone in the bar.

Before long she's wrapped in my arms back at my studio.

She only sees me as a bit of rough for the night but after one taste I want more.

Being a naughty girl for once in her life, she begs me to tattoo her. Fine by me.

I doubt she'll remember me in the morning, so I tattoo my name on her ass.

Cybil takes off without giving me her number, but I'll find her.

She's mine now, she belongs to me.

She is claimed.

Whether she wants to be or not.

It's no secret that I'm a Lulu Pratt fan!! I always like her books and the story just sucks me in!

Claimed is no exception to the above. Cybil and Cash's relationship starts out in a weird way and progresses fast but who cares, we are all in it for the love!

Cybil wakes up after a wild night with a huge hangover and a man's name tattooed on her backside :-P Trying to remember what really happened comes out blank. Cash is the said man; an ex-military now tattoo shop owner. They met at the club the night before and their connection is instant. However, Cybil left in a hurry and he never got her number. Determined to find her, he turns up at her job without counting that she may not remember him!

That was a funny story, especially when Cybil woke up and found out about the tattoo. Cash may have the whole tattooed bad boy image going on but he's a really sweet guy. He loves deep and hard and there's nothing he won't do for his loved ones, even hurt them to spare them from worse. The ending was beautiful and wrapped up the story just right!!

WATCHING DREAMS COME TRUE!!!

This is one fantastic, page turning, action packed, fast paced, smooth flowing read that captivates from the start. Talk about a ride on the wild side. Lulu totally nailed this bad boy. She kept it real with all the drama you can handle along with a few tears. It was to be expected. The characters are well developed, believable and easy to love. Their personalities are vast and varied with qualities and traits that balance out perfectly. The scenes are on point and play out in real time with a strong plot that keeps the suspense high and tension higher. You feel every emotion as the each character if it were your own as page after page you sat in awe as the story unfolds before your eyes. All the twists, turns and surprises bring everything together beautifully. Lulu did an amazing job with her talent and insight bringing this read to life flawlessly. Fantastic job Lulu, thanks for sharing this awesome read us.

I am a huge supporter of our Veterans and their families. Lulu Pratt, I, personally, would like to thank you for bringing attention to the very real struggles they face upon returning home. The fact that you have created a beautifully written romance with your latest release, Claimed, not only doesn't surprise me because of your talent but I expected nothing less from your amazing self. I am in awe of you. I strongly encourage all romance junkies like myself, to follow along on Cash and Cybil's hard won journey to their happily ever after and the struggles they faced in getting there. This is one superbly written romance that I highly recommend as it not only displays Lulu's talent as well as an awesome storyline with characters that are sure to melt your heart the entire time.

I was beyond fortunate to have requested an advanced reader's copy of Claimed in exchange for my honest

opinion and I highly recommend this book as well as anything written by Ms. Pratt.

I love reading Lulu Pratt's books, and this was no exception!! It was such a quick read and I got completely lost in the book. She took two characters with completely opposite personalities and wove them together beautifully. Cybil is a yoga instructor into organic living. Cash is an ex military tattoo artist/shop owner dealing with his own personal demons. These two meet by chance and connect on a crazy level that neither believed existed. It was hilarious for Cybil to have to figure out she spent that night she first met Cash, especially since left her with a life long souvenir. He should have been honest once he realized she didn't remember their first encounter, but it was understandable that he wanted to see if their connection lasted outside of her drunken inhibitions. Just when things seem to be going good, fate throws a curve ball, and Cash makes a rash decision. Cybil doesn't give up the fight though and they get their happy ending!

I was gifted a copy in exchange for an honest review.

Great book

Not alpha military tattooed male with a strong new age yoga instructor female, but instead of the woman getting saved it's her saving him. Nice for a change, he was a man out of the military with ptsd and a wild set of biker parents he wanted to save. She's a gal looking for that extra special someone, and one unusual night they find each other, and you even get a great HEA.

Tattoos and yoga

This story would make a wonderful comedy movie. Cybil is yoga instructor who falls in love at first sight with a military veteran tattoo artist. Unfortunately she was drunk at the time so doesn't remember, except the tattoo on her rear is a clue. Cash, our hero, hunts her down and takes her overpriced yoga class and is stunned over her lack of memory. Crazy motorcycle leather parents, comedians for friends and more tattoos round out this fun read.

Cybil is out partying with friends and ends up drunker than she planned. Cash is out for a drink when he sees a gorgeous woman standing before him. Unable to help himself he starts talking to her and they end up back at his shop. They connect and don't want the night to end. Yet before Cash can get her number or even give her his she is gone quicker than a lightning strike. When Cybil wakes the next morning she has no idea what she did the night before only that her backside hurts. One look and she sees that she got a tattoo and not just

any tattoo but a guy's name. Meeting up with her friends she tries to piece the night together but she disappeared on them so even they can't help. Cash wants to find his wild woman so he tracks her down to her yoga studio what he didn't count on was that she was drunk enough the night before to completely blackout on him and what they did. Will Cash come clean about their night together before Cybil figures it out herself? Can Cybil forgive Cash for hiding who he is?

This is a great story once I started I couldn't put it down. The chemistry between Cash and Cybil is off the charts hot. This is a well written and very entertaining story. I would recommend this book to any book lover.

I'm a big fan of Lulu Pratt's I really enjoy reading her stories. Cash suffers from PTSD sitting in a bar he toasts to his fallen comrades and then he see's her sitting at the bar all alone so Cash goes over to her. Cybil is alone getting drunk when a handsome man comes over and starts talking to her, they end up spending the night together. When Cybil wakes up she can't remember what happened all she knows is that her butt is sore and she has the name Cash tattooed on it. I loved this story I had a good chuckle and also had a few tears rolling down my cheeks a very emotional story so thank you Lulu for writing about PTSD it's a very common thing with our war heroes. A fantastic story a 5 plus ?? read and I highly recommend this book it's definitely well worth the read.

Firstly i need to compliment the author and the cover designer for the sexy cover, the cover alone says it all, that this is another sexy book that will have you shifting your whole daily schedule around to be able to sit down and read this book without interruptions.

As with all her other books Lulu Pratt has hammered out another fantastic, awesome, perfect, fabulous, amazing (im running out of adjectives here) book with a wonderful and engaging storyline and characters that you cant help but fall in love with.

Imagine waking up in the morning and finding a mans name tattooed on your bum cheeks and you cant remember a thing as you were blackout drunk ? Now if you are a clever woman you start tracing back each step you took and what you did the night before or if you are lucky enough the man of your dreams shows up in your yoga studio and sweeps you of your feet!!!

The night Cash branded Cybil wasnt enough for him now he's out to claim too and make her his.

I voluntarily read an advanced reader copy of this book.

Such a cute little romance this one was. I laughed. I cried. This one seemed to hit all the stops. I never read a Lulu Pratt book before, and I'd definitely would go back for more. There was a little insta-love thing going on. But, that's fine by me cuz Cash and Cybil's love story just seemed to fit. And, Cash's parents?? You just gotta love an old-time biker chick and her man. The mom was a hoot. And, damn that cover??? So gorgeous! This was my 100 book read so far for this year. So, I'm well on my way to meeting my challenge for 150 books...

Merry Jelks-Emmanuel says

Can you imagine waking up with a tattoo plastered on your behind that says CASH! That's exactly what happened to Cybil. She and Cash had one wild night and now he has decided that he was going to pursue Cybil and make her his own. These two are so opposite and yet they make for one interesting couple as these two fill us with wacky drama that will have you captivated until the very last page. I voluntarily agreed to receive an ARC of this book for an honest review.

Make this a Movie!

Wow, this is too funny throughout 2/3 of the story. I laughed and chuckled at their retorts to each other and themselves. Then the first time Cash thinks about telling Sybil about his PTSD, I got emotional and my breathing hitched. But it didn't even prepare me for his selflessness to set her free because he thought he needed to help his family and that he thought of himself as 'damaged goods' and her bravery to save him

from himself. Honestly, so easy to give them a face and love them from the get-go. Loved this story... Would be nice to make a movie with some new faces.

Falling? All Over Again

Drunk yoga teacher, Cybil?? gets a tattoo of a man's name on her butt. She can't remember any of it but she thinks he was probably a tattoo artist.

Tattoo artist and ex military man, Cash???, meets Cybil?? at a bar next door to his studio. He is a womanizer of sorts, but He kinda likes what he sees. Taking Cybil?? to his studio, she wants a Tattoo and against his rules about drunks, he gives her one. He tattoos his name on her butt.

The book goes on with the two trying to figure each other out. It's silly, it's fun, it's a romantic comedy.

ARC Received from Bad Boy.

I also got The book? with KU.

Cheryl Graham-Petit says

What do you get when you put a bad boy tattoo artist and a good girl yoga instructor together? You get a well-written, fast-paced, hilarious, and captivating romance story. There's well-developed and likable characters, drama, suspense, off-the-charts chemistry, and plenty of steam.

I volunteered to review an advance reader copy of this book.
