Double Her Pleasure (Double Seduction #2) by Randi Alexander

5 of 5 Stars

Here we have the second installment (which can be read as a standalone) of this friggin' hot series in which we get to know Megan and her two men, Garret and Trey, much better than we did in the first book. I just thought that their escapades were off-the-charts hot when they were in Chicago. Now they're on the Silver Spur ranch in Texas and not only has the level of hotness shot through the roof, there's an unexpected twist that has everyone's nerves in a tizzy.

Seduction skills such as the ones possessed by Trey and Garret are worthy of being taught to the masses! These guys really know how to melt a lady to their wills... After Megan's initial trepidation in regards to joining the brothers in their unique "lifestyle" finally gives way to complete and utter passion as unbridled as

the wild horses that roam the Spur, she discovers that she doesn't want to imagine her life without both men in it. Do you blame her? I sure as hell don't!!

I love that we get to see deeper into each character's personality and realize that there's definitely more than initially meets the eye with the McGatlin brothers. Trey shows a bit of anger and Garret allows his sensitive side to take the reins from time to time. Not only do our three lovebirds melt panties and hearts with their odd, yet successful, triangle, they show us that sometimes we'll never know what someone will think about a situation until we ask them. Sometimes, the answers may surprise us! Also, denial of emotions gets you NOWHERE, especially when it comes to the L word.

I love that Megan has not only one, but TWO smart, sexy, and caring men to look after her when she needs it the most. Can I have a Trey with a side order of Garret??? Make those double portions, pretty please!! And I wouldn't mind having some of that casserole that Inez makes, while you're at it!!!

I received this book from the author, Randi Alexander, for an honest review and so I shall deliver.

The Review

We met Trey, Garret and Megan in "Double Her Fantasy"(Read Review [HERE](#))and I drooled as the three burned up the sheets together. In this book they're still burning up the sheets, but this time they're doing it at the McGatlin Ranch.

But Megan has a stalker who frightened her so bad in college, she changed her name, looks, everything. Even her MAJOR!

After her picture was taken with Garrett(a movie star) she fears he'll come after her again. If he does, she's hoping he won't be able to find her on the ranch. She's also hoping she'll either get the McGatlin boys out of her system or they'll make this menage relationship something more permanent. But will they feel the same? Or will she be just another notch on the bedpost?

My Final Thoughts: I absolutely LOVE Trey. He is sensitive, protective, giving, caring and just a sexy, sweet ol' cowboy. Garrett is nice too, don't get me wrong, but he is a little more immature, selfish and skittish when it comes to the ranch. He ran once from it and his duties, leaving Trey to carry the entire load, while he was off becoming a movie star. He's always sworn he wouldn't come back permanently, so will having a chance for a relationship with Megan be enough to change his mind?

Trey makes it plain he'd love Megan all for himself. But he's also willing to share her and the ranch with Garrett if that's what he and Megan want. Megan is all the woman he would need. But would Trey be enough for Megan? Or will she leave the ranch if she can't have both? Will Garrett even want her? And what about her stalker!?? Will he figure out where she's at? or will Megan finally find the peace she needs to let

her guard down and just enjoy life and love?

Randi Alexander has become one of my favorite authors, but I hold her to a standard that I don't hold those who I don't read often or love. But thus far she hasn't let me down. She knows how to write a panty soaking scene without making it vulgar and knows how to write a scene that will make you fall in love with her characters and with love itself.

Oh...so....HOT...continued

This story is a continuation of Double Her Fantasy now will Trey and Garrett show Megan they can Double Her Pleasure??? Megan has never done anything like this and though she is attracted to both men she is not sure she can choose.....will taking her to their ranch in Texas give them more time to win her over or will signs start showing up that her stalker has found her????

Dara Brown says

First off, let me state that I received this book in exchange for an honest review.

Double her pleasure is the continuation of Double her Fantasy. I must say that I didn't think it could get much steamier than the first book. I was wrong. After spending a week together in Chicago, Garrett and Trey convinced Megan to return to Texas with them. She agreed.

Things start getting fairly serious between the three of them, and they decide to move to a new level...the original agreement was that nothing sexual could occur unless they are all three together, and now, with a bit of reluctance from Garrett, they all agree that they need one on one time in pairs.....

As things continue to progress in the right direction, a horror from Megan's past resurfaces. Megan wants to run, but Garrett, Trey, and their parents convince her to stay.

I'm anxiously awaiting the next part, so that I can find out more!!

Pearls says

Double Her Fantasy was just a taste, Double Her Pleasure is a full course meal. In this sequel, the author has fleshed out the characters. We get to see the men behind the image, the reality behind the fantasy. And the truth is even hotter. As Megan visits the McGatlin ranch to spend time with the brothers, we fall in love with each right along with her. And the return of her stalker brings an edge to the plot. PS. If a McGatlin brother asks you for a ride on his 4wheeler, you say YES!

Ginger says

Wow!! Why settle for one cowboy when you can have two? This is the second book in the Double Seduction series. Megan Shore journeys to the Texas home of two brothers that she met at a convention. She has developed a relationship with both but is it enough to keep her there? When a threat from the past shows up, as well as each set of their parents, can the brother's love keep her in the lone star state, or will she be on the next plane to Canada? This story was hot, fast, and leaves you eagerly waiting for more!! Great job again, Randi!!

Malinda says

3.5-4 stars

This was a pretty good story. I liked all three of the characters in book #1 and this was just a continuation of that story (it picks up around a week and a half after the first book leaves off). IMO, the first book Double Her Fantasy in the series should be read before attempting to read this one.

Megan is a graphic novelist that has a stalker from years before. She also has missionary parents that have never really been what you'd call supportive. Trey is a cowboy and runs the McGatlin ranch. Garrett is his brother and is a movie star so he doesn't spend much time on the ranch (and has been considering dropping his movie career).

All 3 met in Chicago and had a great weekend together so the brothers invited Mega to come stay with them on the ranch for a while. The story begins with Garret and Megan landing at the ranch where Trey is waiting for them. This is the beginning of their time together. There's sex of course and a number of issues to deal with. The last book left off with the rule that neither man can do anything sexual with Megan when all 3 aren't together and there's discussion on whether to change the rule or not. A lot of the story is just the trio getting settled in to their relationship and learning each other better...getting used to each other. Megan actually isn't there for very long when signs start showing up that indicate that her stalker has tracked her down. Mega considers leaving to protect Trey and Garret but they won't hear of it. There's added drama when Trey and Garret's parents show up and Megan's parents decide they're going to come to "take her home where it's safe" (they don't like her living non-missionary life and say she deserves the stalker for living a normal life). The story ends with a big cliffhanger as the trio is together and getting ready to face Trey and Garret's parents, Mega's parents and trying to figure out how to catch the stalker. So it's a good setup for the next book but be prepared for a wait since it ends pretty much in the middle of the drama.

I enjoyed this story. I still like the characters and was happy to see more of their story. I do wish I'd have known this was a cliffhanger though...I still would have read it but I might have waited until the next book comes out so I wouldn't have to wait for the conclusion. I'd recommend this for anyone that read and enjoyed the first book Double Her Fantasy. :D

2/2/17 - This was a reread of books #1 & 2 before finishing off the rest of the series. I still like the story and this addition to it.

Sheri says

Wow! Randi smoked the pages again. This book is hot! Megan is now on the ranch with Trey and Garret. I'm biting nails waiting for the next book...this one ends with a cliffhanger!

This book was provided to me in exchange for an honest review.

Megan has come to Texas! Trey & Garret want to show her that everything including their love is bigger. Maybe it's too soon for love. But with her stalker hot on Megan's heels, Megan wants to keep everyone she cares for at a distance. I love how Trey and Garret work over time to make things safe. While this was the second in the series, it started off fresh and I don't think I would have missed anything by not having read the first.

Aloveslave says

This book is one of a four part series. The first book is "Double Her Fantasy", the second, "Double Her Pleasure", the third "Double Her Temptation", and the wrap-up is "Double Her Destiny". I highly recommend they be read in order, as they have cliffhangers at the end of each book.

This review will give some highlights of the last three books. "Double Her Pleasure": Garrett, the big Hollywood movie star, and his equally handsome brother, Trey, shared a very steamy, mind blowing ménage with Megan the week before in Chicago.

Megan has accepted the brothers invitation to visit them on their ranch in Texas. Less than a week after they drop her off at her home in Canada, Garrett picks him her up in a private jet bound for Texas. What Megan does not know is that the McGatlin family owns one the largest ranches in Texas. The airport is 8 miles inside their property and they drive for about an hour before they reach the ranch house.

Now that she's on the Silver Spur the brothers want to keep her long-term. They share a few days of glorious ménages. But soon her stalker from her college days appears after he has spent 11 years in prison. The brothers have promised her that she will be safe with them on the ranch. But when he invades their state-of-the-art security system, Megan is considering returning to her retreat in Canada. She does not want the McGatlin family to be at risk. Will she stay with her lovers or will she retreat back to Canada?

"Double Her Temptation": Megan enjoys their very hot, steamy escapades, but after the stalker becomes bolder, her parents, who are missionaries in Alaska, come to take her back with them. Their motivation is not so much to protect her, as to protect their reputations as very conservative, self-centered pious jerks. They blame her for being stalked!

The brothers are doing everything they can to keep her on the ranch and keep her safe. Will she stay with the loves of her life that she is quickly falling in love with, or will she allow her parents to kidnap her back to Alaska and ruin any chance of her future happiness with her two lovers.

“Double Her Destiny”: in this final installment, Megan marries her two lovers in a very private ceremony. Which one will be her legal husband? Megan does not know until she arrives for the ceremony. Then at their reception (that everyone in the county thinks is a barn raising celebration for rebuilding the horse barn that her stalker burned so he could kidnap her again) another shock threatens to possibly destroy their relationship. Will this new information, bring them closer together and help them have their dream of a family destiny with the three of them together or will their love not be strong enough for Megan, Garrett, and Trey to face this new development and break them apart forever?

This is an extremely hot romance with a lot of lovemaking, The lovemaking is a crucial part of the story and the sex is not gratuitous-- but there is a lot of mind altering sex!

Randi writes the best erotic romances anywhere. There is a lot of sizzling lovemaking, but there is also a serious story of growth and danger underlying the love of these three, which keeps you in suspense as to what the final outcome may be. This is perhaps my favorite Randi story!

Ronda Tutt says

Sexy, Tempting, & Sweet!

Wow, what a sizzling adventure. This novella is every bit the sexy, tempting, and sweet blissful story that comes with a ménage. (Heat level 5 flames). What I love about this author's work is that not only does she write the hottest erotic scenes but her stories are always captivating with a little mystery and suspense added to the climax of the story – so basically you get 3 climaxes – LOL – yeah, theirs, yours, and a teasing cliff hanger leaving you anxious to start the next book. Love it!

Megan is the luckiest girl. In the first book “Double Her Fantasy” Megan gets a taste of Trey and Garret in Chicago leaving her with blissful memories to take back home with her to Canada and not ever imagining that she would get to be with them again or that a relationship could ever form. Well in this 2nd installment the two Sexy Cowboys Trey and Garret McGatlin just have to have her again and they invite her up to their Texas Ranch the Silver Spur for the week and let's just say the threesome sizzles.

The story shows the emotions of all three characters in dealing with the set rule of never one on ones and only having sex with them three all together. Well in order to further their relationship, Trey wants Garret to agree to change the rule and have their separate time with Megan. The reader gets to see the semi-jealousy from each brother but then a comfort knowing that they each respect the other's feelings as well.

The plot keeps the reader interested with the background of Megan's past stalker whom seems to have followed her from Canada and leaving her unwanted flowers with notes. To top it off with the threat of the stalker in town, Trey and Garret's parents show up, Megan's parents are on their way to take their daughter home, and now the threesome has some explaining to do about their relationship to their parents which leaves the reader hanging and desperate to read the next book to find out their reactions and if the stalker will ever be caught before he does something more dangerous than he did in the past.

The chemistry between the characters is breath taking. Trey and Garret are not only sexy but they are tender and passionate. Megan describes them best:

“ **“Trey. Garret.”** Megan's breathy voice came between her panting. **“You are every fantasy, every pleasure, all rolled into one perfect package.”** ”

Trey and Garret has Megan melting with these sweet words:

“ *”Sweetheart, when you look at me like that, I wanna haul you down and love you hard.”* ~ Trey

“*Sexy, Tempting, and Sweet*” ~ Garret

Excellent Read!
