Running away was Zoe Sinclair's answer to her problems...

Zoe has missed too much since she fled home ten years ago. Now it is finally time to go back. And with her friend's birthday party days away, it is the perfect opportunity. On her way into town, her car breaks down, and then she's attacked and left for dead among the dirt and dust on the roadside.

Spencer McLaren never left home, but his heart did. In the same moment Zoe fled...

Spencer had always been in Zoe's life. Every time she'd needed him, he'd been there, arms open wide. When he spots a broken and battered Zoe stumbling along the side of the road, he can't help but swoop in and rescue her. He rushes her to the hospital, but when she's released, he can't seem to let her go. Not again.

Physically, Zoe feels fine. Emotionally, her head and her heart are a disaster...

Spencer takes Zoe into his home and assigns himself the task of guardian and nurse. But her return puts strain on Spencer's relationship with his brother, who isn't happy to see Spencer falling for the girl who broke his heart again. Zoe knows she should leave, but her attacker is still out there, and being with Spencer is the only place she feels safe. She wants to make up for the pain she caused him in the past, but the attack has left her so broken and scared.

Despite Zoe's hesitations and constant battle to keep her emotions in check, Spencer is determined to keep her safe and make her never regret finally...

Aundrea Mielke says

This book tore my heart out. What a deep story that shows the bad and the good, when hearts are broken and love is miscommunicated. Spencer and Zoe were meant for each other at a young age. When they get older they grow apart because they never told each other their feelings, never wanting their friendship to end. After nine years Zoe comes back home only to have the worst event happen to her. It crushes her. Spencer is the man Zoe trusts and with that trust and love he helps her become strong again. What happens after you will have to read without me giving it away. It is not the events and the ending you are expecting. This is an emotional read. This is a cliffhanger book, but the second book is coming out soon. I am definitely ready to see how this story gets completed.

Sassy Southern says

Zoe Sinclair has not been home in years but she has decided to come back to attend her friend Katie's birthday party. But nothing prepares her for her car breaking down on the way into town and then being brutally attacked and raped and left for dead. But she is rescued by Spencer McLaren, one of her best friends growing up.

Spencer vows to protect Zoe from anyone harming her again and he struggles to keep his heart under control from the one girl who broke it in the past. But as Zoe's attacker is still out there, Spencer knows he must do what is best for her and tries to hide how he feels.

As Zoe and Spencer gradually become honest with each other, will they risk their friendship for a shot at love or are they better off as best friends where neither will get hurt?

This book sucks you in from the beginning until the end with the relationship between Spencer and Zoe. Right from when they were 4 years old they knew they belonged together but as they got older both of them tried to push their feelings aside but deep down they were always in love with each other.

After Zoe is attacked Spencer battles his own feelings and wants to put Zoe first but is having a hard time reconciling what she went through and how he feels. He denies how he feels for so long but we all know how he truly feels about her. There was absolutely nothing that he wouldn't have done for her and that is true love.

The very end of the book was like a stab in the heart and it killed me! I was not expecting this at all and was just absolutely shocked! I have no idea on how the author is going to make this up to me but I'm still looking forward to the second book in spite of my emotional roller coaster from this one!

I got this book via #QuirkyBlindDateWithABook

I loved this book, It took me a while to get it read because I couldn't concentrate on anything. I finished it sitting in the car in a parking lot (not a good idea) I was crying so hard. So maybe if your towards the end make sure your not in public.

This books sent my emotions all over the place. I look forward to reading more by this author, as this was my first!

"I just told you I love you. And I meant it. I want you to come home. It doesn't have to be today or tomorrow, but I want you home. In our home. In our bed. With me. Always. And that, Princess is the key to the front door. " My favorite lines in the book!

I loved how Zoe was able to stand up to her attacker. She is such a strong character who went through so much. I loved how Spencer was there for her even when she pushed him away.

3.5 Stars for this book that had some unexpected twists that you may not see coming.

Zoe returns home after 10 years and returns home to Spencer, her childhood best friend, his brother Kane and their friend Derrick.

The first few chapters are intriguing and will have you engaged as there is drama right off the bat with Spencer finding Zoe broken and battered on the side of the road. You immediately want to know what happened to her, who did it and what is going to happen.

As Spencer takes care of Zoe you will find out if they are just friends or if there is a deeper connection there. As the story continues on you will discover an ugly revelation that while I had an idea that it was coming it still made me want to scream and say what the fuck NOOOO and Rebecca will totally blow you away with the ending that had me shocked and I have to say a little distraught.

I would have liked to know what made Zoe run away from home to begin with I think that may have added more to the story. Overall a good read.

If you are looking for an unexpected twist and a heart-wrenching conclusion then I suggest this book.

This book made me feel so many things, mostly at once. The characters were fantastic and the storyline.....well, it was heartbreakingly beautiful but most definitely worth the read

Sarah Green says

#BookSmacked read to review. Wow, such an emotional piece. With a little light and then a whole lot more dark. One major question unanswered though, as to why she left to begin with. Total surprise, this one.

This book GUTTED ME!

I absolutely loved the play between Spencer and Zoe. Both characters were well built and were realistic in relation to the situation. I also loved Derek.... He played off his friends well and how he interacted with Zoe in her time of need through both incidents was beautiful to watch.

The plot was strong and intriguing. Hated the twist though..... Cue ugly cry. I cannot wait to see where the story goes next.

I HIGHLY RECOMMEND THIS BOOK TO PEOPLE WHO LOVE UNPREDICTABILITY, STRONG CHARACTERS, GREAT PLOT AND UNEXPECTED ENDINGS!

This wasn't a book I would normally pick up, but I'm glad the opportunity arose that I was able to read it.

Coming Home hit on so many emotions: love, rage, sorrow. Zoe and Spencer's relationship was so deep and timeless. There was a point that I was heartbroken by events that took place, but love always wins out in the end.

Lisa says

The topics and overall storyline were heartbreakingly beautiful but not the type of things people should ever

have to go through. That being said, the story seemed kind of broken in ways. It was a little choppy and the ending was out of left field and very quick - almost felt like someone said, "ok you only have a few pages left that you're allowed to write. Get the ending done."

Marnie says

Absolutely loved Spencer!!!

I have to admit to struggling with my review for Coming Home. It left me speechless, and I honestly needed to take a breather.

While it was a story that I enjoyed reading, it left me with so many questions that there was more frustration than enjoyment, and I really believe that had more backstory been provided, it would have made reading about Zoe and Spencer a more well rounded reading experience. That hasn't stopped me buying books two and three, however.

If you can overlook a slightly less than smooth writing style, and a few minor plot inconsistencies, you will enjoy Coming Home as the friends to lovers story that it is, about working towards healing, and seeing the love and support in friends around our heroine. There was a huge plot twist at the end – Rebecca Barber, you broke my heart! 4 stars

Ch says

Oh wow. This is not the average/typical "best friends loved each other since they were babies" no this is so much better.

I loved how she took this story and added a twist in the end. You kept waiting for the reveal of who and why. And even though I had my suspicions I was still shocked how it was revealed.

This is a 3.5 stars from me

The only thing I felt was missing was why she left in the first place.

Lori Hoffman says

I just loved this book it was increditable. But it was sad when she got attacked and nobody new how to help her. Her best friend Sam stood by her even when he could not tell her his true feelings for her and she hid her true feeling from him then they finally told each other how they felt they had a couple of hours really together. They went to a party together then the truth came out who attacked her and that man killed Sam even it was his twin brother. He left everything to her and she got rid of it because half of it was his brothers. It brok her again then their best friend the cop moved in with her to help her cope with the lost.

Becky says

Awesome book many ups and downs but the ending was not expecting

Laurie says

On her way back to her hometown, Zoe is attacked, raped and left for dead by the street. She's then found by her childhood bestfriend, Spencer whom she'd have a story with - they were in a sort of relationship but we don't really know - 10 years happened since they last saw each other and Spencer takes upon himself to take care of her after she leaves the hospital. Around them, we meet Kane, Spencer's twin and Derek, Spencer's best friend. They all see Zoe as their "girl" and kind of try to protect her.

Truthfully, I only read the book till the end because I'd made the mistake of reading what the 2nd book was about and ended up being majorly spoiled. Given what happened at the beginning of the book and all the possibilities the author had, you'd think this would be an okay read. Well, it wasn't. It was extremely boring and repetitive, with Zoe trying to pretend she was okay and getting angry when people would call her on it, then having break downs. I get that what happened to her wasn't easy but many things she did - like going to that party right after she got out of the hospital - annoyed me. We had little informations about the characters in general, we knew little about their past and even knowing what was going to happen at the end, I couldn't see the twist comming - or couldn't get in anyway. At some points, I fell like any of those guys - except Derek maybe because he was really nice - could have been the rapist and at others, I'd think "no way, they're just so nice" and that's to say how little we knew about them and how difficult it was to get attached to them and read till the end. Which I did and I still can't say I'm convinced about the plot twist. I think it could have been handled way, way better than this.

The end is pretty unusual (view spoiler) which is one of the things that I liked - if not the only one - but, once again, I think it was handled poorly and it didn't make me sad as much as it could have. God knows I cry for nothing! I mean, during the book, Zoe makes Spencer watch the movie **My Girl** with Macaulay Culkin which is a movie I've had the courage to watch once and only once because afterward, I think I cried like a baby for days. Even reading about it in the book made me teared up so yup, I'm an easy crier. So, when you've wrote a sad ending and I don't cry, it means that it was poorly, poorly handled.
