## The Book Man says

I enjoyed so much reading this book! ^\_^

If I would have free time, I would re-read it over and over again.

I felt in love with the way the author writes.

\* How cool is counting while you're dating?!

"Cassie thought for a moment, 2 years, 5 months, 3 weeks, 4 days, 5 hours and 14 minutes."

\* This letter is surely written honestly, isn't it?

"My Dearest Cassie,

I have given thought to what transpired and I have come to the conclusion that I am a stubborn man. I want you to be happy and I know that if you follow your dream you will go to bigger and better things. I should have told you how proud I am of what you are about to do, not let you walk out of my life. I want us to work out and if that means going with you, then I would be honored to move to New York with you. I need to know what you want, because as I am writing this I know that the only thing I want and need is for you to be by my side. Say the word and I will be there for you, it's up to you. Do you want to be with me?

Love always,

Seth."

\* !Something to keep in mind!

~ "You will never know; if you do not take the chance."

## Mary says

I won this book on Goodreads. This book should have been an easy read because it was mostly conversation but I found it a chore to finish reading. It was dull, predictable and full of grammatical errors.

## Charlotte Gerber says

This story was a love story - the kind that starts in high school, ends badly, and you spend the rest of your life wishing you could get a do-over. In this story, however, the main character gets the do-over.

Cassie is the girl who has the love of her life in high school, and then when her boyfriend wants to marry her, she gets spooked and heads to life in the big city. She gets what she wants - success, a high-powered boyfriend, but just when she thinks it is all sunshine and roses, her boyfriend shows his true colors, which brings the world crashing down on her.

Instead of going on a vacation with her cheating boyfriend, she heads back to her home town to help her sister get ready for her wedding. This diversion seems simple enough, but then the high school boyfriend

reappears. Unfortunately, he is engaged. And then... he isn't. The story will keep you guessing who will be the winner of the love triangle until the end. The cheating boyfriend and her high school sweetheart will each have to convince her that they are the everlasting love she craves.

I received a copy of this book from the author in exchange for a fair and honest review.

I was drawn into Cheryl Person's book, *Follow Your Heart*, from the first chapter. I had to read it in one sitting as it just would not leave me alone. I had to see what would happen to Cassie and Seth.

Cassie and Seth are childhood sweethearts. The evening Seth proposes, Cassie turns him down for a chance to go to advertising school in New York City. Seth feels the need to stay in Texas and help run his family's jewelry store and to restore his aunt's house into a bed and breakfast. Neither believes a long term courtship will survive. Ten years later finds Cassie getting a promotion in New York City. She has made a home for herself, has a job she loves, and is dating a handsome young man, Chad. The two are headed for a long awaited vacation when Cassie's sister, Courtney, her fiancé, and her mother come to New York City to persuade Cassie to come to Texas to help with Courtney's wedding plans. After finding that Chad has been cheating on her, Cassie finds herself in Texas. Meanwhile, Seth and his sister have renovated their aunt's house to a bed and breakfast and Seth has just had his engagement to Rebecca who just happens to be Courtney's fiancé's sister broken by her. Courtney and others seem to want Cassie and Seth to get back together and yet every time they try to talk, they are interrupted. While going through things she left behind, Cassie finds a letter from Seth from ten years ago. Just as she finds it, Chad appears on the scene. Will things work out for Cassie and Chad or Cassie and Seth or will she go back to New York City and her wonderful job?

The twists and turns in this romance keep you on your toes. There is never a moment where something isn't going on to complicate Cassie's life. Cheryl did a wonderful job in creating her characters. I came to care for them very much.
